

Contents

1	Designing Manufacturing Flexibility in Dynamic Production Contexts.	1
	Walter Terkaj, Tullio Tolio and Anna Valente	
2	Flexibility in Manufacturing – An Empirical Case-Study Research.	19
	Marco Cantamessa and Carlo Capello	
3	A Review on Manufacturing Flexibility	41
	Walter Terkaj, Tullio Tolio and Anna Valente	
4	Product-Process-System Information Formalization	63
	Marcello Colledani, Walter Terkaj and Tullio Tolio	
5	Manufacturing Strategy: Production Problem Analysis for Assessing Focused Flexibility	87
	Manfredi Bruccoleri, Diego Lanza and Giovanni Perrone	
6	Pallet Configuration for Approaching Mapping Requirements on Devices	113
	Giovanni Celano, Antonio Costa, Sergio Fichera and Barbaro Santangelo	
7	Design of Focused Flexibility Manufacturing Systems (FFMSs).	137
	Walter Terkaj, Tullio Tolio and Anna Valente	
8	System Life-Cycle Planning	191
	Marco Cantamessa, Carlo Capello and Giuseppe Cordella	

9	System Performance Simulation and Analysis	219
	Antonio Grieco and Francesco Nucci	
10	Testing	239
	Manfredi Bruccoleri, Carlo Capello, Antonio Costa, Francesco Nucci, Walter Terkaj and Anna Valente	
	Index	295
