

Table of Contents

1	The physical and chemical fundamentals of fluorescence angiography1		
1.1	Fluorescence2	3.1.4	Retinal vessels 16
1.2	Fluorescein2	3.1.5	Macula 16
1.3	Indocyanine Green3	3.1.6	Sclera 17
2	The Technical Fundamentals of Fluorescence Angiography5	3.1.7	Iris 17
2.1	The basic design of a scanning laser ophthalmoscope6	3.2	Normal ICG-Angiography 17
2.2	Light Sources7	3.3	Pathological fluorescence phenomena .. 17
2.2.1	Lasers for Fluorescein Angiography7	3.3.1	Hyperfluorescence..... 17
2.2.2	Lasers for red-free fundus imaging8	3.3.2	Hypofluorescence 18
2.2.3	Lasers for Indocyanine green (ICG) angiography.....9	4	Fundus Autofluorescence31
2.2.4	Lasers for reflective infrared imaging9	4.1	Introduction..... 32
2.3	The Fundamentals of Optical Imaging9	4.2	Scanning laser ophthalmoscopy and modified fundus photography..... 32
2.3.1	The confocal principle9	4.3	Methods 32
2.3.2	Resolution in depth..... 10	4.3.1	Fundamentals 32
2.3.3	Resolution in breadth..... 10	4.3.2	The operational sequence of a fundus examination with the cSLO 32
2.4	The Heidelberg Retina Angiograph 2.... 10	4.3.3	Lipofuscin in the retinal pigment epithelium 33
2.4.1	HRA2-Parameters for basic imaging modes 11	4.3.4	Normal fundus autofluorescence..... 33
2.4.2	Simultaneous mode 11	4.4	Fundus autofluorescence – typical findings 33
2.4.3	Composite mode 12	5	Macular Disorders55
2.4.4	Fixation assistance..... 12	5.1	Age-Related Macular Degeneration (AMD) 56
2.4.5	Wide angle objective 12	5.1.1	Drusen 56
2.4.6	ART module 12	5.1.2	Irregular Pigmentation of the Retinal Pigment Epithelium (RPE)..... 62
2.4.7	Examination of the anterior segment.... 12	5.1.3	Geographic atrophy of the RPE..... 62
2.4.8	Stereoscopic imaging..... 12	5.1.4	Choroidal Neovascularization (CNV).... 64
2.4.9	Components of the analytical software.. 13	5.1.4.1	Classic Choroidal Neovascularization.... 64
3	Normal Fluorescence Angiography and General Pathological Fluorescence Phenomena.....15	5.1.4.2	Occult Choroidal Neovascularization 69
3.1	Normal Fluorescence Angiography and general pathological fluorescence phenomena 16	5.1.4.3	Mixed Forms 74
3.1.1	Choroid 16	5.1.4.4	Localization of Choroidal Neovascularization 74
3.1.2	Cilioretinal vessels 16	5.1.5	Serous Detachment of the Retinal Pigment Epithelium 76
3.1.3	Optic disc 16	5.1.6	Breaks in the Retinal Pigment Epithelium (RPE)..... 82
		5.1.7	Idiopathic Polypoid Choroidal Vasculopathy 84

5.1.8	Retinal Angiomatous Proliferation (RAP)	86	6.6	Coats' Disease	148
5.1.9	Disciform Scarring	88	6.7	Retinal Capillary Hemangioma	150
5.1.10	Fluorescein Angiographic Phenomena Following Therapy	90	6.8	Cavernous Hemangioma of the Retina ..	152
5.1.10.1	Laser Coagulation.....	90	6.9	Vascular Tortuosity.....	154
5.1.10.2	Photodynamic Therapy (PDT)	90	7	Inflammatory Retinal/Choroidal Disease.....	157
5.1.10.3	Anti VEGF Therapy	90	7.1	Toxoplasmic Retinochoroiditis.....	158
5.2	Cystoid Macular Edema	102	7.2	Multifocal Choroiditis	160
5.3	Hereditary Macular Disorders.....	104	7.3	Acute Posterior Multifocal Placoid Pigment Epitheliopathy (APMPPE)....	162
5.3.1	Stargardt's Disease.....	104	7.4	Punctate inner Choroidopathy (PIC) ...	166
5.3.2	Fundus Flavimaculatus.....	104	7.5	Presumed Ocular Histoplasmosis Syndrome (POHS).....	168
5.3.3	Best's Disease (Vitelliform Macular Dystrophy).....	106	7.6	Birdshot Chorioretinopathy	170
5.3.4	Pattern Dystrophies of the Retinal Pigment Epithelium (RPE)	108	7.7	Perivasculitis.....	173
5.3.5	Congenital X-Chromosome Retinoschisis.....	110	7.7.1	Occlusive Retinal Vasculitis	173
5.4	Adult Vitelliform Macular Degeneration (AVMD).....	112	7.8	Inflammatory Macular Edema	178
5.5	The Macular Degeneration of Myopia..	114	7.9	Serpiginous Choroiditis	180
5.6	Angioid Streaks	116	8	Diseases of the Optic Nerve Head....	183
5.7	Central Serous Chorioretinopathy (CSC)	118	8.1	Congenital Anomalies of the Optic Disc	184
5.8	Chronic Idiopathic Central Serous Chorioretinopathy (CICSC)	120	8.1.1	Oblique Insertion of the Optic Nerve ..	184
5.9	Idiopathic Juxtafoveal Teleangiectasias	122	8.1.2	Myelinated Nerve Fibers	184
5.10	Epiretinal Gliosis	124	8.1.3	Drusen of the Optic Disc	186
5.11	Macular Holes	126	8.1.4	Coloboma of the Optic Disc	190
5.12	Chloroquine Maculopathy.....	128	8.1.5	Optic Pit	190
6	Retinal Vascular Disease.....	131	8.1.6	Capillary Hemangioma of the Juxtapapillary Retina.....	194
6.1	Diabetic Retinopathy.....	132	8.1.6.1	Endophytic Growth	194
6.1.1	Nonproliferative Diabetic Retinopathy	132	8.1.6.2	Sessile Growth.....	194
6.1.2	Proliferative Diabetic Retinopathy	134	8.1.6.3	Exophytic Growth.....	198
6.2	Hypertensive Retinopathy.....	136	8.1.7	Pigmented Optic Disc Anomalies.....	200
6.3	Retinal Arterial Occlusions	138	8.2	Anterior Ischemic Optic Neuropathy...	202
6.3.1	Occlusion of the Central Retinal Artery	138	8.3	Papillitis	204
6.3.2	Branch Retinal Artery Occlusion	138	8.4	Papilledema	206
6.4	Retinal Vein Occlusions.....	140	8.5	Parapapillary Choroidal Neovascularization.....	208
6.4.1	Central Retinal Vein Occlusion (CRVO)..	140	9	Intraocular Tumors.....	211
6.4.2	Tributary Retinal Vein Occlusion	144	9.1	Choroidal Melanoma.....	212
6.5	Retinal Macroaneurysms	146	9.2	Choroidal Metastases	214
			9.3	Choroidal Hemangioma.....	218
				Subject Index.....	221

Fluoreszenzangiographie in der Augenheilkunde
Fluoreszein-Angiographie, Indozyaningrün-Angiographie
und Fundus-Autofluoreszenz

Dithmar, S.; Holz, F.G.

2008, X, 226 S., Hardcover

ISBN: 978-3-540-35223-5
