

## Contents

<b>Plant Infection by Root-Knot Nematode .....</b>	<b>1</b>
David McK. Bird, Charles H. Opperman, and Valerie M. Williamson	
<b>Parasitism Genes: What They Reveal about Parasitism .....</b>	<b>15</b>
Eric L. Davis, R.S. Hussey, and Thomas J. Baum	
<b>Molecular Insights in the Susceptible Plant Response to Nematode Infection .....</b>	<b>45</b>
Godelieve Gheysen and Melissa G. Mitchum	
<b>Resistant Plant Responses .....</b>	<b>83</b>
Anna Tomczak, Kamila Koropacka, Geert Smant, Aska Goverse, and Erin Bakker	
<b>Development of the Root-Knot Nematode Feeding Cell.....</b>	<b>115</b>
R. Howard Berg, Thomas Fester, and Christopher G. Taylor	
<b>Structure of Cyst Nematode Feeding Sites .....</b>	<b>153</b>
Miroslaw Sobczak and Wladyslaw Golinowski	
<b>Transcriptomic Analysis of Nematode Infestation.....</b>	<b>189</b>
Yuhong Li, Thomas Fester, and Christopher G. Taylor	
<b>Genomic Analysis of the Root-Knot Nematode Genome .....</b>	<b>221</b>
Charles H. Opperman, David McK. Bird, and Jennifer E. Schaff	
<b>Molecular Approaches Toward Resistance to Plant-Parasitic Nematodes.....</b>	<b>239</b>
J.P. McCarter	
<b>Index.....</b>	<b>269</b>
