Introduction	1
K.-K. DITTEL	

Conventional hip surgery in traumatology

1 A century of experiments and experiences	7
K.-K. DITTEL	

Technical properties of the DMS

2 The analysis of hip compression screws made of implant steel under static and limit load requirements	15
R. ZIRN	
■ The scope of the work	15
■ Methods	15
■ Test procedure	15
■ Test results	16
■ Conclusion	19
■ Reference	19
3 Implants and instruments	21
M. RAPP, K.-K. DITTEL	

Radioanatomy

4 Abnormal radiographic anatomy of the proximal femur	29
B. MARQUARDT	
■ References	44

Fracture classification at the proximal femur

5	Statistical items	47
	M. RAPP	
	■ AO-classification of trochanteric fractures	48
	■ AO-classification of femur neck fractures	48

Surgical technique for fracture treatment

6	Operative procedure	51
	M. RAPP	
	■ Surgical technique	52

Operative procedures (Case reports)

7	The prognosis of the femur neck fracture after headpreserving osteosynthesis	61
	A. ATESCHRANG	
	■ Introduction	61
	■ Method and results	61
	■ Discussion	64
	■ Conclusions	64
8	Intermediate DMS (2/3 implant)	69
	K.-K. DITTEL, M. RAPP	
9	Stabilization of intertrochanteric fractures with the Dynamic Martin Screw (DMS)	71
	M. RAPP	
	■ Type of fracture	71
	■ Results	72
	■ Conclusion	75
10	The 31A3-3 fracture: an unstable problem	77
	M. RAPP	
	■ Type of fracture	77
	■ Results	78
	■ Conclusion	80

11	Subtrochanteric femur and proximal femur shaft fractures: A032	85
	M. RAPP	
	■ Type of fracture	85
	■ Results	86
	■ Résumé	87
12	Application of the Dynamic Martin Screw (DMS) in the intertrochanteric osteotomy	95
	W. MILLER, K.-K. DITTEL	
13	Distal femur fractures	101
	M.-R. FELENDÁ	
	■ Treatment strategy	101
	■ Indications for operation	101
	■ Postoperative management	102
	■ Method	103
	■ Results	103
14	Pathologic fractures and osteolyses at the femur	107
	S. UPPENBRINK, K.-K. DITTEL	
	■ The pathologic femur fracture	108
15	The use of an innovative femur neck prosthesis in case of complications after hip fracture surgery	111
	K.-K. DITTEL	
16	Exceptional indications	117
	K.-K. DITTEL, M. RAPP	

Additional and adjuvant measurements and procedures

17	Systemic antibiotics in the prophylaxis and therapy of postoperative infections in patients with osteosynthesis of the femur	129
	S. DECKER-BURGARD	
	■ Causative pathogens	130
	■ Antibiotic prophylaxis	130
	■ Selection of antibiotics	132
	■ References	134
18	Prevention of venous thromboembolism in hip surgery	137
	D. JANSSEN	
	■ Background	137
	■ Individual risk factors of thrombosis	137
	■ Thromboprophylactic measures	137

■	Relevant side effects of subcutaneous pharmacological prophylaxis in hip surgery	140
■	Forensic aspects of thromboprophylaxis	141
19	Physiotherapy after surgery for proximal femur fractures	143
	R. PLANK	
■	Pre-surgical	143
■	Surgery	144
■	Prescribing physiotherapy and physical therapy	144
■	Early physiotherapy	144
■	Therapeutic exercises	145
■	Examples	146

The Double Dynamic Martin Screw (DMS)
Adjustable Implant System for Proximal and Distal
Femur Fractures

Dittell, K.-K.; Rapp, M.J. (Eds.)

2008, XIX, 191 p., Hardcover

ISBN: 978-3-7985-1841-4
