

Contents

1 Introduction	1
Biotech in Its Infancy	1
The Business of Biotechnology Is Like No Other	2
What Exactly Is Biotechnology?	2
Biotechnology Clusters and the Decentralization of Biotech Hubs	3
Is the Biotechnology Business Model Broken?	6
2 What Makes a Biotech Entrepreneur?	9
A Different Breed	9
Know the Challenges: Count the Costs	10
Do You Have What It Takes?	11
Personal Costs	11
Four Backgrounds of Biotech Entrepreneurs	12
For the Scientist: Things vs. People	12
For the Businessperson: Communication with Scientists	13
First Time Entrepreneur, First Time in Business	14
Alternatives to Consider Before Taking the Leadership Role	14
Acquiring Additional Business Skills	15
For the Young MBA	16
Be a Life-Long Learner	16
Essentials of a Biotech Entrepreneur	17
Passion and Vision	17
Assess Your Strengths and Weaknesses	17
Learn New Skills Quickly	18
Good Business Sense	19
Have the Ability to Speak Two Languages:	
Be a Multi-Disciplined Translator	19
Beware of the Unknown Unknowns	21
Gain Knowledge and Wisdom	21
Persistence	22

Having a Deep Sense of Responsibility	23
Be a Negotiator.....	24
Enlarge Your Circle of Influence.....	24
On Creativity and Change	25
Leadership and Core Values	25
Summary	26
3 Start with the Idea: Licensing and Protecting Core Assets	27
What to Consider Before Licensing.....	27
Is There a Real Market for This Product?	27
The Quality of the Science	29
Is It a Core Technology or a Single Product?.....	30
Great Technology is Associated with Great Scientists.....	31
What To Do Next?.....	31
What Is Intellectual Property?	32
What Is a Patent?.....	32
How Is a Patent Obtained?	33
Types of Patents: Traditional, Regular (Nonprovisional).....	34
Types of Patents: Provisional	35
Types of Patents: International	35
Get a Freedom-to-Operate Evaluation.....	36
Trade Secrets	36
Trademarks	37
Technology Licensing and Negotiations.....	37
What Does a Typical License Structure Look Like?.....	38
Factors in Licensing Negotiations	39
Exclusive Licenses	40
Nonexclusive/Coexclusive Licenses.....	40
Summary	41
4 Significance of the Right Business Model and Managing Risk	43
Business Model Examples	43
Biotechnology Business Models	44
The Drug Repositioning Business Model	45
Molecular Testing Business Models.....	46
How Do You Determine the Best Business Model for a Technology?	47
Becoming a Risk Manager.....	48
Why Risk Assessment and Risk Management Is Important	49
What Are the Risks That Need to be Managed?	49
Biotech Evaluation Tool.....	50
Summary	52

5	Legally Establishing the Company	53
	The First Step: Find a Good Attorney	53
	How Many and What Types of Attorneys Do I Need?	54
	Corporate Attorney	54
	Patent Attorney	55
	Securities Attorney	55
	How Does One Find a Good Attorney?	56
	How Much Will This Cost?	57
	Choosing a Company Name	58
	Why Is a Company Name Important?	58
	Can a Company Name be Changed?	59
	Incorporating the New Company	60
	Ownership: Issuing Stock	61
	What Types of Stock Should be Issued?	62
	What About the Founders?	63
	What Agreements are Needed?	63
	Setting Up a Board of Directors	64
	Importance of Directors and Officers Insurance	65
	Responsibilities of Your Board of Directors	65
	How Should a Board of Directors be Compensated?	67
	Setting Up a Scientific Advisory Board	67
	Who Are They and What Do They Do?	67
	How Often Should the SAB Meet?	69
	How Should the SAB be Compensated?	69
	A Clinical Advisory Board	69
	The Virtual Company	70
	Summary	70
6	The Product Development Pathway: Charting the Right Course	73
	It Is About Creating Value	73
	Biotechnology R&D: Little R, Big D	74
	A Sense of Urgency Down an Unfamiliar Path	74
	Two Types of Product Development Categories	75
	Product Development Stages	76
	Development Stages for “Treatments”	76
	Treatments: Basic and Translational Research Stage	76
	Treatments: Development Stage	77
	Treatments: Lead/Process Optimization Stage	78
	Treatments: Preclinical Testing Stage	79
	Treatments: Clinical Testing Stage	80
	Treatments: Regulatory Review Stage	83
	Treatments: Scale-Up and Manufacturing Stage	83
	Treatments: Marketing and Growth Stage	84

