Preface	V
List of Contributors	VII
Contents	XI
1. Coastal Barriers – An Introduction	1
1.1 Introduction	1
1.2 Origin of Coastal Barriers.....	2
1.3 Geologic, Oceanographic and Climatic Controls of Barriers	4
1.3.1 Sea Level	6
1.3.2 Substrate Slope	6
1.3.3 Sediments	7
1.3.4 Waves and Tides.....	8
1.3.5 Winds.....	8
1.3.6 Antecedent Topography	9
1.4 Summary.....	10
References	10
2. The Coastal Zone of Brazil	17
2.1 Introduction	17
2.2 Geological Background	19
2.3 Major Coastal Processes	19
2.4 Sediment Supply	24
2.5 Sea-Level History	24
2.5.1 High Sea Levels Prior to 120,000 yrs BP	24
2.5.2 The High Sea Level of 120,000 yrs BP	25
2.5.3 The High Sea Level of 5,600 cal yrs BP	25
2.6 Coastal Typologies	26
2.6.1 The Strike-Fed Sandy Coast of Rio Grande do Sul.....	26
2.6.2 The High-Relief Coast of Southeastern Brazil	28
2.6.3 The Dip-Fed Wave-Dominated Deltaic Doast of Eastern Brazil.....	29

2.6.4 The Sediment Starved Coast of Northeastern Brazil.....	31
2.6.5 The Mesozoic Rifted Coasts: Camamu – Recôncavo (Bahia state) and Potiguar Basins (Rio Grande do Norte state)	31
2.6.6 The Tidal Embayment of the Amazon	37
2.7 Concluding Remarks	43
References	46
3. The Holocene Coastal Barriers of Rio Grande do Sul.....	53
3.1 Introduction	53
3.2 Regional Setting	53
3.2.1 Geologic Setting.....	53
3.2.2 Oceanographic Setting.....	54
3.2.3 Climatic Setting.....	54
3.2.4 Coastal Sediments	56
3.2.5 Holocene Sea Level History.....	57
3.3 The Holocene Barrier	57
3.3.1 Sector 1 – Torres to Tramandaí	60
3.3.2 Sector 2 – Tramandaí to Mostardas	60
3.3.3 Sector 3 – Mostardas to Estreito.....	60
3.3.4 Sector 4 – Estreito to Verga.....	61
3.3.5 Sector 5 – Verga to Chuí	61
3.3.6 The Regressive Barrier of Torres–Tramandaí	63
3.3.7 The Transgressive/Stationary Barrier of Tramandaí–Mostardas.....	68
3.3.8 The Transgressive Barrier of Mostardas–Estreito	77
3.3.9 The Regressive Barrier of Estreito–Verga.....	84
3.4 Summary.....	87
References	88
4. The Holocene Barrier Systems of the Santa Catarina Coast, Southern Brazil.....	93
4.1 Introduction	93
4.2 Geological Setting	93
4.2.1 Tectonics	94
4.2.2 Basement Rocks	97
4.3 Climate	97
4.4 Waves, Tides and Littoral Drift.....	100
4.5 Sea Level	102
4.6 Barrier Types of the Guaratuba (PR) to Torres (SC) Region	102
4.6.1 Province I	102
4.6.2 Province II	103

4.6.3 Province III.....	108
4.6.4 Province IV.....	122
4.7 Discussion and Conclusion.....	127
References	129
5. The Holocene Barrier Systems of Paranaguá and Northern Santa Catarina Coasts, Southern Brazil.....	135
5.1 Introduction	135
5.2 Regional Setting	138
5.2.1 Geological Background	138
5.2.2 Holocene Paleo-Sea Level Trend	138
5.2.3 Climate and Oceanography	139
5.2.4 Fluvial Discharge and Sediment Yield.....	141
5.3 The Coastal Plains	143
5.3.1 The Estuaries	143
5.3.2 The Paleo-Estuarine Plains.....	144
5.3.3 The Barriers.....	145
5.4 The Holocene Barriers.....	150
5.4.1 Sedimentary Composition	152
5.4.2 Sedimentary Facies.....	153
5.4.3 Barrier Thickness and Limiting Surfaces	159
5.4.4 Barrier Evolutionary Model	161
5.4.5 The Paranaguá Barrier in Perspective	168
5.5 Summary.....	171
References	172
6. Sedimentology and Morphological Evolution of the Ilha Comprida Barrier System, Southern São Paulo Coast	177
6.1 Introduction	177
6.2 Regional Setting	178
6.2.1 Physiographical Scenario	178
6.2.2 Climatic and Oceanographic Aspects.....	181
6.2.3 Holocene Paleosea-Level Trend.....	184
6.2.4 Stratigraphy of Quaternary Coastal Deposits	185
6.3 Present Depositional Systems.....	186
6.3.1 Beach-Dune	186
6.3.2 Lagoon.....	193
6.4 Old Depositional Systems.....	197
6.4.1 Paleobeaches and Paleodunes.....	197
6.4.2 Paleolagoon	213
6.5 Proposed Evolutionary Model	214
References	219

