Part I Rational Consumer Behavior: Endogenous Decision Making Mechanisms

1	Cheap Talk in Operations: Role of Intentional Vagueness	3
	Gad Allon and Achal Bassamboo	
1.1	Introduction	4
1.2	Classical Cheap Talk Game	6
1.2.1	Model	6
1.2.2	Key Results	7
1.2.3	Other Applications of the Classical Cheap Talk Model . .	7
1.2.4	Discussion	7
1.3	Service Application	8
1.3.1	Model	8
1.3.2	Problem Formulation	10
1.3.3	Informative Equilibria	11
1.3.4	Non-informative and Other Equilibria	16
1.4	Retail Application	18
1.4.1	Model	19
1.4.2	No-Information and Full-Information Strategies	20
1.4.3	Cheap Talk Equilibrium	23
1.4.4	Remedies and Discussion	26
1.5	Summary	31
1.6	The Past and the Future	32
1.6.1	Future Research	35
	References	35
2	Product Design in a Market with Satisficing Customers	37
	Matulya Bansal and Costis Maglaras	
2.1	Introduction	37
2.2	Literature Survey	42
2.3	Applications and Variations to Basic Model	43

2.3.1	Delay Differentiation	44
2.3.2	Capacity Differentiation	44
2.3.3	Rationing Risk Differentiation	45
2.3.4	No Capacity Constraint: Versioning of Information Goods	46
2.3.5	Costly Quality Differentiation	46
2.4	Analysis of General Model	47
2.4.1	Model Assumptions	47
2.4.2	Structural Results	47
2.4.3	Computation	49
2.4.4	$k < N$ Products	50
2.5	Extensions	51
2.5.1	Capacity Differentiation	51
2.5.2	Multiple Quality Attributes	52
2.5.3	Duopoly	53
2.6	Concluding Remarks: Satisficers vs. Utility Maximizers	55
2.7	Proofs	56
	References	60
3	The Effect of Assortment Rotation on Consumer Choice and Its Impact on Competition	63
	Felipe Caro and Victor Martínez-de-Albéniz	
3.1	Introduction	63
3.2	Literature Review	67
3.3	The Multi-period Utility Model with Satiation	69
3.4	Competing on Assortment Rotation	71
3.4.1	The Competitive Setting	71
3.4.2	The Competitive Equilibrium	73
3.5	Conclusions	77
	References	78
4	Models of Herding Behavior in Operations Management	81
	Laurens G. Debo and Senthil K. Veeraraghavan	
4.1	Introduction	82
4.2	Related Literature	85
4.3	Herding in a Single Queue	86
4.3.1	The Model	86
4.3.2	Insights from the Single-Queue Model	89
4.4	Herding and Queue Selection	91
4.4.1	The Model	91
4.4.2	Insights from the Two-Queue Model: Homogeneous Customer Bases and Small Buffers	95
4.4.3	Insights from the Two-Queue Model: Heterogeneous Customer Bases and Large Buffers	98
4.4.4	Equilibrium Strategies: Numerical Examples with $N = 25$	100

4.4.5	The Effect of Herding on the Market Share and Blocking Probability of Service Providers with Small Buffers	103
4.4.6	Herding and Co-location of Service Facilities with Small Buffers	106
4.5	Discussion and Further Research Opportunities	107
4.5.1	Introducing Asymmetry	108
4.5.2	Introducing Capacity Decisions of Firms	108
4.5.3	Empirical and Laboratory Testing of Herd Behavior in Queues	109
4.5.4	Herding on Other Operational Information	110
	References	111

Part II Organizational Strategies for Managing Rational/Strategic Consumer Behavior

5	Internet-Based Distribution Channel for Product Diversion with Potential Manufacturer's Intervention	115
	Barchi Gillai and Hau L. Lee	
5.1	Introduction	116
5.2	Literature Review	119
5.3	Problem Description	121
5.4	Retailer-Only Secondary Market	123
5.4.1	The Impacts of the Secondary Market	125
5.5	Manufacturer's Intervention	127
5.5.1	The Impacts of the Manufacturer's Intervention	132
5.6	Discussion and Conclusion	141
5.7	Appendix	144
	References	153
6	Managing Client Portfolio in a Two-Tier Supply Chain	155
	Basak Kalkanci and Seungjin Whang	
6.1	Introduction	155
6.2	Literature Review	158
6.3	The Basic Model	160
6.4	The Bullwhip Effect with Multiple Clients	161
6.5	Client Portfolio	163
6.6	Conclusion	164
	Appendix	166
	References	176
7	Strategic Customer Behavior and the Benefit of Decentralization ...	177
	Xuanming Su and Fuqiang Zhang	
7.1	Introduction	177
7.2	Durable Goods	178
7.2.1	Centralized System	179

