
M. Sindou (ed.)
Practical Handbook of Neurosurgery
From Leading Neurosurgeons

Contents

Volume 1: Brain: Approaches, Vascular, Trauma, Cerebrospinal Fluid, and Infections

Sindou M, Preface

| | |
|---|-----|
| Techniques, Cranial Approaches | 1 |
| Yasargil MG, Microneurosurgery: principles, applications, and training | 3 |
| De Divitiis E, Endoscopy: principles and techniques | 31 |
| Lunsford LD, Image-guided radiosurgery using the Gamma knife | 49 |
| Black PM, How to perform surgery for intracranial (convexity) meningiomas | 63 |
| Sindou M, The “dangerous” intracranial veins | 71 |
| Roux FX, How to perform subfronto-orbito-nasal approach for anterior cranial base surgery | 85 |
| Al-Mefty O, How to perform cranio-orbital-zygomatic approaches | 99 |
| Umansky F, How to perform middle fossa/sphenoid wing approaches | 115 |
| Sekhar L, How to perform central skull base approaches | 135 |
| Yonekawa Y, How to perform selective anterior clinoidectomy | 155 |
| Marchal JC, How to perform approaches of the orbit | 167 |
| Basso AJ, How to perform transsphenoidal approaches | 183 |
| Crockard A, How to perform transoral approaches | 203 |
| Mooij JJA, How to perform posterior fossa approaches | 213 |
| Kawase T, How to perform transpetrosal approaches | 233 |
| Vascular Lesions | 243 |
| Hernesniemi J, Principles of microneurosurgery for safe and fast surgery | 245 |
| Raftopoulos C, Surgical management of intracranial aneurysms of the anterior circulation | 257 |

| | |
|--|------------|
| Lindsay KW, Intracranial aneurysms in the posterior circulation. | 271 |
| Kobayashi S, Giant aneurysms. | 287 |
| Heros RC, Arteriovenous malformations of the brain. | 303 |
| Bertalanffy H, Intracranial cavernomas. | 325 |
| Beneš V, Carotid endarterectomy. | 337 |
| Yonekawa Y, Brain revascularization by extracranial-intracranial arterial bypass. | 355 |
| Pickard JD, Management of intracranial venous pathologies – potential role of venous stenting. | 383 |
| Cranial Traumas, Cerebrospinal Fluid, Infectious Diseases | 393 |
| Teasdale G, The Glasgow coma and outcome scales: practical questions and answers | 395 |
| Hutchinson PJA, Cranial trauma in adults | 411 |
| Trojanowski T, Hydrocephalus in adults (including normal pressure hydrocephalus syndrome) | 429 |
| Schroeder HWS, Arachnoid cysts | 441 |
| Lobato RD, Brain infections. | 455 |
| Abdennebi B, Parasitoses of the central nervous system: hydatidosis ... | 469 |
| Diaz-Vasquez PP, Parasitoses of the central nervous system: cysticercosis | 485 |

Volume 2: Intracranial Tumors, Intraoperative Explorations, Pediatrics

| | |
|--|----------|
| Intracranial Tumors | 1 |
| Westphal M, Classification of brain tumors and corresponding treatments | 3 |
| Thomas DGT, Stereotactic biopsies for tumors: indications, limits, diagnosis with histopathology and other laboratory techniques | 29 |
| Laws ER, Management of (malignant) intracranial gliomas | 49 |
| Loiseau H, Management of lymphomas | 59 |
| Knosp E, Management of anterior fossa lesions | 79 |
| Delfini R, Management of tumors of middle fossa | 99 |
| Misra BK, Management of central skull base tumors. | 115 |
| Fukushima T, Management of cavernous sinus lesions | 129 |
| Samaha E, Management of convexity meningiomas. | 155 |
| Sindou M, Meningiomas involving the major dural sinuses: management of the sinus invasion | 169 |
| Kaye AH, Posterior fossa meningiomas | 181 |
| Kassam AB, Endoscopic surgery for skull base meningiomas | 201 |
| D'Haens J, Management of pituitary adenomas | 217 |

