

# Contents

<b>Preface</b> .....	v
<b>Contributors</b> .....	xiii
<b>1. Isolation of <i>Mycobacterium</i> Species Genomic DNA</b> .....	1
John T. Belisle, Spencer B. Mahaffey and Preston J. Hill	
<b>2. Isolation of Mycobacterial RNA</b> .....	13
Tige R. Rustad, David M. Roberts, Reiling P. Liao and David R. Sherman	
<b>3. Lipoglycans of <i>Mycobacterium tuberculosis</i>: Isolation, Purification, and Characterization</b> .....	23
Libin Shi, Jordi B. Torrelles and Delphi Chatterjee	
<b>4. Analyzing Lipid Metabolism: Activation and <math>\beta</math>-Oxidation of Fatty Acids</b> .....	47
Paul Robert Wheeler	
<b>5. Analysis of Lipid Biosynthesis and Location</b> .....	61
Paul Robert Wheeler	
<b>6. Whole Genome Analysis Using Microarrays</b> .....	83
S.J. Waddell, J. Hinds and P.D. Butcher	
<b>7. Use of DNA Microarrays to Study Global Patterns of Gene Expression</b> .....	95
Roberta Provvedi, Giorgio Palù and Riccardo Manganelli	

<b>8. Two-Dimensional Gel Electrophoresis–Based Proteomics of Mycobacteria</b> . . . . .	111
Jens Mattow, Frank Siejak, Kristine Hagens, Julia Kreuzeder, Stefan H.E. Kaufmann and Ulrich E. Schaible	
<b>9. Transport Assays and Permeability in Pathogenic Mycobacteria</b> . . . . .	143
Marie-Antoinette Lanéelle and Mamadou Daffé	
<b>10. Continuous Culture of Mycobacteria</b> . . . . .	153
Joanna Bacon and Kim A. Hatch	
<b>11. Measuring Minimum Inhibitory Concentrations in Mycobacteria</b> . . . . .	173
Frederick A. Sirgel, Ian J.F. Wiid and Paul D. van Helden	
<b>12. Rapid Screening of Inhibitors of <i>Mycobacterium tuberculosis</i> Growth Using Tetrazolium Salts</b> . . . . .	187
Anita G. Amin, Shiva K. Angala, Delphi Chatterjee and Dean C. Crick	
<b>13. Electroporation of Mycobacteria</b> . . . . .	203
Renan Goude and Tanya Parish	
<b>14. Ins and Outs of Mycobacterial Plasmids</b> . . . . .	217
Farahnaz Movahedzadeh and Wilbert Bitter	
<b>15. The Use of Temperature-Sensitive Plasmids in Mycobacteria</b> . . . . .	229
Damien Portevin, Wladimir Malaga and Christophe Guilhot	
<b>16. Heterologous Expression of Genes in Mycobacteria</b> . . . . .	243
James A. Triccas and Anthony A. Ryan	
<b>17. Inducible Expression Systems for Mycobacteria</b> . . . . .	255
Christopher M. Sassetti	
<b>18. Assaying Promoter Activity Using LacZ and GFP as Reporters</b> . . . . .	265
Paul Carroll and Jade James	
<b>19. Construction of Unmarked Deletion Mutants in Mycobacteria</b> . . . . .	279
Houhui Song, Frank Wolschendorf and Michael Niederweis	
<b>20. Construction of Targeted Mycobacterial Mutants by Homologous Recombination</b> . . . . .	297
Sharon L. Kendall and Rosangela Frita	

<b>21. Phage Transposon Mutagenesis . . . . .</b>	<b>311</b>
M. Sloan Siegrist and Eric J. Rubin	
<b>22. Gene Essentiality Testing in <i>Mycobacterium smegmatis</i> Using Specialized Transduction . . . . .</b>	<b>325</b>
Apoorva Bhatt and William R. Jacobs Jr.	
<b>23. Gene Switching and Essentiality Testing . . . . .</b>	<b>337</b>
Amanda Claire Brown	
<b>24. Insertion Element IS6110-Based Restriction Fragment Length Polymorphism Genotyping of <i>Mycobacterium tuberculosis</i> . . . . .</b>	<b>353</b>
Robin M. Warren, Paul D. van Helden and Nicolaas C. Gey van Pittius	
<b>25. Typing <i>Mycobacterium tuberculosis</i> Using Variable Number Tandem Repeat Analysis . . . . .</b>	<b>371</b>
T.J. Brown, V.N. Nikolayevskyy and F.A. Drobniewski	
<b>26. Molecular Detection of Drug-Resistant <i>Mycobacterium tuberculosis</i> with a Scanning-Frame Oligonucleotide Microarray . . . .</b>	<b>395</b>
Dmitriy V. Volokhov, Vladimir E. Chizhikov, Steven Denkin and Ying Zhang	
<b>27. MycoDB: An Online Database for Comparative Genomics of the Mycobacteria and Related Organisms . . . . .</b>	<b>419</b>
Roy R. Chaudhuri	
<b>28. Environmental Amoebae and Mycobacterial Pathogenesis . . . . .</b>	<b>433</b>
Melanie Harrieff and Luiz E. Bermudez	
<b>Index . . . . .</b>	<b>443</b>
