

Contents

Preface	v
Contributors	ix
Therapeutic Control of Hepatitis C Virus: The Role of Neutralizing Monoclonal Antibodies	1
Z.Y. Keck, K. Machida, M.M.C. Lai, J.K. Ball, A.H. Patel, and S.K.H. Fong	
Antibodies for HIV Treatment and Prevention: Window of Opportunity?	39
M. Huber, W.C. Olson, and A. Trkola	
Human Monoclonal Antibody and Vaccine Approaches to Prevent Human Rabies	67
T. Nagarajan, Charles E. Rupprecht, Scott K. Dessain, P.N. Rangarajan, D. Thiagarajan, and V.A. Srinivasan	
Immunoprophylaxis of RSV Infection: Advancing from RSV-IGIV to Palivizumab and Motavizumab	103
H. Wu, D.S. Pfarr, G.A. Losonsky, and P.A. Kiener	
The Molecular Basis of Antibody Protection Against West Nile Virus	125
E. Mehlhop and M.S. Diamond	
Exploring the Native Human Antibody Repertoire to Create Antiviral Therapeutics	155
S.K. Dessain, S.P. Adekar, and J.D. Berry	
Index	185

Human Antibody Therapeutics For Viral Disease

Dessain, S.K. (Ed.)

2008, XII, 190 p. 18 illus., 7 illus. in color., Hardcover

ISBN: 978-3-540-72144-4