| | |
|---|------------|
| Šteňo J, Craniopharyngiomas | 235 |
| Lobo Antunes J, Management of tumors of the anterior third and lateral ventricles. | 255 |
| Decq P, Endoscopic management of colloid cysts | 275 |
| de Tribolet N, Management of pineal region tumors | 287 |
| Dóczi TP, Epidermoid/dermoid cysts | 301 |
| Pamir MN, Tumors of the fourth ventricle and cerebellum in adults. . . | 319 |
| Samii M, Vestibular schwannomas | 333 |
| Bricolo A, Brainstem tumors | 349 |
| George B, Management of foramen magnum tumours | 373 |
| Régis J, Radiosurgery for intracranial tumors. | 385 |
| Intraoperative Explorations | 405 |
| Unsgård G, Ultrasound-guided neurosurgery | 407 |
| Hori T, Brain neuronavigation for deep-seated targets | 427 |
| Tonn J-C, Brain mapping | 449 |
| Deletis V, Intra-operative neurophysiology (ION) in neurosurgery . . | 461 |
| Pediatrics | 483 |
| Choux M, Specificities of, and changes in, pediatric neurosurgery. . . | 485 |
| Ciurea AV, Cranial traumas in children | 497 |
| Chazal J, Management of hydrocephalus in childhood | 525 |
| Akalan N, Intracranial tumors in childhood | 543 |
| di Rocco C, Nonsyndromic craniosynostoses | 561 |
| Pierre-Kahn A, Management of lumbosacral lipomas | 585 |
| Kalandu KKN, Management of encephaloceles | 601 |
| Delalande O, Epilepsy surgery in children | 609 |

Volume 3: Spine, Functional, Peripheral nerves

Spine

| |
|---|
| Robert R, Management of spine traumas and spinal cord injury |
| Matgé G, Approaches to cervical spine |
| Brunon J, Management of degenerative disease of the cervical spine |
| Msaddi AK, Management of lumbar disc herniations and degenerative diseases of lumbar spine |
| Fessler R, Management of lumbar spondylolisthesis |
| Lapierre F, Non-traumatic extra-medullary spinal cord compressions |
| Brotchi J, Intramedullary tumors |
| Grotenhuis JA, Chiari malformation |
| Klekamp J, Syringomyelia |
| El Khamlichi A, Infections in spine |

Functional Neurosurgery

Bosch DA, Stereotactic techniques

Ohye C, Selective thalamotomy

Velasco-Campos F, Targets for electrical stimulation in functional neurosurgery

Benabid AL, Functional neurosurgery for Parkinson's disease

Hariz MI, Functional neurosurgery for dystonias

Kanpolat Y, Neurosurgical management of cancer pain

Sindou M, Neurosurgery for neuropathic pain

Sindou M, Microvascular decompression for hemifacial spasm

Sindou M, Microvascular decompression for trigeminal neuralgia

Burchiel KJ, Neurosurgery for trigeminal neuralgia

Mertens P, Neurosurgery for spasticity

Abbott R, Selective dorsal rhizotomy for the treatment of spasticity in children

Lozano AM, State-of-the-art of surgical therapies for psychiatric disorders: depression

Sturm V, Neurosurgery for psychiatric disorders: obsessive-compulsive disorder

Devaux BC, Neurosurgical management of epilepsy in adults

Mauguiere F, Neurophysiology applied to neurosurgery: an oeprant association in history and advances of neurosurgery

Nguyen JP, Neuronal transplantation: a review

Peripheral Nerves

Kline DG, Management of nerve injuries (with emphasis on nerve action potential recordings)

Haase J, Tunnel compression syndromes of median and ulnar nerves

Lapierre F, Tumours of the peripheral nerves

Education

de Sousa AA, Message from the chairman of the education and training committee of the WFNS

Keravel Y, What do young neurosurgeons really need

Rosseau GL, The role of the World Federation of Neurosurgical Societies in the development of world neurosurgery

Sindou M, Epilogue
