

Contents

1	Development of Endoscopic Devices: Past, Present and Future 1		
	<i>Norman E. Marcon, Brian C. Wilson, Ralph S. DaCosta</i>		
1.1	Introduction 1		
1.2	The Present 2		
1.3	The Future 3		
	References 6		
2	Surface Analysis with Magnifying Chromoendoscopy in the Colon 7		
	<i>David P. Hurlstone</i>		
2.1	Background 7		
2.2	Classification of Superficial Neoplastic Colorectal Neoplasia – a Consensus Workshop Approach 8		
2.3	Stereomicroscopy and ‘Pit Patterns’ in the Human Colon 9		
2.4	Pit-pattern Classification and Magnification- Chromoscopic Appearances 9		
2.5	Magnification Chromoscopy in Routine Clinical Practice 9		
2.6	Current Endoluminal In Vivo Imaging Techniques 10		
2.6.1	Limitations and Data Summary 10		
2.6.2	In Vivo Staging of Colorectal Lesions Using Magnifying Chromoendoscopy 10		
2.6.3	Summary of Limitations of Current Technology 12		
2.7	Chromoscopic Colonoscopy and Magnifying Chromoendoscopy Imaging as an Adjunctive Screening Tool in Colitis 12		
2.8	Clinical Recommendations and Conclusions 13		
	References 14		
3	Development and Current Technological Status of Confocal Laser Endomicroscopy 17		
	<i>Peter Delaney, Steven Thomas, Wendy McLaren</i>		
3.1	Introduction 17		
3.2	Principles of Confocal Microscopy 18		
3.3	Miniaturisation – Fibre-Optic Confocal Microscopy 19		
3.4	Current Technology in the flexible GI endomicroscope 20		
3.5	Current Technology – Key Features for Endomicroscopy of the GI Tract 21		
3.6	Summary and »Take-home« messages 22		
	References 22		
4	Examination Technique of Confocal Laser Endomicroscopy 25		
	<i>Martin Goetz, Kerry Dunbar, Marcia I. Canto</i>		
4.1	Introduction 25		
4.2	The Confocal Endomicroscope 25		
4.3	Patient Preparation 27		
4.4	In Vivo Confocal Imaging 28		
4.5	Fluorescent Agents 30		
	References 31		
5	The Technique of Confocal Laser Endomicroscopy from the Perspective of a New User 33		
	<i>Marcia I. Canto</i>		
5.1	Introduction 33		
5.2	Preparation for Endomicroscopic Imaging 33		
5.2.1	Entering Case Data and Imaging Sites 33		
5.2.2	Study the Control Screen 34		
5.2.3	Check the Laser and Calibrate 34		
5.2.4	Obtaining Informed Consent 35		
5.3	General Technique of Confocal Endomicroscopic Imaging 36		
5.3.1	Targeting of a Lesion or Area 36		
5.3.2	Achieving Contact of the Confocal Window with the Mucosa 36		
5.3.3	Acquiring a Stable Position 36		
5.3.4	Performing Endomicroscopic Imaging 36		
5.3.5	Planning the Anatomical Sites for Endo- microscopic Imaging 36		
5.3.6	Identifying and Minimising Image Artefact 37		
5.3.7	Limitations 38		
5.4	Image Annotation, Export, Archive and Review 38		
5.4.1	Annotating Images 38		
5.4.2	Saving and Exporting Images 38		
5.4.3	Reviewing Images 38		