7.2.2	Decentralized System	181
7.2.3	Longer Time Horizons	185
7.3	Perishable Goods	186
7.3.1	Model Setting	187
7.3.2	Centralized System	189
7.3.3	Decentralized System	191
7.4	Conclusion and Future Research	196
	Appendix	198
	References	201

Part III Product Strategies for Managing Rational/Strategic Consumer Behavior

8	Is Assortment Selection a Popularity Contest?	205
	Aydın Alptekinoğlu, Alex Grasas, and Elif Akçalı	
8.1	Introduction	206
8.2	Literature Review	207
8.3	Models	208
8.3.1	Base Model: Assortment Decision for Exogenous Price and Return Policy	208
8.3.2	Extension 1: Assortment and Price Decisions for Exogenous Return Policy	214
8.3.3	Extension 2: Assortment and Return Policy Decisions for Exogenous Price	214
8.3.4	Extension 3: Assortment Decision for Multiple Periods	214
8.4	Analytical Results and Numerical Observations	215
8.4.1	Optimal Assortment in the Base Model	215
8.4.2	Optimal Assortment and Price in Extension 1	219
8.4.3	Optimal Assortment and Refund Policy in Extension 2	222
8.4.4	Optimal Assortment for Multiple Periods in Extension 3	224
8.5	Concluding Remarks	226
	References	227
9	Product Design, Pricing, and Capacity Investment in a Congested Production System	229
	Sergio Chayet, Panos Kouvelis, and Dennis Z. Yu	
9.1	Introduction	229
9.2	Literature Review	231
9.3	Basic Model and Assumptions	233
9.4	Quadratic Cost Functions	234
9.5	General Power Cost Functions	238
9.6	Conclusions and Current Research	241
	Appendix	243
	References	251

10	Selling to Strategic Customers: Opaque Selling Strategies	253
	Kinshuk Jerath, Serguei Netessine, and Senthil K. Veeraraghavan	
10.1	Introduction	253
10.2	Literature Review	257
10.3	Firm's Selling Strategies Under Deterministic Demand	263
10.3.1	Selling Through Firms' Direct Channels	263
10.3.2	Opaque Selling	265
10.3.3	Comparison of Strategies Under Deterministic Demand	269
10.4	Modeling Uncertain Demand: The Effect of Uncertainty on Opaque Selling Strategies	271
10.4.1	Selling Though Firms' Direct Channels	272
10.4.2	Opaque Selling	274
10.4.3	A Comparison of Two Selling Strategies	276
10.4.4	Concluding Discussion	277
10.5	Other Related Considerations and Future Research	279
10.6	Appendix A: Deterministic Demand	282
10.6.1	Proof of Lemma 1	282
10.6.2	Proof of Proposition 1	282
10.6.3	Proof of Proposition 2	283
10.6.4	Proof of Lemma 2	284
10.6.5	Equilibrium Characterization for the Low-Demand Case (If Consumers Do Not Strategically Wait)	288
10.6.6	Proof of Proposition 3	290
10.6.7	Equilibrium Characterization for the High-Demand Case (If Consumers Do Not Strategically Wait)	290
10.6.8	Proof of Proposition 4	291
10.7	Appendix B: Uncertain Demand	292
10.7.1	Proof of Proposition 5	292
10.7.2	Proof of Proposition 6	296
	References	299
11	Competing Through Mass Customization	301
	Ali K. Parlaktürk	
11.1	Introduction	302
11.2	Model	305
11.3	Pricing Game	307
11.4	The Adoption Game	309
11.5	MC vs. Traditional Approach	311
11.6	Comparative Statics: Conditions Favoring MC	314
11.6.1	Market Size λ	315
11.6.2	Customization Rate μ	316
11.7	Concluding Remarks	316
	References	318