Development Stages for “Analytics and Tools”	84
Analytics and Tools: Basic and Translational	
Research Stage	84
Analytics and Tools: Proof-of-Concept Stage.....	85
Analytics and Tools: Prototype Development.....	85
Analytics and Tools: Clinical Validation Stage.....	86
Analytics and Tools: Regulatory Review Stage	87
Analytics and Tools: Scale-Up and Manufacturing Stage.....	87
Analytics and Tools: Marketing and Growth Stage.....	87
Product Development Milestones	88
Commit Your Plan to Writing	89
Product Development Assistance.....	89
Significance of Winning Competitive Grants.....	90
Commercialization Help from SBIR.....	91
Market Development and Business and Organizational	
Development Paths.....	91
Summary	92
7 Developing a Marketing Strategy	95
What Is Marketing?.....	95
Misconception 1: What Is So difficult About Marketing?	
You Just Make It and Sell It!	96
Misconception 2: The Better Your Technology,	
The More People Will Want to Buy Your Product.....	96
Misconception 3: I Do Not Need to be Concerned	
with Market Strategy Now Because I Have Plenty	
of Time to Think About Marketing Later.....	97
The Evolution of the Marketing Concept	97
The Production Concept.....	98
The Sales Concept	98
The Marketing Concept.....	98
Understand and Appreciate the Market for Your Product.....	99
Marketing Tools	100
Segmentation	100
By Geographic Location	100
By Demography	101
By Behavior and Usage	101
Targeting.....	102
Positioning.....	102
Branding	103
Market Research and Assessment Tools.....	103
Primary and Secondary Market Research	104
Market Size and Opportunity	104
Biotechnology Products Typically Have Three Customers	105

Who Is the Patient?.....	105
Who Is the Physician?	106
Who Is the Payor?	106
Five-Step Process to Applying Market Concepts	106
Step 1: Determine Your Potential Market Size	107
Step 2: Define Your Target Market Segment.....	107
Step 3: Articulate Your Product's Value Proposition to Your Target Market	108
Step 4: Select a Market Channel to Reach Your Target Market Segment	108
Step 5: Validate and Refine Your Market Strategy.....	109
Using Biotech Product Examples	109
Example: Molecular Genetic Test for the Assessment of Breast Cancer Risk	110
Determine Your Potential Market Size.....	110
Define Your Target Market Segment.....	110
Determine a Value Proposition to the Target Market	111
Evaluate and Select a Market Channel to Reach the Target Market	112
Validate and Refine the Market Strategy	112
Example: Nasal Spray Vaccine Against Influenza Virus	112
Determine Your Potential Market Size.....	112
Define Your Target Market Segment.....	113
Determine Your Value Proposition to Your Target Market	113
Evaluate and Select a Market Channel to Reach Your Target Market.....	114
Validate and Refine Your Market Strategy	114
Market Development Milestones	115
Biotechnology Product Adoption Curve.....	115
Summary	116
 8 Financing Your Company – Part 1: Raising Money, Capital Needs, and Funding Sources	 117
Raising Money	118
Why Does It Seem Like All Our Time Is Spent Raising Money?.....	118
Raise Money on Strength	118
Raise More Money Than the Anticipated Need.....	118
Do Not Wait Too Long to Start Raising Your Next Round of Capital	119
Do Not Overvalue Your Company	120
New Money Trumps Old Money.....	120
Just Because Investors Are Interested, It Does Not Mean They Will Make an Investment	120

How Much Money Does a Company Need to Raise?.....	121
Therapeutic Estimates	123
Diagnostic Tests Cost Estimates.....	123
Medical Device Estimates	124
Clinical Laboratory Services: Genetic and Gene Testing of Molecular Markers	124
How Long Does It Take to Raise Money for a Start-Up Company?	125
Academic Scientist or Physician	125
Industry Scientist or Industry Physician.....	126
Businessperson (Nonscientist/Nonphysician)	126
Spin-Off Group from Industry	127
Geographic Location Effects.....	128
Where to Go to Raise Capital?.....	128
Personal Money	129
Friends and Family	130
Peer-Reviewed Grant Funding	130
State and Local Financing Program Support.....	131
Angel Investors.....	132
Private Placements or Private Offerings	133
The Venture Capital Industry	134
Venture Capital Brings More Than Just Money	135
Finding the Right VC	135
How NOT to Find a Venture Capital Firm	136
The Dark Side.....	138
How Do You Approach Venture Capital?	138
The Term Sheet	139
What Is Due Diligence? How Long Does It Take?	140
The Funding Chasm: Bridging from Angel to Venture Capital	140
Nonprofit Foundation Partnerships	141
Industry Corporate Partnership	142
Institutional Debt Financing.....	142
Investors Expectations for Return on Investment	143
Learn to Appreciate the “Beatings”.....	143
Summary	144
 9 Financing the Company – Part 2: Funding Stages, Valuation, and Funding Tools	 147
Financing Stages for a Life Science Company	147
Start-Up or Pre-Seed Capital.....	147
Seed Capital.....	148
Early Stage Capital: Series A/B Preferred Rounds	148
Mid-Stage or Development-Stage Capital: Series C/D Preferred Rounds	148

