

# Contents

<b>1</b>	<b>Challenges for Clinical Neuropsychology</b>	<b>1</b>
	Case Examples	1
	Technological Advances	8
	Managed Mental Health Care	9
	Patient-Centered Care	11
	Developing a Patient-Centered Orientation	13
	Defining a Person-Centered Orientation	14
	Patient-Centered Rehabilitation and Treatment	18
	Psychologists are Giving Feedback: A Survey of Feedback Practices	19
	A Proposed Model	21
<b>2</b>	<b>CTNA Conceptual Foundations: A Brief History of Psychological and Neuropsychological Assessment Feedback</b>	<b>23</b>
	Background of Neuropsychological Test Feedback	23
	Luria’s Neuropsychological Investigation	23
	Recommendations for Giving Neuropsychological Test Feedback	25
	Psychological Testing as a Therapeutic Intervention	26
	Collaborative Individualized Assessment	28
	Therapeutic Assessment	29
	Summary of Psychological Testing as a Therapeutic Intervention	30
	Contemporary Applications of Therapeutic Assessment and Neuropsychology	31
	Therapeutic Neuropsychological Assessment (Gorske, 2008)	31
	Pilot Study Results	33
	Collaborative Neuropsychological Assessment	35
	The Neuropsychology Case Conference	37

<b>3 A Collaborative Therapeutic Neuropsychological Assessment Model</b>	39
Basic Assumptions of CTNA	40
<b>4 The Initial Interview: Collaborative Information Gathering</b>	45
Conducting the Initial Interview	48
Understanding the Problem	48
Understanding the Emotional Experience of the Problem	50
The Central Cognitive-Emotional Complaint	51
Understanding the Patient's Wishes for the Assessment, Results, and Outcomes	52
Summary and Moving to the Assessment	54
<b>5 The CTNA Feedback Session</b>	57
CTNA Feedback Conceptual Basis	57
Therapeutic/Individualized Models of Psychological Assessment	57
Neuropsychological Test Feedback Recommendations	58
Motivational Interviewing Principles (Miller and Rollnick, 2002)	58
The Feedback Process in MI	60
Evidence for the Effectiveness of Brief Feedback	61
The Format of a CTNA Feedback Session	62
Step 1: Setting the Agenda and Introducing the Feedback Report	62
Step 2: Develop Life Implications Questions	65
Step 3: Determining a Personal Skill Profile	67
Step 4: Individual Test Results: Feedback About Personal Strengths and Weaknesses	69
Step 5: Summarizing the Relationship Between Tests Results, Life Areas, and Patient Questions	85
Developing a Change Plan and Providing Recommendations	91
<b>6 Putting It All Together: Two CTNA Case Examples</b>	97
Case #1: Dementia or Pseudodementia?	97
Case #2: Brian's Brain	101
<b>7 Applications of CTNA Methods</b>	105
General Clinical Practice	105
Rehabilitation Methods	107
Teaching	109
Future Research	109
CTNA and Cultural Issues	110

Contents	xiii
CTNA with Children, Adolescents, and Families . . . . .	113
CTNA with Elderly Patients and Their Families . . . . .	116
<b>8 Final Thoughts . . . . .</b>	<b>123</b>
<b>Appendices . . . . .</b>	<b>125</b>
<b>Appendix A: Sample CTNA Feedback Report . . . . .</b>	<b>126</b>
<b>Appendix B: Patient Feedback Form (adapted from Center                     for Therapeutic Assessment, Austin, Texas) . . . . .</b>	<b>137</b>
<b>Appendix C: Patient Feedback Form (from NAFI pilot study). . . . .</b>	<b>138</b>
<b>Appendix D: CTNA Adherence Scale . . . . .</b>	<b>139</b>
