

Contents

1 Indetermination and Risk 1

1.1 Introduction 1

1.2 Indetermination..... 2

1.2.1 Examples of Indetermination..... 2

1.2.2 Types of Indetermination..... 5

1.2.3 Indeterminate Verbal Language 7

1.2.4 Indeterminate Mathematical Language 11

1.2.5 Indeterminate Causality 16

1.2.6 Goal of Prognosis 19

1.2.7 Mathematical Models for Indetermination 20

1.3 Terms Related to Non-Evaluated Indetermination 24

1.3.1 Stochasticity 24

1.3.2 Complexity 28

1.3.3 Systems..... 39

1.3.4 Time..... 41

1.4 Terms Related to Negative Evaluated Indetermination 45

1.4.1 Safety 45

1.4.2 Risk..... 54

1.4.3 Hazard and Danger 58

1.4.4 Vulnerability and Robustness 58

1.4.5 Damage and Disadvantage 63

1.4.6 Disaster 64

References 65

2 Risks and Disasters 73

2.1 Introduction 73

2.2 Classes of Risks and Disasters..... 73

2.3 Natural Risks 75

2.3.1 Introduction 75

2.3.2 Astronomical Risks..... 79

2.3.3 Geological Risks..... 90

2.3.4 Climatic Risks 97

2.3.5 Aeolian Risks..... 109

2.3.6 Hydraulic Risks	113
2.3.7 Gravitational Risks	118
2.3.8 Biological Risks.....	132
2.4 Technical Risks.....	136
2.4.1 Introduction	136
2.4.2 Means of Transportation.....	136
2.4.3 Dumps.....	155
2.4.4 Dam Failure	158
2.4.5 Structural Failure	160
2.4.6 Energy Production and Nuclear Power Plants.....	166
2.4.7 Radiation.....	171
2.4.8 Chemicals	177
2.4.9 Fire.....	181
2.4.10 Explosions	188
2.4.11 Professional Risks	193
2.4.12 Information Technology	195
2.4.13 Food.....	196
2.5 Health Risks.....	199
2.5.1 Cardiovascular Diseases	199
2.5.2 Cancer.....	202
2.5.3 Birth.....	206
2.5.4 Adverse Effects	208
2.5.5 Epidemics and Pandemics	212
2.5.6 Bubonic Plague.....	213
2.5.7 Malaria.....	214
2.5.8 AIDS.....	215
2.5.9 Tuberculosis	217
2.5.10 Cholera	217
2.5.11 Other Infectious Diseases and Outlook	218
2.6 Social Risks	219
2.6.1 Suicide.....	219
2.6.2 Poverty.....	221
2.6.3 War	222
2.6.4 Terrorism	232
2.6.5 Crimes.....	235
2.6.6 Drug Abuse and Alcoholism	238
2.6.7 Mountaineering.....	241
2.6.8 Sport	242
2.6.9 Panic	244
References	244

3 Objective Risk Measures.....	267
3.1 Introduction	267
3.2 Rough Risk Measures.....	267
3.2.1 NASA Risk Assessment Table	267
3.2.2 Australian Standard AS/NZS 4360.....	268
3.2.3 Kent Scale.....	270
3.2.4 Australia's Paper's Risk Score	270
3.2.5 Hicks Scale	271
3.2.6 Risk Diagram from Hoffmann-La Roche AG	272
3.2.7 Further Rough Measures	272
3.3 Specialized Risk Measures	273
3.3.1 Introduction	273
3.3.2 Toxicology.....	274
3.3.3 Health Care System	275
3.4 Mortalities.....	277
3.4.1 Introduction	277
3.4.2 Choice of Population and Representative Year	277
3.4.3 Different Units.....	278
3.4.4 Causes.....	279
3.4.5 Examples	279
3.5 Life Expectancy.....	285
3.6 Fatal Accident Rates.....	291
3.7 Family of F - N Diagrams.....	294
3.7.1 Introduction	294
3.7.2 Examples	299
3.7.3 Goal Curvatures for F - N Diagrams	305
3.8 Lost Life-Years.....	314
References	323
4 Subjective Risk Judgement.....	329
4.1 Introduction	329
4.2 Subjective Risk Judgement and Objective Risk Measures.....	329
4.3 Levels of Subjective Risk Judgement.....	332
4.4 Time-Independent Individual Subjective Risk Judgement.....	333
4.4.1 Trust.....	340
4.4.2 Benefit	345
4.4.3 Fairness.....	351
4.4.4 Alternatives.....	352
4.4.5 Origin of Risk	352
4.4.6 Knowledge About Risk	352

4.5 Time-Dependent Individual Subjective Judgement.....	353
4.5.1 Personal Development and Subjective Risk Judgement.....	353
4.5.2 Individual Information Processing	354
4.6 Social Subjective Risk Judgement.....	358
4.6.1 Basic Concepts	358
4.6.2 Long-Term Development of Social Subjective Judgement...	360
4.6.3 Short-Term Development of Social Subjective Judgement...	361
4.7 Communication of Risk.....	366
4.8 Conclusion.....	370
References	371
5 Quality of Life – the Ultimate Risk Measure.....	379
5.1 Introduction	379
5.2 Term	379
5.3 Requirements for Quality-of-Life Measures	386
5.4 Medical Quality-of-Life Measures	387
5.5 Social and Socio-Economical Quality-of-Life Measures	403
5.6 Economical Quality-of-Life Measures	416
5.7 Environmental Measures and Quality of Life.....	424
5.8 Engineering Quality-of-Life Measures.....	433
5.9 Quality of Life in Religions.....	450
5.10 Quality of Life in Politics	450
5.11 Limitation of the Concept.....	451
References	453
6 Law and Risk.....	461
6.1 Introduction	461
6.2 Examples	470
6.3 Codes	473
References	475
7 Example – Ship Impacts Against Bridges.....	479
7.1 Introduction	479
7.2 Problem.....	480
7.3 Investigated Bridges	484
7.4 Investigation	488
7.5 Results	494
Acknowledgment.....	500
References	500
Index	503
