Chapter 1

Fuchs Endothelial Dystrophy: Pathogenesis and Management

Leejee H. Suh, M. Vaughn Emerson,
Albert S. Jun

1.1	Introduction	2
1.2	Historical Perspective	2
1.3	Epidemiology and Inheritance	2
1.4	Pathology	3
1.5	Clinical Findings	5
1.6	Pathophysiology and Genetics	6
1.7	Differential Diagnosis	7
1.8	Management	8
1.8.1	Medical	8
1.8.2	Surgical	8
1.9	Future Directions	11
1.10	Summary	11

Chapter 2

Amniotic Membrane Transplantation for the Treatment of Corneal Ulceration in Infectious Keratitis

Arnd Heiligenhaus, Carsten Heinz,
Klaus Schmitz, Christoph Tappeiner,
Dirk Bauer, Daniel Meller

2.1	Introduction	15
2.2	Clinical Aspects of Corneal Ulceration in Infectious Keratitis	15
2.2.1	Herpetic Corneal Ulceration	15
2.2.1.1	Clinical Features	15
2.2.1.2	Treatment	16
2.2.2	Bacterial Corneal Ulceration	18
2.2.2.1	Clinical Features	18
2.2.2.2	Treatment	18
2.2.3	Parasitic Corneal Ulceration	20

2.2.3.1	Clinical Features	20
2.2.3.2	Treatment	20
2.3	Pathogenesis of Corneal Ulceration	20
2.3.1	Pathogenesis of Corneal HSV-1 Ulceration	20
2.3.1.1	Necrotizing Stromal Keratitis	20
2.3.1.2	Neurotrophic Keratopathy ..	21
2.3.2	Pathogenesis of Corneal Bacterial Ulceration	21
2.3.3	Pathogenesis of Corneal Parasitic Ulceration	22
2.4	Basics of Amniotic Membrane Transplantation	23
2.4.1	Anti-inflammatory Effects ...	23
2.4.2	Anti-angiogenic Effects	24
2.4.3	Promoting Re-epithelialization	25
2.4.4	Anti-microbial Effects	26
2.5	Clinical Application of Amniotic Membrane Transplantation	26
2.5.1	Technique of Amniotic Membrane Transplantation	26
2.5.1.1	Human Amniotic Membrane Preparation	26
2.5.1.2	Surgery	27
2.5.1.3	Onlay Technique	27
2.5.1.4	Inlay Technique	27
2.5.1.5	Multilayer Technique	28
2.5.1.6	Postoperative Management	28
2.5.2	Use of Amniotic Membrane Transplantation in Infectious Corneal Ulceration	29
2.5.2.1	Herpetic Ulceration	29
2.5.2.2	Neurotrophic Ulceration	30
2.5.2.3	Bacterial Ulceration	30
2.5.2.4	Acanthamoeba Ulceration ..	31
2.5.2.5	Keratoplasty and Amniotic Membrane Transplantation	31

Chapter 3**Corneal Regenerative Medicine:
Corneal Substitutes
for Transplantation**

May Griffith, Per Fagerholm,
Wenguang Liu,
Christopher R. McLaughlin, Fengfu Li

3.1	Introduction	37
3.1.1	Key Corneal Properties and the Need for Substitutes for Donor Tissues	37
3.2	Synthetic "Artificial Corneas" or Keratoprotheses	38
3.2.1	Development of Keratoprotheses	38
3.2.2	Keratoprotheses Tested Clinically or in Clinical Use	39
3.2.2.1	Boston Keratoprosthesis	39
3.2.2.2	Osteo-odonto Keratoprosthesis	39
3.2.2.3	AlphaCor™ Keratoprosthesis	39
3.2.2.4	BioKPro III	40
3.2.2.5	Seoul Type Keratoprosthesis	41
3.2.2.6	Pintucci Keratoprosthesis	41
3.2.3	Recent Developments in Keratoprosthesis Research	41
3.2.3.1	Modification of Keratoprosthesis Biomaterials with Bioactive Factors	42
3.2.3	Stanford Keratoprosthesis	42
3.2.3.3	Collagen-based Keratoprosthesis	43
3.3	Naturally Fabricated Corneal Replacements	44
3.3.1	Self-assembled Corneal Equivalents	44
3.3.2	Corneal Layers Reconstructed on Pre-existing Natural Scaffolds	44
3.3.2.1	Corneal Epithelial Reconstruction on Amniotic Membranes	44
3.3.2.2	Reconstruction of Corneal Epithelial and Stromal Layers on Amniotic Membranes	44

