Synthesis and Characterization

| | |
|---|--|
| <i>S. Behrens, H. Bönnemann, N. Matoussevitch, H. Modrow, V. Kempter, W. Riehemann, A. Wiedenmann, S. Odenbach, S. Will, D. Eberbeck, R. Hergt, R. Müller, K. Landfester, A. Schmidt, D. Schüler, and R. Hempelmann</i> | |
| 1 | Characterization Methods |
| 2 | Synthesis of Magnetic Nanoparticles and Preparation of Magnetic Fluids |
| 3 | Summary |
| | Acknowledgements |
| | References |

Thermodynamics, Electrodynamics, and Ferrofluid Dynamics

| | |
|---|---|
| <i>M. Liu and K. Stierstadt</i> | |
| 1 | Introduction |
| 2 | Thermodynamic Derivation of the Maxwell Equations |
| 3 | The Maxwell Stress and Electromagnetic Forces |
| 4 | Static Experiments |
| 5 | Electrodynamics Including Dissipation |
| 6 | Off-Equilibrium Experiments |
| 7 | Ferrofluid Dynamics |
| 8 | Extensions |
| | Appendix A Legendre Transformations of Fields |
| | Appendix B The General Frame Thermodynamic Energy |
| | References |

Surface Instabilities of Ferrofluids

| | |
|--|---------------------------------------|
| <i>R. Richter and A. Lange</i> | |
| 1 | Introduction |
| 2 | Linear Pattern Formation |
| 3 | Nonlinear Pattern Formation |

| | | |
|---|--|-----|
| 4 | Parametric Excitation of the Surface | 215 |
| 5 | Summary and Outlook | 234 |
| | References | 236 |

Ferrofluid Structure and Rheology

| | |
|---|-----|
| <i>P. Ilg and S. Odenbach</i> | 249 |
| 1 Introduction | 249 |
| 2 Ferrohydrodynamic Equations and Rheological Quantities | 256 |
| 3 Microscopic Ferrofluid Model | 260 |
| 4 Equilibrium Structure and Magnetization | 270 |
| 5 Kinetic Models of Ferrofluid Dynamics | 286 |
| 6 Equilibrium Dynamics in Ferrofluids | 300 |
| 7 Experimental Determination of Rheological and Microstructural Properties | 301 |
| 8 Conclusions and Perspectives | 311 |
| References | 315 |

Biomedical Applications of Magnetic Nanoparticles

| | |
|---|-----|
| <i>L. Trahms</i> | 327 |
| 1 Introduction | 327 |
| 2 Magnetic Nanoparticles | 329 |
| 3 Magnetic Nanoparticles as Labels for Monitoring Biological Binding Reactions | 330 |
| 4 Magnetic Drug Targeting | 336 |
| 5 Magnetic Hyperthermia and Thermoablation | 343 |
| 6 Interactions of Magnetic Nanoparticles on a Cellular Level | 351 |
| 7 Conclusion | 353 |
| References | 354 |

Technical Applications

| | |
|--|-----|
| <i>N. Bayat, A. Nethe, J.M. Guldbakke, J. Hesselbach, V.A. Naletova, H.-D. Stahlmann, E. Uhlmann and K. Zimmermann</i> | 359 |
| 1 Overview to Technical Applications Using Ferrofluids | 359 |
| 2 Technical Ferrofluids in Actuators and Electrical Machines | 362 |
| 3 Biologically Inspired Locomotion Systems | 380 |
| 4 Ferrofluidic Positioning Systems | 394 |
| 5 Magnetofluidic Bearings and Dampers | 405 |
| 6 Extreme Boundary Lubrication | 420 |
| References | 427 |

Colloidal Magnetic Fluids

Basics, Development and Application of Ferrofluids

Odenbach, S. (Ed.)

2009, X, 430 p. 253 illus., 18 illus. in color., Hardcover

ISBN: 978-3-540-85386-2
