

Table of Contents

1	Introduction.....	1
1.1	The Technology Diffusion of RFID and Specific Challenges	4
1.2	Outline of the Book	6
2	Framework for the Classification of RFID Applications and Stakeholders.....	9
2.1	The RFID Reference Model	9
2.2	The RFID Stakeholder Model	12
3	Standards.....	15
3.1	Standardisation Organisations and Processes	16
3.1.1	Basic Rule Setting Organisations.....	16
3.1.2	Standard Development Organisations	17
3.1.3	User and Industry Organisations	18
3.1.4	Business Models of Standardisation Organisations	18
3.2	Radio Spectrum Framework	20
3.3	Interoperability of Standards	26
3.3.1	Product Codes	27
3.3.2	The Internet of Things.....	28
3.3.3	Data Exchange and the Object Name Service (ONS)	29
3.4	Analysis of the Need for Application Specific Standards.....	31
3.4.1	Logistical Tracking and Tracing of Goods	32
3.4.2	Production, Monitoring and Maintenance of Goods and Processes.....	34
3.4.3	Product Safety, Quality and Information of Goods and Processes	36
3.4.4	Access Control Systems, Personal Tracking, Rental Systems.....	38

3.4.5	General Assessment of Current RFID Application Standards	39
3.4.6	General Recommendations on RFID Application Standards	40
3.5	Need for Standards for RFID Sensor Tags	40
3.6	Privacy and Security Standards	41
3.6.1	Privacy	41
3.6.2	Security	42
3.6.3	Data Security Measures in Air Interface Standards	43
3.6.4	Recommendations on Privacy and Data Security	44
4	Implementation and Application Guidelines	47
4.1	Requirements of Guidelines	48
4.1.1	The RFID Reference Model	48
4.1.2	The RFID Implementation Checklist	48
4.2	Analysis of Existing Guidelines	51
4.2.1	Method	51
4.2.2	Initial Categorisation	53
4.2.3	Definition of RFID Guidelines	54
4.2.4	Process of Analysis	55
4.2.5	List of Guidelines Analysed	56
4.3	Quantitative Analysis of Guidelines	64
4.3.1	Formal Categories	64
4.3.2	Addressees of Guidelines	66
4.3.3	Consideration of Stakeholders	70
4.4	Establishing Guidelines Using the RFID Implementation Checklist	72
4.5	Conclusions	77
4.5.1	Relevance of Existing RFID Guidelines	77
4.5.2	The RFID Implementation Checklist – next Steps	78
5	Regulatory Framework	81
5.1	Privacy	81
5.1.1	Legal Framework	82
5.1.2	Data Protection Principles and the Definition of Personal Data	84
5.1.3	RFID and Data Protection Legislation: a Case Specific Approach	88
5.1.4	Conclusions	96
5.2	Health and Environmental Effects	100
5.2.1	Health Effects	100
5.2.2	Environmental Effects	101

5.3	Radio Spectrum	103
5.3.1	EC Legislation and other Policy Texts.....	103
5.3.2	Analysis	106
5.3.3	Conclusion	107
5.4	The Intellectual Property Rights Framework.....	108
5.4.1	Policy Approaches	108
5.4.2	Industry approaches	111
5.4.3	Open Source Approach: OpenPCD.....	113
5.4.4	Conclusions.....	113
5.5	RFID Governance.....	115
5.5.1	Observation of Current Debate on Internet Governance.....	115
5.5.2	Legal Framework and Approaches to RFID Governance	117
5.5.3	Conclusions.....	119
6	Technological Research Needs.....	121
6.1	General Technology Challenges.....	121
6.2	Technology Requirements.....	123
6.2.1	Tags.....	123
6.2.2	Readers.....	125
6.2.3	System Technology.....	126
6.3	RFID Technology Roadmap.....	127
6.3.1	Packaging.....	129
6.3.2	Chip Design	129
6.3.3	Energy Aspects	130
6.3.4	RF Technology.....	131
6.3.5	Manufacturing.....	132
6.3.6	Systems	133
6.3.7	Readers.....	134
6.3.8	Non-Silicon Technologies.....	135
6.3.9	Bi-stable Displays	136
6.3.10	Sensors	136
6.3.11	Cryptography	137
6.3.12	ICT Architectures.....	138
6.3.13	Environmental Aspects	138
7	R&D Environment.....	141
7.1	Outline and Approach.....	141
7.1.1	Assessment Criteria of R&D Support Programmes	142
7.1.2	Methodology used for the Analysis	143
7.1.3	Programmes and Countries Considered	144

7.2	Analysis of National Programmes	145
7.2.1	Germany.....	145
7.2.2	France.....	148
7.2.3	UK.....	151
7.2.4	The Netherlands	151
7.2.5	Italy	153
7.2.6	Spain	153
7.2.7	Austria.....	154
7.2.8	Finland	156
7.2.9	New Member States	158
7.3	Transnational Programmes with National Funding	159
7.3.1	NORDITE	159
7.3.2	EUREKA	159
7.4	Transnational Programmes with Joint National and EU Funding.....	161
7.5	European Programmes.....	161
7.6	R&D Programmes & the RFID Reference Model	164
7.7	Conclusions of RFID R&D Funding Programme Assessment.....	165
7.7.1	Thematic Focus of Funded Programmes.....	165
7.7.2	Funding Structures	166
7.8	Recommendation for a Future European R&D Policy	168
8	Conclusion: The Next Steps for Europe.....	175
8.1	The Fields of Activities	175
8.2	The Stakeholder Perspective	179
	References.....	187
	Index	197
