# Contents

<b>Refutable Theories of Value</b> <i>Donald J. Brown, Felix Kubler</i> .....	1
<b>Testable Restrictions on the Equilibrium Manifold</b> <i>Donald J. Brown, Rosa L. Matzkin</i> .....	11
<b>Uniqueness, Stability, and Comparative Statics in Rationalizable Walrasian Markets</b> <i>Donald J. Brown, Chris Shannon</i> .....	27
<b>The Nonparametric Approach to Applied Welfare Analysis</b> <i>Donald J. Brown, Caterina Calsamiglia</i> .....	41
<b>Competition, Consumer Welfare, and the Social Cost of Monopoly</b> <i>Yoon-Ho Alex Lee, Donald J. Brown</i> .....	47
<b>Two Algorithms for Solving the Walrasian Equilibrium Inequalities</b> <i>Donald J. Brown, Ravi Kannan</i> .....	69
<b>Is Intertemporal Choice Theory Testable?</b> <i>Felix Kubler</i> .....	79
<b>Observable Restrictions of General Equilibrium Models with Financial Markets</b> <i>Felix Kubler</i> .....	93
<b>Approximate Generalizations and Computational Experiments</b> <i>Felix Kubler</i> .....	109

**Approximate Versus Exact Equilibria in Dynamic Economies**  
*Felix Kubler, Karl Schmedders* . . . . . 135

**Tame Topology and *O*-Minimal Structures**  
*Charles Steinhorn* . . . . . 165
