A 1

ABCD Rule of Dermoscopy	1
ABC Point List of Dermoscopy	1
Abrupt Cut-off of the Trabeculae	2
Abrupt Edge	2
Abrupt Pigment Breaks in the Trabeculae	2
Acantholysis	2
Acanthoma	2
Acanthosis	2
Accessory Nipple	2
Acne Rosacea	2
Acrolentiginous Melanoma	2
Actinic Elastosis	3
Actinic Keratosis	3
Addison's Disease	4
Agminate Melanocytic Nevus	4
Alabaster–Gypseous Lacunae	5
Amelanotic and Hypomelanotic Melanoma	5
Amiodaron-induced Pigmentation	5
Angiokeratoma	6
Angioma	6
Angiosarcoma	6
Annular–Granular Pattern	7
Apocrine Sweat Gland	8
Arborizing Pattern	8
Arborizing Telangiectasis	8
Arborizing Vessels	8
Area of Polymorphic Ectatic Vessels	8
Area of Target Globules	9
Area with Central Papillary Globules	9
Area with Evenly Arranged Capillaries	9
Asymmetrical Pigmented Follicular Openings	9
Atrophy of the Epidermis	9
Atypical Nevus	9
Atypical Pigment Network	9

Atypical Vascular Pattern	10
Auspitz Sign	10
Autoimmunogenic Keratinocytolysis	11
AVP	11

B 13

Balloon Cell Nevus	13
Basal Cell Carcinoma	13
Basal Cell Papilloma	14
Basal Layer	14
Basic Pattern of Polymorphic and/or Aneurysmatic Vessels	14
Basic Structures	14
Bathing Trunk Nevus	14
Becker's Nevus	14
Benign Juvenile Melanoma	14
Benign Lichenoid Keratosis	14
Black Dots	14
Black Heel	14
Blood Lakes	15
Blood Sinuses	15
Blood Spots, Nail Unit	15
Blotches	15
Blue Nevus	16
Blue-gray Area	16
Blue-gray Globules in Absence of a Pigment Network	16
Blue-gray Granules	17
Blue-gray or Slate-gray Reticular Pattern	17
Blue-gray Reticular Pattern	17
Blue-in-Pink Area	17
Blue-white Veil	18

Border	19
Bowen's Disease	19
Bowenoid Genital Papulosis	20
Bowen's Carcinoma	20
Brain-like Appearance	20
Branched Streaks	20
Broadened Network	21
Brown Background, Nail Unit	21
Brown Dots	22
Brown Globules	22
Brown/Black Dots on a Blue/Gray Background	22

C	23
Capillary Dot Pattern	23
Capillary Reticular Pattern	23
Capillary Sequestration	23
Central Hyperpigmented Pattern	23
Central Hypopigmented Pattern	23
Cerebriform Appearance	23
Cherry Hemangioma	23
Clark's Nevus	24
Chloasma	24
CMN	24
Cobblestone Pattern	24
Cockade Architecture	24
Cognetta Sign	24
Collision Tumors	24
Color Changes	25
Combined Nevus	25
Comedo-like Openings	25
Comma-like-shaped Vessels	26
Compound Nevus	27
Congenital Hairy Nevus	27
Congenital Melanocytic Nevus	27
Congenital Speckled Lentiginous Nevus	28
Congenital Zosteriform Speckled Lentiginous Nevus	28
Corium	28
Corneal Layer of the Epidermis	28
Corneocyte	28
Corticosteroid Side Effects	28
Cotton-ball Phenomenon	28
Crista Dotted Pattern	28
Crista Profunda Intermedia	28
Crista Profunda Limitans	29
Crista Reticulated Pattern	29
Crown Vessels	29

Crypts	30
D	31
Darier's Disease	31
Degenerative Changes with Blue-gray Granules in the Marginal Area	31
Dendritic Grayish-blue Trabeculae	31
Depigmentation	31
Dermal Nevus	31
Dermal Papilla	32
Dermatitis Herpetiformis Duhring	32
Dermatofibroma	32
Dermatoglyphics	33
Dermatomyositis	33
Dermis	33
Desmoplastic Melanoma	33
Desmoplastic Spitz Nevus	34
Diffuse Network Pattern	34
Diffuse Network with Central Globules	34
Diffuse Pigmentation	35
Digitiform Extrusions	35
Discoïd Lupus Erythematosus	35
Dots	35
Dotted Vessels	36
Drug-induced Hyperpigmentation	36
Dyskeratosis	37
Dyskeratosis Follicularis	37
Dyskeratosis Maligna	37
Dysplastic Nevi, Basic Patterns	37
Dysplastic Nevi, ELM Rating Protocol	37
Dysplastic Nevus	38
Dysplastic or Atypical Nevi, Dermoscopic Properties	39
E	41
Eccentric Hyperpigmented Pattern	41
Eccrine Pores	41
Ehring's Rhexis Bleeding	41
Elastosis	42
ELM Grading Protocol	42
Enhanced ABCD-E Scoring System	42
Ephelis	43
Epitheloid Cell Nevus	44

Eruptive Hemangioma	44
Erythema	44

F

Facial Skin	45
Fibrillar Pattern	45
Fibrosis	46
Fingerprint-like Structures	46
Fissures and Ridges	46
Follicular Plug and Opening	47
Fried-egg Pattern	48

