

Contents

Introduction	1
1. Subject and Approach	1
2. The Monetary Union as a Whole	2
3. The Monetary Union of Two Countries	3
3.1. Monetary Policy in Europe	3
3.2. Fiscal Policies in Germany and France	4
3.3. Central Bank and Governments Decide Sequentially	5
3.4. Central Bank and Governments Cooperate	6
3.5. Central Bank and Governments Differ in Loss Function	7
 Part One. The Rate of Inflation	 9
 Chapter 1. Monetary Policy in Europe	 11
1. The Model	11
2. Some Numerical Examples	14
 Chapter 2. Fiscal Policies in Germany and France	 19
1. The Model	19
2. A Numerical Example	22
 Chapter 3. Central Bank and Governments Decide Sequentially	 25
1. The Dynamic Model	25
2. Some Numerical Examples	28
 Chapter 4. Central Bank and Governments Cooperate	 32
1. The Model	32
2. Some Numerical Examples	34
 Chapter 5. The Countries Differ in Size	 37
Chapter 6. The Countries Differ in Behaviour	41
Chapter 7. The Monetary Union of Three Countries	45

Part Two. The Rate of Unemployment	49
Chapter 1. Monetary Policy in Europe	51
1. The Model	51
2. Some Numerical Examples	54
Chapter 2. Fiscal Policies in Germany and France	59
1. The Model	59
2. A Numerical Example	62
Chapter 3. Central Bank and Governments Decide Sequentially	65
1. The Dynamic Model	65
2. Some Numerical Examples	68
Chapter 4. Central Bank and Governments Cooperate	72
1. The Model	72
2. Some Numerical Examples	74
Chapter 5. The Countries Differ in Size	77
Chapter 6. The Countries Differ in Behaviour	81
Chapter 7. The Monetary Union of Three Countries	85

Part Three. Inflation and Unemployment: The Monetary Union as a Whole	89
Chapter 1. The Model.....	91
1. The Model of Inflation and Unemployment.....	91
2. The Loss Function of the European Central Bank.....	92
3. Policy Model A	93
4. Policy Model B	94
5. Policy Model C	95
6. Policy Model D	96
Chapter 2. Some Numerical Examples	98
1. Weight of Inflation in Loss Function is 0.5	98
2. Weight of Inflation in Loss Function is 0.75	104
3. Weight of Inflation in Loss Function is 1	106
Chapter 3. Monetary Policy in the Phillips Curve Diagram.....	109

Part Four. Inflation and Unemployment: The Monetary Union of Two Countries	113
Chapter 1. Monetary Policy in Europe	115
1. The Model of Inflation and Unemployment	115
2. The Loss Function of the European Central Bank	117
3. The Policy Model	118
4. Another Version of the Policy Model	120
5. Some Numerical Examples	121
Chapter 2. Fiscal Policies in Germany and France	127
1. The Model of Inflation and Unemployment	127
2. The Loss Functions of National Governments	129
3. The Policy Model	130
4. Another Version of the Policy Model	132
5. Some Numerical Examples	133
Chapter 3. Central Bank and Governments Decide Sequentially	137
1. The Dynamic Model	137
2. Some Numerical Examples	141
Chapter 4. Central Bank and Governments Cooperate	151
1. The Model of Inflation and Unemployment	151
2. The Loss Function	152
3. The Policy Model	153
4. Another Version of the Policy Model	155
5. Some Numerical Examples	157
Chapter 5. Central Bank and Governments Differ in Loss Function	166
1. The Dynamic Model	166
2. Some Numerical Examples	168

Appendix: Some Basic Models	175
1. Monetary Policy in Europe	175
2. Fiscal Policies in Germany and France.....	180
3. Central Bank and Governments Decide Sequentially.....	183
4. Central Bank and Governments Cooperate	190
 Conclusion	197
1. The Monetary Union as a Whole	197
2. The Monetary Union of Two Countries	200
2.1. Monetary Policy in Europe	200
2.2. Fiscal Policies in Germany and France	203
2.3. Central Bank and Governments Decide Sequentially	204
2.4. Central Bank and Governments Cooperate.....	209
2.5. Central Bank and Governments Differ in Loss Function	213
 Result	217
1. Monetary Policy in Europe	217
2. Fiscal Policies in Germany and France.....	218
3. Central Bank and Governments Decide Sequentially.....	219
4. Central Bank and Governments Cooperate	221
 Symbols	223