3.3.2.3	Reconstruction of Corneal Endothelium on Denuded Corneal Stromas	45
3.3.3	Corneal Replacements with Noncorneal Cell Sources	45
3.4	Biomimetic Tissue- engineered Scaffolds as Templates for Corneal Reconstruction or Regeneration	45
3.4.1	Tissue-engineered Substrates as Cell Delivery Systems	45
3.4.1.1	Substrates for Corneal Epithelial Cells	46
3.4.1.2	Substrates for Corneal Stromal Cells	46
3.4.2	Acellular Scaffolds as Bio-interactive Templates for Regeneration	46
3.4.3	Corneal Substitutes with Delivery of Drugs or Bioactive Factors	50
3.5	Summary of Corneal Substitute Development and Future Clinical Use	51

Chapter 4**Phototherapeutic Keratectomy
in Corneal Dystrophies**

Berthold Seitz and Achim Langenbucher

4.1	Introduction	55
4.2	Nonmechanical Corneal Surgery – Definition	55
4.2.1	Curative	56
4.2.1.1	Corneal Transplantation	56
4.2.1.2	Phototherapeutic Keratectomy	56
4.2.2	Refractive	56
4.3	Patient Counseling	56
4.3.1	Corneal Clarity	57
4.3.2	Visual Acuity and Refraction	57
4.3.3	Recurrent Corneal Erosion Syndrome	58
4.4	Diagnostic Approaches to Surgical Decision-making	58
4.4.1	Patient Selection	59

Chapter 5

Classification of Corneal Dystrophies on a Molecular Genetic Basis

5.3.1	Granular Dystrophy Type I (MIM 121900)	88
5.3.2	Granular Dystrophy Type II (MIM 607541)	89
5.3.3	Lattice TGFBI type Corneal Dystrophy (MIM 122200)	91
5.3.4	Schnyder Corneal Dystrophy (MIM 121800)	92
5.3.5	Macular Corneal Dystrophy (MIM 217800)	92
5.3.6	Congenital Stromal Dystrophy (MIM 610048)	93
5.3.7	Fleck Corneal Dystrophy (MIM 121850)	93
5.4	Posterior Corneal Dystrophies	94
5.4.1	Congenital Hereditary Endothelial Dystrophy (CHED1 MIM 121700; CHED2 MIM 217700)	94
5.4.2	Posterior Polymorphous Corneal Dystrophy (MIM 122000)	95
5.4.3	Fuchs Endothelial Corneal Dystrophy (MIM 136800)	95
5.4.4	X-linked Endothelial Corneal Dystrophy	96
5.5	Keratopathies	97

Chapter 6

Developments in Corneal Preservation

W. John Armitage

6.1	Introduction	101
6.2	Hypothermic Storage	102
6.2.1	Storage of Corneoscleral Discs	102
6.2.2	McCarey-Kaufman Medium	102
6.2.3	Further Development of Hypothermic Storage Media	102
6.2.4	Limitations of Hypothermic Storage	103
6.3	Organ Culture	104
6.3.1	Stromal Edema During Organ Culture	105
6.3.2	Development of Organ Culture in Europe	105
6.3.3	Microbial Contamination ...	105

6.3.4	Integrity Corneal Cell Layers	106
6.3.5	Toward a Defined Organ Culture Medium	107
6.4	Cryopreservation	108
6.5	Endothelial Cell Loss and Transplant Longevity ..	109
6.6	Future Developments	109

