Preface

v-vi

1 Introduction: The SERENITY vision

Antonio Maña, George Spanoudakis and Spyros Kokolakis1

Part A: Foundations of Security and Dependability Engineering

2 Security and Dependability Engineering

Jan Jürjens21

3 Security Patterns and A Methodology to Apply them

Eduardo B. Fernandez37

Part B: The SERENITY Security and Dependability Artefacts

4 Specification of Security and Dependability Properties

Sigrid Gürgens and Gimena Pujol49

5 Representation of Security and Dependability Solutions

*Francisco Sánchez-Cid, Antonio Maña, George Spanoudakis,
Christos Kloukinas, Daniel Serrano and Antonio Muñoz*69

6 Security and Dependability Solutions for Web Services and Workflows

*Spyros Kokolakis, Panagiotis Rizomiliotis,
Azzedine Benameur and Smriti Kumar Sinha*97

7 Security and Dependability Solutions for Networks and Devices

Sigrid Gürgens and Andreas Fuchs107

Part C: Developing SERENITY Aware Applications and S&D solutions

8 SERENITY Aware Development of Security and Dependability Solutions

*Daniel Serrano, Antonio Maña, Rafael Llarena,
Beatriz Gallego-Nicasio Crespo and Keqin Li*127

9	Verification of S&D Solutions for Network Communications and Devices	
	<i>Carsten Rudolph, Luca Compagna, Roberto Carbone, Antonio Muñoz and Jürgen Repp</i>	143
10	SERENITY Aware System Development Process	
	<i>Daniel Serrano, Antonio Maña, Rafael Llarena, Beatriz Gallego-Nicasio Crespo and Keqin Li</i>	165
Part D: Runtime Support for Security and Dependability		
11	The SERENITY Runtime Framework	
	<i>Beatriz Gallego-Nicasio Crespo, Ana Piñuela, Pedro Soria-Rodriguez, Daniel Serrano and Antonio Maña</i>	183
12	Pattern Driven Selection and Configuration of S&D Mechanisms at Runtime	
	<i>Beatriz Gallego-Nicasio Crespo, Ana Piñuela, Pedro Soria-Rodriguez, Daniel Serrano and Antonio Maña</i>	199
13	The SERENITY Runtime Monitoring Framework	
	<i>George Spanoudakis, Christos Kloukinas and Khaled Mahbub</i>	213
14	Diagnosis and Threat Detection Capabilities of the SERENITY Monitoring Framework	
	<i>Theocharis Tsigkritis, George Spanoudakis, Christos Kloukinas and Davide Lorenzoli</i>	239
Part E: Dealing with Security and Dependability at Organisational and Legal Levels		
15	Organisational Pattern Driven Recovery Mechanisms	
	<i>Valentina Di Giacomo, Domenico Presenza and Carlo Riccucci</i>	275
16	Legal Issues of Ambient Intelligence in the SERENITY Project	
	<i>Alžběta Krausová and Jos Dumortier</i>	291
Part F: Experiences and Future Directions		
17	SERENITY in e-Business and Smart Item Scenarios	
	<i>Azzedine Benameur, Paul El Khoury, Magali Seguran and Smriti Kumar Sinha</i>	305

18	Realising the Potential of Serenity in Emerging Aml Eco-systems: Implications and Challenges <i>Álvaro Armenteros, Laura García, Antonio Muñoz and Antonio Maña</i>	323
19	Applying the SERENITY Methodology to the Domain of Trusted Electronic Archiving <i>Jan Porekar, Tomaž Klobučar, Svetlana Šaljič and Dušan Gabrijelčič</i>	343
20	SERENITY in Air Traffic Management <i>Massimo Felici, Valentino Meduri, Alessandra Tedeschi and Carlo Riccucci</i>	359
21	Future Directions <i>Antonio Maña, George Spanoudakis and Spyros Kokolakis</i>	379
Index	385

Security and Dependability for Ambient Intelligence
Spanoudakis, G.; Kokolakis, S. (Eds.)
2009, IX, 392 p. 80 illus., 30 illus. in color., Hardcover
ISBN: 978-0-387-88774-6
