

Contents

1 Drivers of Change and Energy Models.....	1
1.1 Introduction	1
1.2 Drivers of Change.....	2
1.2.1 Introductory Remarks	2
1.2.2 Market Deregulation.....	2
1.2.3 Technological Change	3
1.2.4 Energy Firm Conduct	5
1.2.5 Climate Policy	8
1.3 Energy Models – a Review of the State of the Art	9
1.4 Motivation and Research Questions	11
2 Model Design	13
2.1 Introduction	13
2.2 Users and Intentions	13
2.3 Geographical and Socio-economic Scope	14
2.3.1 Introductory Remarks	14
2.3.2 Geographical Scope	15
2.3.3 Socio-economic Scope	15
2.4 The Layer Concept	16
2.4.1 Basic Concept	16
2.4.2 Modeling Timeframes	17
2.4.3 Technical Layer	19
2.4.4 Agent Layer	23
2.4.5 Energy Markets	26
2.4.6 Financial Incentives and Regulations	28
2.5 Discussion.....	28
3 Private Actor Model	31
3.1 Introduction	31
3.2 Private Energy Investment Decisions.....	32
3.2.1 Introductory Remarks.....	32
3.2.2 Neoclassical Perspective.....	33
3.2.3 Behavioral Perspective	34

3.3 Bounded Rational Decision Models	36
3.3.1 Introductory Remarks	36
3.3.2 Goals	36
3.3.3 Search Rules	37
3.3.4 Analysis Tools	38
3.3.5 Decision Strategies	40
3.4 Modeling Private Energy Investment Decisions	41
3.4.1 Introductory Remarks	41
3.4.2 Aggregation of Technology and Infrastructure Information ...	42
3.4.3 Aggregation of Socio-economic Information	44
3.5 Results	51
3.5.1 Introductory Remarks	51
3.5.2 General Decision Matrix	51
3.5.3 Single Decision Outcomes	55
3.5.4 Aggregated Decision Outcomes	56
3.6 Discussion	64
4 Commercial Actor Model	67
4.1 Introduction	67
4.2 Commercial Energy Investment Decisions	68
4.2.1 Introductory Remarks	68
4.2.2 Theoretical Background	68
4.2.3 Empirical Evidence	71
4.3 Aggregation of the Firm	73
4.3.1 Introductory Remarks	73
4.3.2 Aggregation of Options	73
4.3.3 Aggregation of Business Units	75
4.3.4 Definition of Strategies and Perspectives	77
4.4 Decisions Model	79
4.4.1 Basic Concepts	79
4.4.2 Operational Decisions	79
4.4.3 Low-stake Structural Decisions	80
4.4.4 High-stake Structural Decisions	82
4.5 Application and Results	82
4.5.1 Impact on the Decisions of Private Agents	84
4.5.2 Impact of Competition	88
4.6 Discussion	92
5 Conclusions	95
5.1 Introduction	95
5.2 Discussion of the Model Design	95
5.3 Outlook	97

Appendix.....	99
A.1 Private Actor Model	99
A.1.1 Supply Superstructure and Networks	99
A.1.2 Agent Specific Diffusion Curves.....	102
A.1.3 Results from Weighted Adding Strategy.....	103
A.2 Commercial Actor Model.....	105
References.....	107

Agent-Based Models of Energy Investment Decisions

Wittmann, T.

2008, XIV, 113 p., Hardcover

ISBN: 978-3-7908-2003-4