Chapter 7

Herpes Simplex Keratitis and Related Syndromes

Anshoo Choudhary, Gareth Higgins,
Stephen B. Kaye

7.1	Introduction	116
7.2	Historical Observations	116
7.3	Herpes Simplex Virus	117
7.3.1	Structure of HSV-1	117
7.3.2	Viral Replication	118
7.3.3	Entry into the Host	119
7.3.4	Latency of HSV	119
7.3.4.1	Neuronal Latency	119
7.3.4.2	Non-neuronal Sites of Latency: HSV-1 in the Cornea	121
7.3.5	Transport of HSV-1 to and from the Cornea	121
7.4	Outcome of Infection	122
7.4.1	HSV-1 Strains	122
7.4.2	Host Factors	123
7.4.3	Viral Genes	123
7.5	Clinical Manifestations	123
7.5.1	Primary Disease	124
7.5.2	Recurrent Infection	124
7.5.3	Bilateral Disease	124
7.5.4	Neonatal and Congenital Disease	125
7.5.5	HSK in Children	125
7.5.6	Epithelial Keratitis	125
7.5.7	Stromal Keratitis	126
7.5.8	Endotheliitis	127
7.5.9	Iridocorneal Endothelial Syndrome	127
7.5.10	Uveitis	129
7.6	Pathogenesis of HSK	130
7.6.1	Pathogenesis of Herpetic Keratitis	130
7.6.1.1	Viral Component	130
7.6.1.2	Immune Component	131

7.6.2	Pathogenesis of Herpetic Uveitis	131
7.6.2.1	Viral Component	131
7.6.2.2	Immune Component	132
7.6.2.3	Anterior Chamber-associated Immune Deviation	132
7.6.3	Recurrence: Reactivation and Super-infection	133
7.6.4	Corneal Scarring and Vascularization	133
7.6.4.1	Immune Component	133
7.6.4.2	Healing Response	133
7.7	Diagnosis	135
7.7.1	Laboratory Diagnosis	135
7.7.2	Aqueous Biopsy	137
7.7.3	Diagnosis of HSV-1 in Patients with a History of Inflammatory Corneal Scars	137
7.8	Treatment	138
7.8.1	Pharmacokinetics of Acyclovir	138
7.8.2	Herpetic Epithelial Disease	139
7.8.3	Herpetic Stromal Disease	139
7.8.4	Herpetic Uveitis	139
7.8.5	Prevention of HSK Recurrence	140
7.8.6	Recurrence after Penetrating Keratoplasty	140
7.8.7	HSV Vaccines	141
7.8.7.1	Subunit Vaccines	142
7.8.7.2	Live and Killed Virus Vaccines	142
7.8.7.3	DNA Vaccines	142
7.8.7.4	Periocular Versus Systemic Vaccination	142
7.8.7.5	Therapeutic Vaccines	142
7.9	Conclusion	143

Chapter 8

Management of Ocular Mucous Membrane Pemphigoid

Valerie P.J. Saw, John K.G. Dart

8.1	Introduction	154
8.2	Diagnosis	154
8.3	Principles of Management	156
8.4	Inflammation Associated with Ocular Surface Disease	157

8.4.1	Blepharitis	157
8.4.2	Dry Eye	157
8.4.3	Filamentary Keratitis and Punctate Epithelial Keratitis	161
8.4.4	Keratinization	161
8.4.5	Trichiasis, Entropion, and Lagophthalmos	161
8.4.6	Persistent Epithelial Defects and Corneal Perforation	163
8.5	Infections	165
8.6	Toxicity	166
8.7	Systemic Immunosuppression for Immune-mediated Inflammation	166
8.8	Improving Vision	169
8.8.1	Contact Lenses	169
8.8.2	Cataract Surgery	172
8.8.3	Corneal Graft Surgery	173
8.8.4	Ocular Surface Reconstructive Surgery	174
8.8.5	Keratoprosthesis	174
8.9	Recommended Clinical Practice	175

Chapter 9

Adult Inclusion Conjunctivitis

Philippe Kestelyn

9.1	Introduction	179
9.2	Epidemiology	179
9.3	Clinical Picture	180
9.4	Laboratory Diagnosis	181
9.4.1	Culture Methods	182
9.4.2	Nonculture Methods	182
9.4.3	Serologic Tests	182
9.5	Treatment	182

Chapter 10

Chronic Blepharitis: Diagnosis, Pathogenesis, and New Treatment Options

Claudia Auw-Haedrich, Thomas Reinhard

10.1	Introduction	185
10.1.1	Clinical Course and Pathogenesis of Chronic Blepharitis	185
10.1.1.1	Anterior Blepharitis	185

