

Table of Contents

1	Introduction.....	1
2	Supply Chain Management and Collaborative Planning.....	5
2.1	The Concept of Supply Chains.....	5
2.2	Overview of Supply Chain Management	7
2.3	Operations Planning in Supply Chains.....	12
2.3.1	Successive and segregated planning.....	13
2.3.2	Hierarchical planning	15
2.3.3	Collaborative planning	19
3	Modeling Framework and Relevant Literature	25
3.1	Modeling	25
3.1.1	Decision situation and modeling assumptions.....	25
3.1.2	Intra-domain planning model	30
3.1.3	Modeling links to adjacent planning domains.....	35
3.2	Benefits of Information Sharing and Collaboration	37
3.3	Coordination of Planning Processes Along the Supply Chain	42
3.3.1	Coordination by contracts	42
3.3.2	Coordination mechanisms for mathematical programming models....	46
4	Negotiation-Based Collaborative Planning between Two Partners.....	57
4.1	Assumptions and Overview	57
4.2	Iterative Planning Steps.....	61
4.2.1	Evaluating the partner proposal.....	62
4.2.2	Determining the preferred outcome.....	63
4.2.3	Generating a compromise proposal	69
4.2.4	Generating additional compromise proposals	83
4.3	Collaborative Planning Process in Total	91
4.3.1	Data exchange requirements	91
4.3.2	Total process flow	94
4.3.3	Stopping criteria	97
4.4	Summary and Comments	101
5	Extensions to the Basic Collaborative Planning Scheme.....	103
5.1	Extended Supply Chain Structures.....	103
5.1.1	General two-tier supply chains.....	103
5.1.2	Multi-tier supply chains.....	112
5.2	Planning on a Rolling Basis	115
5.2.1	Conceptual overview.....	118
5.2.2	Extensions to process flow and planning models.....	120

5.3 Limited Exchange of Cost Information.....	125
5.3.1 Limited exchange between two planning partners	125
5.3.2 Limited exchange between multiple planning partners	127
5.3.3 Limited exchange in planning on a rolling basis	129
6 Implications on Supply Contracts and Partner Incentives	131
6.1 Contractual Consequences	131
6.1.1 Compensation and savings sharing	132
6.1.2 Adaptation of supply contracts.....	140
6.2 Potentials of Opportunistic Behavior and Counteractions	147
6.2.1 Game-theoretic analysis.....	147
6.2.2 Means preventing opportunistic behavior	158
7 Computational Evaluation.....	165
7.1 Implementation of the Collaborative Planning Scheme.....	165
7.2 Generation of Test Instances.....	168
7.3 Tests with a Single Buyer and Supplier	173
7.3.1 Test classes and test program	173
7.3.2 Overview of test results.....	178
7.3.3 Results by cost structure, utilization profile, and iteration	186
7.3.4 Results with limited exchange of cost information	190
7.4 Tests with One Supplier and Several Buyers	193
7.4.1 Test classes and test program	193
7.4.2 Overview of test results.....	196
7.5 Tests with Rolling Schedules.....	201
7.5.1 Test classes and test program	201
7.5.2 Test results with deterministic demand	203
7.5.3 Test results with uncertain demand	207
8 Summary and Conclusions	215
References	219
List of Figures.....	229
List of Tables	231
List of Symbols	233

Collaborative Planning in Supply Chains
A Negotiation-Based Approach

Dudek, G.

2009, XIV, 234 p. 45 illus., Hardcover

ISBN: 978-3-540-92175-2