7. Barrier and Beach Ridge Systems of the Rio de Janeiro Coast....	225
7.1 Introduction	225
7.2 Geologic Setting	228
7.3 Relative Sea Level Change	230
7.4 Physical Forcing Functions	231
7.5 Beach ridge Plains	232
7.6 Coastal Dunes	235
7.7 Coastal Barriers	235
7.7.1 Barrier Islands and Spits	235
7.7.2 Single Transgressive Barriers	240
7.7.3 Double Transgressive Barriers	242
7.8 Evolution and Chronology of the Rio de Janeiro Barriers	244
7.9 Conclusions	248
References	248
 8. The Holocene Barrier Strandplains of the State of Bahia.....	253
8.1 Introduction	253
8.2 Regional Setting	253
8.2.1 Geology	253
8.2.2 Atmospheric Circulation, Waves and Tides	255
8.2.3 Sediment Dispersal	258
8.2.4 Climate	258
8.2.5 Continental Shelf Physiography and Sedimentation	258
8.2.6 Sea-Level History and Coastal Evolution	259
8.3 The Caravelas Strandplain	261
8.3.1 Development of the Abrolhos Inner Reef Tract	261
8.3.2 Quaternary Evolution of the Caravelas Strandplain	262
8.4 The Jequitinhonha Strandplain	270
8.5 The Lagoa Encantada Bay	276
8.6 The Itapicuru Strandplain	280
8.7 Discussion	282
References	285
 9. The Mesotidal Barriers of Rio Grande do Norte	289
9.1 Introduction	289
9.2 Geological and Geomorphological Coastal Setting	289
9.2.1 Potiguar Basin	292
9.2.2 Pernambuco-Paraíba Basin	293
9.3 Climate	293
9.4 Coastal Processes	294
9.4.1 Winds	294
9.4.2 Waves	294

9.4.3	Currents	295
9.4.4	Tides	295
9.5	Sediment Characteristics	296
9.6	Sea Level Changes.....	297
9.7	Barriers of Rio Grande do Norte	298
9.8	Rio Grande do Norte Barrier Examples.....	299
9.8.1	Natal Reef Barrier (Beachrocks)	299
9.8.2	Natal Barrier Dune System – Attached Barrier	301
9.8.3	São Bento-Caiçara do Norte (Prograded or Regressive) Barrier.....	305
9.8.4	Galinhos Spit-Barrier Island System	306
9.8.5	Açu River Mouth.....	309
9.9	Evolution of the RN Holocene Coastal Barrier	314
	References	319
10.	The Holocene Barriers of Maranhão, Piauí and Ceará States, Northeastern Brazil	325
10.1	Introduction	325
10.2	Geology	325
10.3	Climate.....	326
10.4	Littoral Dynamics	327
10.5	Coastal Geomorphology and Barriers of Maranhão State	330
10.6	Coastal Geomorphology and Barriers of Piauí State	332
10.7	Coastal Geomorphology and Barriers in the State of Ceará	333
10.7.1	Attached Barriers.....	333
10.7.2	Barrier Spits.....	338
10.7.3	Foredune Plain Prograded Barriers	341
10.8	Discussion: Dunes in the Tropics	341
10.9	Conclusions	342
	References	343
11.	The Subsiding Macrotidal Barrier Estuarine System of the Eastern Amazon Coast, Northern Brazil	347
11.1	Introduction	347
11.2	Regional Setting	348
11.2.1	Structural Setting.....	348
11.2.2	Continental Shelf Morphology and Sedimentology	350
11.2.3	Climate	352
11.2.4	Oceanography.....	352
11.3	Data Sources	355
11.4	Evolution of the Barrier-Estuarine System.....	366

11.5 The Amazon Mangrove Coast in Perspective.....	369
11.6 Conclusions	372
References	372
Subject Index.....	377

Geology and Geomorphology of Holocene Coastal
Barriers of Brazil

Dillenburg CNPq 305393/20170, S.R.; Hesp, P.A.

2009, XVI, 380 p. 303 illus., 3 illus. in color., Hardcover
