Recommendation	vii
Preface	ix
Acknowledgments	xi
Introduction	1
Previous Attempts to Define Flexibility	1
One-Word Definitions	2
Range-of-Motion Definitions	2
Ability Definitions	2
General Problems	3
A New Definition	3
Components, Demonstrations, and Measures	4
Summary	6
 Part I Practical Considerations	
 Chapter 1—Stretching Techniques and Exercise Prescriptions	11
Yoga	11
Slow/Static Stretching	12
Dynamic Stretching	12
Comparison of Slow/Static, Dynamic, and PNF Techniques	15
PNF Variations and Effects	15
Reversal of Antagonists (3S)	16
Exercise Prescription for 3S	18
Summary	21
 Chapter 2—Stretching the Major Muscle Groups of the	
Lower Limb	23
Exercise 1—Hip Extensors (3S Method)	24
Exercise 1—Hip Extensors (Alternative Methods)	25

Exercise 2—Hip Adductors (3S Method)	26
Exercise 2—Hip Adductors (Alternative Methods)	27
Exercise 3—Hip Flexors (3S Method)	28
Exercise 3—Hip Flexors (Alternative Methods)	29
Exercise 4—Hip Inward (Medial) Rotators (3S Method)	30
Exercise 4—Hip Inward (Medial) Rotators (Alternative Methods)	31
Exercise 5—Hip Outward (Lateral) Rotators (3S Method)	32
Exercise 5—Hip Outward (Lateral) Rotators (Alternative Methods)	33
Exercise 6—Plantar Flexors (3S Method)	34
Exercise 6—Plantar Flexors (Alternative Methods)	35
 Chapter 3—Stretching the Major Muscle Groups of the Upper Limb	37
Exercise 7—Shoulder Extensors (3S Method)	38
Exercise 7—Shoulder Extensors (Alternative Methods)	39
Exercise 8—Shoulder Horizontal Adductors (3S Method)	40
Exercise 8—Shoulder Horizontal Adductors (Alternative Methods)	41
Exercise 9—Shoulder Inward (Medial) Rotators (3S Method)	42
Exercise 9—Shoulder Inward Rotators (Alternative Methods)	43
Exercise 10—Wrist Flexors (3S Method)	44
Exercise 10—Wrist Flexors (Alternative Methods)	45
 Chapter 4—Stretching the Major Muscle Groups of the Trunk and Neck	47
Exercise 11—Trunk Extensors (3S Method)	48
Exercise 11—Trunk Extensors (Alternative Methods)	49
Exercise 12—Trunk Lateral Flexors (3S Method)	50
Exercise 12—Trunk Lateral Flexors (Alternative Methods)	51
Exercise 13—Trunk Rotators (3S Method)	52
Exercise 13—Trunk Rotators (Alternative Methods)	53
Exercise 14—Neck Quadrant (Range-of-Motion Method)	54
 Chapter 5—Advanced 3S Stretching Exercises for Figure Skaters, Gymnasts, Divers, and Dancers	55
Exercise 15—Hip Adductors (Advanced)	56
Exercise 16—Hip Extensors (in Flexion)	57
Exercise 17—Split (Adductor-Extensor)	58
Exercise 18—Split (Adductor)	59
 Chapter 6—Sports, Fitness, and Dance Applications	61

Part II Theoretical Considerations

Chapter 7—Flexibility and Exercise	69
Factors That Affect Flexibility	69
Ways to Improve Flexibility	76
Different Stretching Methods	77
When and How to Stretch	77
When Not to Stretch	78
Training Principles	79
Summary	79
Chapter 8—Myths About Stretching	83
Review of Reviews	83
Myth 1: Stretching Causes Injury	84
Myth 2: Stretching Leads to Damage and Dysfunction	86
Myth 3: Stretching Does Not Prevent Injuries	88
Myth 4: Stretching Does Not Improve Performance	90
Myth 5: Stretching Has No Therapeutic Value	92
Myth 6: All Forms of Stretching Have Similar Effects	93
Summary	94
Chapter 9—Clinical Concepts and Applications	97
Flexibility and Range of Motion	97
Functional Flexibility	98
Correcting Muscle Imbalances	99
Choosing a Stretching Method	100
Flexibility and Traditional Chinese Medicine	100
Clinical Techniques and Modalities	104
Diabetes Mellitus	109
Contraindications and Precautions	110
Final Remarks	110
Chapter 10—The Mechanisms of Flexibility Enhancement	113
The Muscle/Fascia/Tendon Complex	114
How 3S Works	115
A Biomechanical Explanation	119
Theoretical Interpretations of Neural and Tissue Adaptations	120
Our View of Adaptation Mechanisms: The Fascia Hypothesis	121
Conclusion	127
Appendix A: Glossary	128
Appendix B: Applied Anatomy of 3S Stretches	131
Appendix C: Research on The FlexAbility Machines	133

Appendix D: Machine and Solo 3S Exercises.....	135
Appendix E: Recommended Exercises for Specific Activities.....	138
Bibliography	141
Index	155

Flexibility: A Concise Guide

To Conditioning, Performance Enhancement, Injury
Prevention, and Rehabilitation

Holt, L.E.; Pelham, Th.E.; Holt, J.

2008, XVI, 162 p. 163 illus., Softcover

ISBN: 978-1-60327-104-2