6	Microarchitecture of the Normal Gut Seen with Conventional Histology and Endomicroscopy 39		
	<i>Michael Vieth, Ralf Kiesslich, Steven Thomas, Peter Delaney</i>		
6.1	Introduction 39	7.4.1	Coeliac Disease 66
6.2	General Structure and Components of the Gastrointestinal Tract 39	7.4.2	Gastrointestinal Lymphoma 67
6.3	Mucosal Layer 40	7.4.3	Mantle-cell Lymphoma 68
6.3.1	Oesophagus 40	7.4.4	Proliferations of Acquired MALT 69
6.3.2	Endomicroscopic Imaging of Normal Oesophageal Mucosa 43		References 70
6.3.3	Stomach 43	7.5	Endomicroscopy of Colon Pathology 70
6.3.4	Endomicroscopic Imaging of Gastric Mucosa 44		<i>Ralf Kiesslich, Tomohiro Kato, Markus F. Neurath</i>
6.3.5	Small Bowel 46	7.5.1	Ulcerative Colitis 72
6.3.6	Endomicroscopic Imaging of Small Bowel Architecture 47	7.5.2	Microscopic Colitis 75
6.3.7	Colon 48		References 76
6.3.8	Endomicroscopic Imaging of Colonic Mucosa 49	7.6	Endomicroscopy in Acute Graft-versus-Host Disease 76
6.4	Lymphoid Tissue 51		<i>Christian Bojarski, Jörg Carl Hoffmann, Martin Zeitz, Christoph Loddenkemper, Harald Stein</i>
6.5	Innervation 52		References 77
6.6	Endocrine Cells 53	8	Live Tissue Imaging with Conventional Confocal Microscopy 79
6.7	Vasculature 53		<i>Marshall H. Montrose, Alastair J.M. Watson</i>
6.8	Conclusion 53	8.1	A Primer on Laser-Scanning Confocal Imaging 79
	References 54	8.2	Imaging Fixed Versus Living Tissue 80
7	Endomicroscopy of GI Disorders 55	8.3	Going from Qualitative to Quantitative 83
7.1	Endomicroscopy in Early Oesophageal Squamous Cell Neoplasias 55	8.4	Moving Beyond Confocal Imaging 83
	<i>Oliver Pech, Christian Ell</i>	8.5	Selecting the Correct Instrument for the Task at Hand 84
	References 57	8.5.1	Translational Research Ability 84
7.2	Barrett's Oesophagus 57	8.5.2	Multicolour Fluorescence 84
	<i>Ralf Kiesslich, Kerry Dunbar, Markus F. Neurath</i>	8.5.3	Maximal Subcellular Resolution 84
	Reference 59	8.5.4	Wide Field of View and Sporadic Events/Structures 84
7.3	Endomicroscopy of Gastritis and Gastric Cancer 60	8.5.5	More Flexible Imaging Parameters in Confocal Microscopy 84
	<i>Katja Wirths, Horst Neuhaus</i>	8.6	Conclusion 84
7.3.1	Normal Gastric Microarchitecture 60		Reference 85
7.3.2	Gastritis 60	9	Functional and Molecular Imaging with Confocal Laser Endomicroscopy 87
7.3.3	Intestinal Metaplasia 61		<i>Martin Goetz, Ralf Kiesslich, Markus F. Neurath, Alastair J.M. Watson</i>
7.3.4	<i>Helicobacter pylori</i> -positive Gastritis 61	9.1	Aims of Functional and Molecular Imaging 87
7.3.5	Early Gastric Cancer 63	9.2	Functional Imaging 87
	References 66	9.3	Molecular Imaging 90
7.4	Endomicroscopy of Small Bowel Diseases: Coeliac Disease, Lymphoma 66		References 91
	<i>Arthur Hoffman, Ralf Kiesslich, Wolfgang Fischbach</i>		

10	Future Trends in Confocal Laser Endomicroscopy: Improved Imaging Quality and Immunoendoscopy.....	93
	<i>Raja Atreya, Markus F. Neurath</i>	
10.1	Introduction	93
10.2	Characterisation of Antibodies as Diagnostic and Research Instruments	94
10.2.1	Antibody Structure	94
10.2.2	Diagnostic Monoclonal and Polyclonal Antibodies	94
10.2.3	Therapeutic Monoclonal Antibodies	95
10.3	Immunohistochemistry	96
10.3.1	Direct Immunostaining	96
10.3.2	Indirect Immunostaining	96
10.3.3	Immunofluorescence	97
10.4	In Vivo Fluorescence Endomicroscopy for Immunoendoscopy	98
10.4.1	In Vivo Fluorescence Endomicroscopy in Inflammatory Bowel Disease	98
10.4.2	In Vivo Fluorescence Endomicroscopy in Cancer Treatment	99
10.5	Conclusion	99
	References	99
	Subject Index	101

Atlas of Endomicroscopy

Kiesslich, R.; Galle, P.R.; Neurath, M.F. (Eds.)

2008, XIV, 103 p., Hardcover

ISBN: 978-3-540-34757-6