10.1.1.2	Anterior-posterior Blepharitis	187
10.1.1.3	Posterior Blepharitis	187
10.1.1.4	Pathogenesis	189
10.1.2	Sequelae of Chronic Blepharitis	192
10.1.2.1	Dry Eye Syndrome	192
10.1.2.2	Corneal Involvement	193
10.1.2.3	Changes in the Cilia and Lid Position	194
10.2	Treatment	194
10.2.1	Mechanical Measures	194
10.2.2	Treatment of Accompanying Dry Eye Syndrome	194
10.2.3	Immunomodulatory Treatment	195
10.2.3.1	Steroids	195
10.2.3.2	Cyclosporin	195
10.2.3.3	FK506 and Pimecrolimus ...	195
10.2.4	Antibiotic Treatment	196
10.2.4.1	Topical Antibiotic Treatment	196
10.2.4.2	Systemic Antibiotic Treatment	196
10.2.5	Surgical/Invasive Treatment	196
10.3	Conclusion and Outlook ...	197
10.4	Current Clinical Practice and Recommendations	197

Chapter 11

New Aspects on the Pathogenesis of Conjunctival Melanoma

Stefan Seregard, Eugenio Triay

11.1	Introduction	201
11.1.1	Background	201
11.1.2	Conjunctival Melanocyte ...	201
11.1.3	Historical Setting	202
11.2	Precursor Lesions	202
11.2.1	Acquired Conjunctival Nevus	202
11.2.2	Primary Acquired Melanosis	203
11.2.3	Other Potential Precursor Lesions or Entities	204
11.3	Epidemiology of Conjunctival Melanoma	206
11.3.1	Incidence of Conjunctival Melanoma	206
11.3.2	Age and Gender Incidence	206

11.3.3	Ethnic and Regional Incidence Rates	206
11.3.4	Environmental Factors	207
11.3.5	Incidence Trends	207
11.4	Relationship to Melanoma Occurring in Other Species or Sites	208
11.4.1	Conjunctival Melanoma in Other Species	208
11.4.2	Mucous Membrane Melanoma	208
11.4.3	Cutaneous Melanoma	209
11.4.4	Uveal Melanoma	209
11.5	Molecular Events and Protein Expression in Conjunctival Melanoma	210
11.5.1	Mitogen-Activated Protein Kinase Pathway	210
11.5.2	Mutation of the p53 Gene and p53 Protein Overexpression	211
11.5.3	Other Molecular Studies ...	211
11.6	Potential Pathogenetic Pathways	211
11.6.1	Sunlight and UVR Exposure	211
11.6.2	Alternative Pathways	212

Chapter 12

In Vivo Confocal Microscopy in Healthy Conjunctiva, Conjunctivitis, and Conjunctival Tumors

Elisabeth M. Messmer

12.1	Introduction	217
12.2	In Vivo Confocal Microscopy of the Ocular Surface	218
12.2.1	In Vivo Confocal Microscopy of the Cornea	218
12.2.2	In Vivo Confocal Microscopy of the Conjunctiva	218
12.2.2.1	Normal Bulbar Conjunctiva	218
12.2.2.2	Normal Tarsal Conjunctiva	219
12.2.2.3	Normal Lid Margin	219
12.2.3	In Vivo Confocal Microscopy in Ocular Surface Inflammation	220
12.2.3.1	Acute and Chronic Conjunctivitis	220
12.2.3.2	Papillary Conjunctivitis	220

12.2.3.3	Follicular Conjunctivitis	220	12.2.5	In Vivo Confocal Microscopy in Melanocytic Tumors of the Ocular Surface	223
12.2.3.4	Cicatrizing Conjunctivitis . . .	221	12.2.5.1	Benign Melanocytic Tumors	224
12.2.3.5	Conjunctival Granuloma . . .	221	12.2.5.2	Malignant Melanocytic Tumors – Malignant Melanoma	225
12.2.3.6	Blepharitis	221	12.2.6	In Vivo Confocal Microscopy in Other Lesions of the Conjunctiva	225
12.2.4	In Vivo Confocal Microscopy in Epithelial Tumors of the Ocular Surface	222	12.2.6.1	Conjunctival Amyloidosis . .	225
12.2.4.1	Benign Epithelial Tumors . . .	222	12.2.6.2	Limbal Dermoid	226
12.2.4.2	Malignant Epithelial Tumors – Conjunctival Intraepithelial Neoplasia and Squamous Cell Carcinoma	222	Subject Index	229	

Cornea and External Eye Disease

Corneal Allotransplantation, Allergic Disease and
Trachoma

Reinhard, Th.; Larkin, F. (Eds.)

2008, XX, 234 p. 206 illus., 103 illus. in color.,

Hardcover

ISBN: 978-3-540-33680-8
