

# Contents

<b>Introduction.....</b>	<b>1</b>
<b>Section I Epidemiology and Models of Colorectal Cancer</b>	
<b>1 Colorectal Cancer: Epidemiology.....</b>	<b>5</b>
John D. Potter and David Hunter	
<b>2 Mouse Models of Intestinal Cancer.....</b>	<b>27</b>
Erin M. Perchiniak and Joanna Groden	
<b>Section II Pathways to Colorectal Cancer</b>	
<b>3 The Chromosomal-Instability Pathway and APC Gene Mutation in Colorectal Cancer.....</b>	<b>53</b>
Robert Gryfe	
<b>4 DNA Methylation in Colorectal Cancer: Multiple Facets of Tumorigenesis.....</b>	<b>73</b>
Joanne P. Young and Peter W. Laird	
<b>5 Pathways and Pathology.....</b>	<b>97</b>
Jeremy R. Jass	
<b>Section III Germline Susceptibility – Mendelian and Other Syndromes</b>	
<b>6 Familial Adenomatous Polyposis.....</b>	<b>125</b>
Julian A. Sanchez, Graham Casey, and James M. Church	
<b>7 DNA Mismatch Repair and Lynch Syndrome.....</b>	<b>141</b>
Brittany C. Thomas, Matthew J. Ferber, and Noralane M. Lindor	

<b>8</b>	<b>Additional Syndromes with Hereditary Predisposition to Colorectal Cancer</b>	
<b>8.1</b>	<b><i>MUTYH</i>-Associated Polyposis</b> .....	173
	Spring Holter and Steven Gallinger	
<b>8.2</b>	<b>Familial Colorectal Cancer Type X</b> .....	183
	Noralane M. Lindor	
<b>8.3</b>	<b>Families with Serrated Neoplasia of the Colon</b> .....	187
	Joanne P. Young	
<b>8.4</b>	<b>Peutz-Jeghers Syndrome</b> .....	193
	Douglas L. Riegert-Johnson and Lisa A. Boardman	
<b>8.5</b>	<b>Juvenile Polyposis</b> .....	199
	Kara A. Mensink, Jeremy R. Jass, and Noralane M. Lindor	
<b>8.6</b>	<b><i>BLM</i> mutation and Colorectal Cancer Susceptibility</b> .....	207
	Beatriz Russell and Joanna Groden	
<b>8.7</b>	<b>The Role of <i>p53</i> in Colorectal Cancer</b> .....	213
	Serena Masciari and Sapna Syngal	
<b>8.8</b>	<b>Chromosomes 8q24 and 9p24: Associations with Colorectal Cancer</b> .....	219
	John D. Potter	
<b>Section IV Germline Susceptibility – Gene-Environment Interactions</b>		
<b>9</b>	<b>Genetic Variability in Folate-Mediated One-Carbon Metabolism and Risk of Colorectal Neoplasia</b> .....	223
	Amy Y. Liu and Cornelia M. Ulrich	
<b>10</b>	<b>Genetic Variability in NSAID Targets and NSAID-Metabolizing Enzymes and Colorectal Neoplasia</b> .....	243
	Elizabeth M. Poole, James T. Cross, John D. Potter, and Cornelia M. Ulrich	
<b>11</b>	<b>The Role of Chemical Carcinogens and Their Biotransformation in Colorectal Cancer</b> .....	261
	Loïc Le Marchand	
<b>12</b>	<b>Calcium and Vitamin D</b> .....	277
	Roberd M. Bostick, Michael Goodman, and Eduard Sidelnikov	
	<b>Index</b> .....	299

Genetics of Colorectal Cancer

Potter, J.D.; Lindor, N.M. (Eds.)

2009, XI, 309 p., Hardcover

ISBN: 978-0-387-09567-7
