Part I The Fundamental Properties of the Materials Used in Medicine and Dentistry

1	Ceramics and Glasses	3
	Irene G. Turner	
1.1	Introduction	3
1.2	What Is a Ceramic?	4
1.3	Ceramic Processing	5
1.4	Powder Processing	5
1.5	Deformation and Fracture	7
1.6	Transformation Toughening	9
1.7	Pressureless Sintering	10
1.8	Isostatic Pressing	10
1.9	Liquid Phase Sintering	12
1.10	Tape Casting	13
1.11	Costs of Powder Processing	13
1.12	Porous Ceramics	13
	1.12.1 BurPS	13
	1.12.2 Foamed Slips	14
	1.12.3 Reticulated Foams	14
1.13	Measurement of Porosity in Porous Ceramics	15
1.14	Surface Engineering	16
	1.14.1 Ion Implantation	17
	1.14.2 Thermal Spray Coatings	17
1.15	Glasses and Glass-Ceramics	19
	1.15.1 Glasses	19
	1.15.2 Glass-Ceramics	21
	1.15.3 Bioceramics	22
	1.15.4 Bone	23
	1.15.5 Medical Ceramics	25
	1.15.6 Biomedical Use of Bioceramics	26
	1.15.7 Alumina	26

1.15.8 Zirconia	28
1.15.9 Hydroxyapatite	29
1.15.10 Porous Bioceramics	30
1.16 Functional Gradient Materials	33
1.17 Bone Morphogenetic Proteins	33
1.18 Hydroxyapatite Coatings	34
1.19 Bioactive Glasses	36
1.20 Conclusion	37
References	38
2 Metallic Biomaterials	41
Robert M. Pilliar	
2.1 Introduction – Why Metals?	41
2.2 Metallic Interatomic Bonding	42
2.3 Crystal Structures – Atom Packing in Metals	42
2.4 Phase Transformations – Diffusive and Displacive	43
2.5 Diffusion in Metals	47
2.6 Interatomic Forces and Elastic Moduli (<i>Structure-Insensitive</i> Properties)	48
2.7 Plastic Deformation and <i>Structure-Sensitive</i> Properties	51
2.8 Corrosion Resistance	54
2.9 Metals and Processes for Implant Fabrication	54
2.10 Austenitic Stainless Steel (ASTM F 138/139, F 1314, F 1586, F 2229)	55
2.11 Co-based Alloys	58
2.12 Cast CoCrMo (ASTM F 75)	58
2.13 Wrought CoCrMo (Low- and High-Carbon) (ASTM F 799, F 1537)	62
2.14 Surface Modification of CoCrMo Implants – Porous Coatings for Bone Ingrowth	65
2.15 Other Co-containing Implant Alloys (ASTM F 562, F 90, F 563, F 1058)	66
2.16 Titanium-Based Alloys	67
2.17 Commercial Purity Ti	68
2.18 ($\alpha + \beta$) Ti Alloys	69
2.19 β -Ti and Near β -Ti Alloys	71
2.20 Zr-Nb Alloy	72
2.21 Ni-Ti Alloys (Nitinol)	73
2.22 Tantalum	74
2.23 Platinum, Platinum-Iridium	75
2.24 Dental Alloys	75
2.25 Dental Amalgams	76
2.26 Dental Casting Alloys – (Au-based, Co- and Ni-based, Ti-based)	76
2.27 Wrought Dental Alloys	78