G

Gray-blue Areas	49
Globular Pattern	49
Globules	49
Glomerular Vessels	50
Granular Layer	51
Gray Streaks Surrounding the Lesion	51
Gray-black and Blue-gray Ovoid Nests	51
Gray-black Perifollicular Pigmentation	52
Gray-blue Trabecular Melanophages	52
Gray-blue/black Papillary Globules	52
Grayish Patches	52
Gyri	53
Gyri and Sulci	53

H

Hairpin-like-shaped Blood Vessels	55
Hairpin-like-shaped Corona	55
Halo Nevus	55
Hang-glider Sign	56
Hemangioma Senile	56
Hemangiomas	56
Hematolymphangioma	56
Homogeneous Pattern	57
Homogeneous–Globular Pattern	57
Honeycomb-like Network	57
Horny Layer	58

Hutchinson's Sign	58
Hypergranulosis	58
Hyperkeratosis	58
Hyperparakeratosis	58
Hyperpigmentation	58
Hyperplastic Sebaceous Glands	59
Hypogranulosis	59
Hypokeratosis	59
Hypopigmentation	59

I

Ink-spot Lentigo	61
In-vivo Histology	61
In-transit Melanoma Metastases	61
Inverse Network	61
Irregular Area of Slate-gray Target Globules ..	61
Irregular Blotches	61
Irregular Depigmentation	61
Irregular Diffuse Pigmentation	61
Irregular Dots	62
Irregular Dots/Globules	62
Irregular Extensions	62
Irregular Linear–Polymorphous Vessels	62
Irregular Network	62
Irregular Pattern, Nails	62
Irregular Polymorphous Vessels	63
Irregular Streaks	63
Irregular Vessels	63
Irritated Seborrheic Keratosis	63

J

Jelly Sign	65
Junctional Nevus	65

K

Keratinocyte	67
Keratosis Actinica	67
Keratosis Follicularis	67
Keratosis Senilis	67

Keratosis Solaris	67
<hr/>	
L	69
Lacunae	69
Lagoon-like Structures	69
Lagoons	69
Large Blue-gray Ovoid Nests	69
Lattice-like Pattern	69
Leaf-like Areas	70
Lentigo Maligna and Lentigo Maligna Melanoma	71
Lentigo Senilis	71
Lentigo Simplex	71
Lesion Surrounded by Gray Streaks	72
Leukoderma Acquisitum Centrifugum	72
Lichen Planus	72
Lichen Planus-like Keratosis	72
Lichenoid Actinic Keratosis	72
Linear-Irregular Vessels	73
Liver Spot	73
Lupus Erythematosus	73
Lupus Erythematosus Chronicus Discoides ...	73
Lymphangioma	73
<hr/>	
M	75
Malignant Melanoma	75
Malignant Melanoma and Dysplastic Nevi, ELM Scoring System	75
Malignant Melanoma, Cutaneous Metastases	76
Malignant Melanoma Metastases: Surface Microscopy Features	77
Malpighian Rete	78
Maple-leaf-like Areas	78
Maple-leaf-like Structures	78
Marks Sign	78
Melanin	78
Melanin Pigmentation	78
Melanocytes	78
Melanocytic Algorithm for Differentiating in Pigmented Lesions	78
Melanoma Cell Infarct	79
Melanocytic Nevus with Irregular Architecture	79
Melanodermitis	79

Melanoma in Association with Melanocytic Nevus	79
Melanoma with Marked Regression	79
Melanophage	80
Melanosis	80
Melanosis Neviformis	80
Melanosomes	80
Melasma	80
Menzies' Method	80
Menzies' Sign	80
Metastatic Malignant Melanoma	80
Micro-Hutchinson's Sign	80
Microscopic Longitudinal Grooves, Nails	80
Microscopic Ovoid Blood Lakes	81
Miescher's Nevus	81
Milia-like Cysts	81
Milky-red Areas	81
Milky-red Globules	82
Molluscum Contagiosum	82
Moth-eaten Border	82
Mountain and Valley Pattern	82
Mucosal Melanocytic Macule or Papule	82
Mulberry-like Aspect	83
Mulberry-like Structure	83
Multicomponent Pattern	83
Multifocal Hyper-/Hypopigmented Pattern ...	83
Multiple Blue-gray Dots (Granules)	84
Multiple Blue-gray Globules	85
Multiple Blue-gray Ovoid Nests	85
Multiple Brown Dots	85
Multiple Brown Globules	85
Multiple Colors	85
Multiple Grayish Patches	86
<hr/>	
N	87
Nailfold Capillaries, Alterations	87
Nailfold Capillaries, Normal Structure	87
Negative Network	88
Neighborhood Sign	88
Network Holes	88
Network Irregularity	88
Network Lines	89
Network Patches, Dark	89
Network Patches, Light	89
Nevus Cell	89
Nevus Spilus	89
Nodular Malignant Melanoma	90

Non-specific Pattern	90	Plaster-of-Paris-like Lacunae	98
Normal Skin Surface	90	PN	98
		Polymorphic Angiectatic Base Pattern	98
