

Contents

1	Introduction.....	1
	References.....	3
2	Fundamentals of Defect Ionization and Transport.....	5
2.1	Introduction	5
2.2	Thermodynamics of Defect Charging	5
2.2.1	Free Energies, Ionization Levels, and Charged Defect Concentrations.....	7
2.2.2	Ionization Entropy.....	13
2.2.3	Energetics of Defect Clustering	15
2.2.4	Effects of Gas Pressure on Defect Concentration	17
2.3	Thermal Diffusion	19
2.4	Drift in Electric Fields	24
2.5	Defect Kinetics	25
2.5.1	Reactions.....	25
2.5.2	Charging.....	29
2.6	Direct Surface-Bulk Coupling	31
2.7	Non-Thermally Stimulated Defect Charging and Formation	32
2.7.1	Photostimulation	32
2.7.2	Ion-Defect Interactions	33
	References.....	34
3	Experimental and Computational Characterization	39
3.1	Experimental Characterization	39
3.1.1	Direct Detection of Bulk Defects	39
3.1.2	Indirect Detection of Bulk Defects	43
3.1.3	Diffusion in the Bulk.....	44
3.1.4	Direct Detection of Surface Defects.....	45
3.1.5	Diffusion on the Surface	46

3.2	Computational Prediction	47
3.2.1	Density Functional Theory.....	47
3.2.2	Other Atomistic Methods.....	50
3.2.3	Maximum Likelihood Estimation	51
3.2.4	Surfaces and Interfaces	56
	References.....	56
4	Trends in Charged Defect Behavior.....	63
4.1	Defect Formation.....	63
4.1.1	Effects of Crystal Structure and Atomic Properties	63
4.1.2	Effects of Stoichiometry	66
4.2	Defect Geometry	68
4.3	Defect Charging.....	69
4.3.1	Bulk vs. Surface	70
4.3.2	Point Defects vs. Defect Aggregates.....	71
4.4	Defect Diffusion	71
	References.....	72
5	Intrinsic Defects: Structure.....	73
5.1	Bulk Defects	73
5.1.1	Silicon	76
5.1.2	Germanium	84
5.1.3	Gallium Arsenide.....	86
5.1.4	Other III–V Semiconductors	92
5.1.5	Titanium Dioxide.....	95
5.1.6	Other Oxide Semiconductors	100
5.2	Surface Defects.....	105
5.2.1	Silicon	106
5.2.2	Germanium	111
5.2.3	Gallium Arsenide.....	112
5.2.4	Other III–V Semiconductors	116
5.2.5	Titanium Dioxide.....	120
5.2.6	Other Oxide Semiconductors	122
	References.....	123
6	Intrinsic Defects: Ionization Thermodynamics	131
6.1	Bulk Defects	131
6.1.1	Silicon	131
6.1.2	Germanium	144
6.1.3	Gallium Arsenide.....	148
6.1.4	Other III–V Semiconductors	156
6.1.5	Titanium Dioxide.....	160
6.1.6	Other Oxide Semiconductors	166

6.2	Surface Defects.....	173
6.2.1	Silicon	173
6.2.2	Germanium	176
6.2.3	Gallium Arsenide	178
6.2.4	Other III–V Semiconductors	181
6.2.5	Titanium Dioxide	183
6.2.6	Other Oxide Semiconductors	185
	References.....	187
7	Intrinsic Defects: Diffusion	195
7.1	Bulk Defects.....	195
7.1.1	Point Defects.....	196
7.1.2	Associates and Clusters.....	212
7.2	Surface Defects.....	215
7.2.1	Point Defects.....	215
7.2.2	Associates and Clusters.....	222
7.3	Photostimulated Diffusion.....	222
7.3.1	Photostimulated Diffusion in the Bulk.....	223
7.3.2	Photostimulated Diffusion on the Surface	225
	References.....	226
8	Extrinsic Defects	233
8.1	Bulk Defects.....	233
8.1.1	Silicon	234
8.1.2	Germanium	249
8.1.3	Gallium Arsenide	255
8.1.4	Other III–V Semiconductors	260
8.1.5	Titanium Dioxide	265
8.1.6	Other Oxide Semiconductors	271
8.2	Surface Defects.....	277
8.2.1	Silicon	278
8.2.2	Gallium Arsenide	280
8.2.3	Titanium Dioxide	281
	References.....	281
	Index	291

Charged Semiconductor Defects

Structure, Thermodynamics and Diffusion

Seebauer, E.G.; Kratzer, M.C.

2009, XIV, 298 p., Hardcover

ISBN: 978-1-84882-058-6
