## Part I Applications in Climatology and Atmospheric Sciences

---

### **Subsampling Methodology for the Analysis of Nonlinear Atmospheric Time Series**

*Alexander Gluhovsky* ..... 3

### **Global Patterns of Nonlinearity in Real and GCM-Simulated Atmospheric Data**

*Jiří Mikšovský, Petr Pišoft, Aleš Raidl*..... 17

### **Prediction of Extreme Events**

*Sarah Hallerberg, Jochen Bröcker, Holger Kantz* ..... 35

### **Analysis of Geophysical Time Series Using Discrete Wavelet Transforms: An Overview**

*Donald B. Percival*..... 61

### **Automatic Parameter Estimation in a Mesoscale Model Without Ensembles**

*Gregory S. Duane, Joshua P. Hacker* ..... 81

### **Towards Robust Nonlinear Multivariate Analysis by Neural Network Methods**

*William W. Hsieh, Alex J. Cannon*..... 97

### **Complexity of Spatio-Temporal Correlations in Japanese Air Temperature Records**

*Reik Donner, Takahide Sakamoto, Noboru Tanizuka* ..... 125

---

## Part II Applications in Oceanography and Seismology

---

### Time Series Analysis of Sea-Level Records: Characterising Long-Term Variability

*Susana M. Barbosa, Maria Eduarda Silva, Maria Joana Fernandes . . . . .* 157

### Empirical Global Ocean Tide and Mean Sea Level Modeling Using Satellite Altimetry Data Case Study: A New Empirical Global Ocean Tide and Mean Sea Level Model Based on Jason-1 Satellite Altimetry Observations

*Alireza A. Ardalan, Hassan Hashemi . . . . .* 175

### Fourier, Scattering, and Wavelet Transforms: Applications to Internal Gravity Waves with Comparisons to Linear Tidal Data

*James A. Hawkins, Alex Warn-Varnas, Ivan Christov . . . . .* 223

### Crustal Deformation Models and Time-Frequency Analysis of GPS Data from Deception Island Volcano (South Shetland Islands, Antarctica)

*María Eva Ramírez, Manuel Berrocoso, María José González, Alberto Fernández . . . . .* 245

### Describing Seismic Pattern Dynamics by Means of Ising Cellular Automata

*Abigail Jiménez, Antonio M. Posadas, Kristy F. Tiampo . . . . .* 273

---

## Part III Applications in Solar-Terrestrial Physics

---

### Template Analysis of the Hide, Skeldon, Acheson Dynamo

*Irene M. Moroz . . . . .* 293

### Methods to Detect Solitons in Geophysical Signals: The Case of the Derivative Nonlinear Schrödinger Equation

*Nikolay G. Mazur, Viacheslav A. Pilipenko, Karl-Heinz Glassmeier . . . .* 311

### Detecting Oscillations Hidden in Noise: Common Cycles in Atmospheric, Geomagnetic and Solar Data

*Milan Pahuš, Dagmar Novotná . . . . .* 327

### Phase Coherence Analysis of Decadal-Scale Sunspot Activity on Both Solar Hemispheres

*Reik Donner . . . . .* 355

**Index . . . . .** 387

Nonlinear Time Series Analysis in the Geosciences  
Applications in Climatology, Geodynamics and  
Solar-Terrestrial Physics

Donner, R.V.; Barbosa, S.M. (Eds.)

2008, XIV, 390 p., Hardcover

ISBN: 978-3-540-78937-6