Part IV Operational Strategies for Managing Rational/Strategic Consumer Behavior

12 Counteracting Strategic Consumer Behavior in Dynamic Pricing Systems	323
Yossi Aviv, Yuri Levin, and Mikhail Nediak	
12.1 Introduction	323
12.2 The Effectiveness of Price Segmentation in Face of Strategic Customers	324
12.2.1 Models with Limited Inventories	327
12.3 Price Commitments	333
12.4 Capacity Rationing	334
12.4.1 Capacity Commitments	342
12.5 Internal Price-Matching Policies	343
12.5.1 Internal Price Guarantees Under Strategic Consumer Behavior	345
12.6 Limiting Inventory Information	351
References	351
13 Mitigating the Adverse Impact of Strategic Waiting in Dynamic Pricing Settings: A Study of Two Sales Mechanisms	353
Yossi Aviv, Christopher S. Tang, and Rui Yin	
13.1 Introduction	353
13.2 Model Preliminaries	355
13.3 Two Inventory Display Formats	356
13.3.1 The “Display All” (DA) Format	356
13.3.2 The “Display One” (DO) Format	360
13.3.3 Summary of Numerical Results	363
13.4 Two Operating Regimes	364
13.4.1 No Reservation Regime	364
13.4.2 With Reservation Regime	365
13.4.3 Comparison of Payoffs	368
13.4.4 Summary of Numerical Results	368
13.5 Conclusions	369
References	369
14 The Impact of Strategic Consumer Behavior on the Value of Operational Flexibility	371
G�rard P. Cachon and Robert Swinney	
14.1 Introduction	372
14.2 Modeling Traditional and Flexible Production	373
14.3 Modeling Strategic Consumer Purchasing	375
14.4 Equilibrium Analysis	378
14.4.1 Traditional Replenishment	379
14.4.2 Flexible Replenishment	380
14.5 The Value of Flexibility	382

14.5.1	The Relative Value of Flexibility	382
14.5.2	The Absolute Value of Flexibility	385
14.5.3	Drivers of the Value of Flexibility	387
14.5.4	Consumer and Social Welfare	388
14.6	Extensions and Complications	390
14.6.1	Dynamic Sale Pricing and Consumer Heterogeneity	390
14.6.2	Uncertain Consumer Valuations and Learning	391
14.6.3	Alternative Forms of Flexibility	392
14.7	Conclusions	394
	References	394
15	Capacity Rationing with Strategic Customers	397
	Qian Liu and Garrett van Ryzin	
15.1	Introduction	398
15.2	Capacity Rationing Under Rational Expectations	400
15.2.1	Model Formulation	400
15.2.2	Optimal Stocking Policy	402
15.2.3	Extensions to the Basic Model	405
15.2.4	Oligopolistic Competition	407
15.3	Capacity Rationing When Customers Learn	409
15.3.1	Adaptive Learning Model	409
15.3.2	Optimal Capacity Decisions Over Time	413
15.4	Relation to Rational Expectation Equilibrium	417
15.5	Conclusions	418
	References	419
Part V Pricing Strategies for Managing Rational/Strategic Consumer Behavior		
16	Shaping Consumer Demand Through the Use of Contingent Pricing	423
	Eyal Biyalogorsky	
16.1	Introduction	423
16.2	Contingent Pricing	425
16.3	Contingent Pricing with Strategic Consumers	426
16.3.1	Contingent Pricing as a Truth-Revealing Mechanism	430
16.4	Conclusion	432
	Appendix	433
	References	434
17	Strategic Consumer Response to Dynamic Pricing of Perishable Products	435
	Minho Cho, Ming Fan, and Yong-Pin Zhou	
17.1	Introduction	435
17.2	Literature Review	437
17.3	Strategic Consumer Behavior	439
17.3.1	Dynamic Pricing Model	439

17.3.2	Threshold Purchasing Policy	440
17.3.3	Exponential Valuation of the Consumers	441
17.4	Simulation Results	444
17.4.1	Benefits to the Strategic Consumer	444
17.4.2	Impact on the Seller	446
17.5	Extensions	449
17.5.1	Multiple SCs and a Simplified Threshold Price Policy	449
17.5.2	Constraints on Strategic Consumer Waiting	450
17.6	Conclusions and Future Research	452
	Appendix	453
	References	457
18	Strategic Behavior in Supply Chains: Information Acquisition	459
	Karan Girotra and Wenjie Tang	
18.1	Introduction	460
18.2	Motivating Example: Costume Gallery	461
18.3	Literature Review	464
18.4	Independent Retailers and Products	465
18.4.1	Model Setup	465
18.4.2	Case 1: No Advance Purchase Discounts	467
18.4.3	Case 2: Advance Purchase Discounts are Offered	468
18.5	Advance Purchase Discounts: Risk Sharing and Supply Chain Performance	470
18.6	Application at Costume Gallery	472
18.7	Conclusions and Future Work	476
	References	476
	Index	479

Consumer-Driven Demand and Operations Management
Models

A Systematic Study of Information-Technology-Enabled
Sales Mechanisms

Netessine, S.; Tang, C.S. (Eds.)

2009, XXIV, 488 p., Hardcover

ISBN: 978-0-387-98018-8