Later-Stage and Expansion Capital: Series E/F	
Preferred Rounds	149
Mezzanine Capital	149
Initial Public Offering or Acquisition	149
Funding Gaps: Convertible Notes or Convertible Bridge Loans.....	150
What Is the Typical Sequence of Funding Events?	150
How Much Money is Raised at Each Funding Stage?	151
How Is Company Value Determined?.....	152
How Much Will the Founders Own?	155
How Much of the Company Is Given Up in Each Round?	156
Communicating to Your Shareholders	156
The Value of Public Relations in Raising Money	157
Exit Planning: Sooner not Later.....	159
What Are the Exits?	159
The Tools.....	160
The Business Plan	160
The Presentation.....	166
All That is needed to Raise Money is a Good	
PowerPoint Presentation	166
What is Contained in Your Presentation	167
Pointers on Giving a PowerPoint Presentation	167
Presentation Body Language	168
Other Presentation Points.....	169
Building a Web Presence: Putting Your Best	
Foot Forward.....	169
Final Comments About Funding.....	170
 10 Corporate Culture and Core Values	
in a Biotech Company.....	171
Why is a Company Culture Important?	171
Development of a Company Culture.....	172
Individuals Define the Culture and Core Values	173
Examples of Core Values	173
Company Core Values.....	174
Guiding Principles Based On Core Values	175
Core Values Begin With the Leader.....	175
How to go About Improving a Company Culture?.....	176
Communication in a Biotech Company	177
Core Values Apply to Partnerships Even Suppliers	
and Service Providers.....	177
A Good Corporate Culture is a Strength That Cannot	
be Easily Copied	178

11 Hiring a Biotech Dream Team	179
For the Start-Up: Virtual is Vital.....	179
Renting and Leasing Space.....	180
Who do You Hire First?	181
Category I Functions.....	182
Category II Functions.....	182
Category III Functions	183
General Recommendations	183
Employee Benefits Challenges	184
Key Employee Compensation.....	184
Diversity is Essential.....	185
A New Hiring Approach.....	186
Relevant Experience.....	186
Ability-to-Execute.....	187
Shared Core Values	187
The Hiring Process.....	188
Have the Interviewee Give a Presentation	188
Face-to-Face Time.....	189
Use a Work Behavior Assessment Profile.....	190
Use Informal Meetings	190
Have Them Talk with a Professional	190
Making the Final Decision.....	191
How to Find These Individuals?	191
Management Skill Sets	192
Five Skills of Successful Mangers	192
Letting Some Go	193
When to Use Separation Agreements	194
Summary	194
 12 Strategic Alliances and Corporate Partnerships.....	 197
What Are Alliances and Partnerships?.....	197
Why Are Partnerships Important?.....	197
What Does a Biotech Have That a Strategic Partner Would Want?.....	198
What Does the Biotech Get from a Partnership?	199
Can't a Potential Partner Just Acquire the Biotech Company?.....	200
The Partnership	200
What Is the Partnership Process?	201
Making Alliances Work	202
Why Do Alliances Fail?.....	203
Summary	204
 13 The Regulatory Process for Biotech Products.....	 205
Alphabet Soup.....	206
Biotechnology Regulators: The Food and Drug Administration	207

What is an Institutional Review Board?.....	208
Informed Consent.....	208
Regulating Drugs and Biologics: The Drug Approval Process	209
Pre-IND Meeting	209
Investigational New Drug Application	210
Pre-NDA Meeting	213
New Drug Application or Biologics License Application	213
Other Types of Regulatory Review Processes	214
Accelerated Development Review	214
Parallel Track	215
Treatment IND	215
Regulating Medical Devices, IVDs, Diagnostics and Laboratory Tests.....	216
Medical Device Classification	217
In Vitro Diagnostic Devices	218
Investigational Device Exemption	218
Division of Small Manufacturers, International and Consumer Assistance	219
Medical Device Approval Process and Filing Route	219
Remember that Regulators are First People.....	220
Summary	220
14 Company Life Stages and Changing Management Styles.....	223
Why Understand Company Development Life Stages?.....	223
Organizational Life Stages.....	224
Birth Phase	225
Infancy Stage.....	225
Development Phase	226
Toddler	226
Adolescent.....	226
Teenager	227
Expansion Phase	229
Young Adult	229
Adult	229
Retirement.....	230
Other Corporate Identity Features	230
The CEO's Role in the Transition of Life Stages	231
Work-Life Balance	231
Summary	232
15 When Do You Call it Quits?.....	233
How Can One Tell When It is Time?.....	234
External Indicators	234
Internal Indicators	235

Assuming There Are No Alternatives, What Should be Done?.....	236
Face Responsibility: Do Not Cover Up, Make Excuses, Deny, or Ignore.....	236
Honesty and Transparency	236
Employee Assistance	237
When It Is Time for the Entrepreneur to Leave?	237
What Can be expected?.....	237
Summary	238
16 Conclusions and Serendipity	239
A Biotech Company Opportunity	240
It Was the Best of Times, and It Was the Worst of Times.....	241
Every Success Was First Met with Challenges	241
Summary	242
17 Practical Help: How to Get Started?	243
What to Do First.....	244
Organize Yourself	244
Organize Your Environment	244
Utilize a Project Management Software	245
Next Steps	246
Glossary	249
Additional Reading	261
Index	263

The Business of Bioscience

What goes into making a Biotechnology Product

Shimasaki, C.D.

2009, XXIV, 269 p. 7 illus., Hardcover

ISBN: 978-1-4419-0063-0
