Part I A General Theory and Statistical Evidence

1	Theory	3
1.1	Output, Not Price, Reflects Economic Performance	4
1.1.1	An Informal Model of Pressure-Group Politics	4
1.1.2	A Formal Check on Our Intuition	6
1.2	Robustness to Assumptions	8
1.2.1	What if Policy Credibility Is Important?	8
1.2.2	What if “Real Options” Are Important?	11
1.3	Conclusion and a Look Ahead	11
	References	12
2	Natural Experiments	15
2.1	General Requirements for a Natural Experiment	16
2.2	Experimental Conditions in the Telecommunications Sector	17
2.3	What Should We See if Democratic Governance Goes Too Far in This Application?	18
2.4	Conclusion	20
	References	21
3	Statistical Evidence	23
3.1	An Empirical Proxy for Economic Performance	24
3.2	Proxies for Democratic Governance	27
3.2.1	Restrictions on Campaign Contributions	27
3.2.2	Alternative Measures of Democratic Governance	28
3.3	From Correlation to Evidence of Causation	31
3.3.1	Holding Supply and Demand Conditions Constant	31
3.3.2	Subtracting Even the Maximum Bias from Our Coefficient Estimate Leaves a Large Result	33
3.3.3	Results from Synthetic Experiments Add Even More Confidence That Accountability Went Too Far	36
3.4	Conclusion	41

3.5 Appendix A	42
3.6 Appendix B	43
3.7 Appendix C	45
References	46

Part II Implications for Political Bureaucracy, Competition Law, and Business Organization

4 Politics	51
4.1 Electoral Accountability Can Weaken Policy Commitments:	
The Case of Monetary Policy	52
4.1.1 The Problem of Time Inconsistency, in Principle	52
4.1.2 Time Inconsistency and Monetary Policy	54
4.1.3 Unaccountable Monetary Policy Can Be More Consistent	55
4.1.4 The Case of the Fed	58
4.2 Electoral Accountability Can Fuel Redistributive Pressures	60
4.2.1 Property Rights Can Be Stronger in Oligarchies	60
4.2.2 Deficits Can Encourage More Productive Government	
Spending	61
4.2.3 Insulated Judges Can Seek Truths and Ignore Inefficient	
Distributive Pressures from Aggregating Preferences	64
4.3 Conclusion: When Can Policy Benefit from Undemocratic	
Processes?	66
References	67
5 Law	69
5.1 Competition Policy Can Strengthen Economic Performance	70
5.2 But Legal Ideals Must Work Within Political Constraints	71
5.2.1 Producers Lobby for Market Power, Not Efficiency	72
5.2.2 Consumers Also Have an Interest in Inefficiency	74
5.3 Case Study: Do Consumer Interests Weigh Too Heavily	
on Insurance Regulation?	75
5.3.1 Insurance Can Improve Economic Welfare	76
5.3.2 But Promises Are Hard to Keep	79
5.3.3 Restricting Credit-Based Insurance Scores Can Overly	
Favor Consumers	80
5.3.4 Regulation Through Litigation Can Overly Favor Consumers ..	82
5.3.5 Rate Regulation Can Facilitate Consumer Monopsonies	
Instead of Checking Producer Monopolies	84
5.4 Tail Risks and Term Limits	87
5.5 How Big Is This Problem?	90
5.6 Governance Opportunities	91
5.6.1 What Can Politics Do Better?	92
5.6.2 What Can the Law Do Better?	93

5.6.3 What Can Business Do Better?	93
References	94
6 Business	97
6.1 Widespread Support for Increasing Accountability to Shareholders ...	98
6.2 Strengthening Shareholder Democracy:	
Policy Developments	100
6.3 Can Accountability to Shareholders Go Too Far?	101
6.3.1 Shareholder Democracy Can Destabilize Business Strategy ...	101
6.3.2 Shareholder Democracy Can Put Other Stakeholders	
at Risk of Inefficient Takings	104
6.4 Diffuse Ownership Weakens Shareholder Democracy,	
but Strengthens Commitments Against Opportunism	106
6.5 Evidence on How Weakening Shareholder Democracy Can Improve	
Corporate Performance	107
6.5.1 Strong Shareholders, Not Weak Ones, Award Golden	
Parachutes	108
6.5.2 Bondholders Demand Compensation for Risks from Strong	
Shareholder Rights	111
6.5.3 Value-Maximizing Venture Capitalists Also Protect Against	
Strong Shareholders	111
6.6 Quandaries in Macro- and Micro-governance	112
References	115
7 Conclusion	117
Index	121
