|--------------------------------------------------------------------------|------------|
| <b>Preface</b>                                                           | <b>vii</b> |
| <b>1 Incidence Structures and Steiner Designs</b>                        | <b>1</b>   |
| 1.1 Introduction . . . . .                                               | 1          |
| 1.2 Examples . . . . .                                                   | 3          |
| 1.3 Basic Properties and Fisher's Inequality . . . . .                   | 7          |
| <b>2 Permutation Groups and Group Actions</b>                            | <b>11</b>  |
| 2.1 Introduction . . . . .                                               | 11         |
| 2.2 Doubly Transitive Permutation Groups . . . . .                       | 13         |
| <b>3 Number Theoretical Tools</b>                                        | <b>15</b>  |
| 3.1 Introduction . . . . .                                               | 15         |
| 3.2 Primitive Divisors and Zsigmondy's Theorem . . . . .                 | 15         |
| <b>4 Highly Symmetric Steiner Designs</b>                                | <b>19</b>  |
| 4.1 Introduction . . . . .                                               | 19         |
| 4.2 Examples . . . . .                                                   | 20         |
| 4.3 Block's Lemma and Related Results . . . . .                          | 23         |
| <b>5 A Census of Highly Symmetric Steiner Designs</b>                    | <b>27</b>  |
| 5.1 Introduction . . . . .                                               | 27         |
| 5.2 Multiple Point-transitive Steiner Designs . . . . .                  | 27         |
| 5.3 Flag-transitive Steiner Designs . . . . .                            | 29         |
| <b>6 The Classification of Flag-transitive Steiner Quadruple Systems</b> | <b>35</b>  |
| 6.1 Introduction . . . . .                                               | 35         |
| 6.2 Main Result . . . . .                                                | 36         |
| 6.3 Groups of Automorphisms of Affine Type . . . . .                     | 37         |
| 6.4 Groups of Automorphisms of Almost Simple Type . . . . .              | 39         |

|           |                                                                |            |
|-----------|----------------------------------------------------------------|------------|
| <b>7</b>  | <b>The Classification of Flag-transitive Steiner 3-Designs</b> | <b>45</b>  |
| 7.1       | Introduction . . . . .                                         | 45         |
| 7.2       | Main Result . . . . .                                          | 45         |
| 7.3       | Groups of Automorphisms of Affine Type . . . . .               | 46         |
| 7.4       | Groups of Automorphisms of Almost Simple Type . . . . .        | 55         |
| <b>8</b>  | <b>The Classification of Flag-transitive Steiner 4-Designs</b> | <b>67</b>  |
| 8.1       | Introduction . . . . .                                         | 67         |
| 8.2       | Main Result . . . . .                                          | 67         |
| 8.3       | Groups of Automorphisms of Affine Type . . . . .               | 68         |
| 8.4       | Groups of Automorphisms of Almost Simple Type . . . . .        | 70         |
| <b>9</b>  | <b>The Classification of Flag-transitive Steiner 5-Designs</b> | <b>93</b>  |
| 9.1       | Introduction . . . . .                                         | 93         |
| 9.2       | Main Result . . . . .                                          | 93         |
| 9.3       | Groups of Automorphisms of Affine Type . . . . .               | 94         |
| 9.4       | Groups of Automorphisms of Almost Simple Type . . . . .        | 94         |
| <b>10</b> | <b>The Non-Existence of Flag-transitive Steiner 6-Designs</b>  | <b>111</b> |
| 10.1      | Introduction . . . . .                                         | 111        |
| 10.2      | Main Result . . . . .                                          | 111        |
| 10.3      | Groups of Automorphisms of Affine Type . . . . .               | 111        |
| 10.4      | Groups of Automorphisms of Almost Simple Type . . . . .        | 112        |
|           | <b>Bibliography</b>                                            | <b>115</b> |
|           | <b>Index</b>                                                   | <b>123</b> |
