

# Contents

<b>Introduction</b> .....	1
---------------------------	---

## **Part I Geology – Igneous and Metamorphic Rocks**

<b>1 The Basement Complex</b> .....	13
The Migmatite – Gneiss Complex (MGC) .....	14
The Schist Belt (Metasedimentary and Metavolcanic Rocks) .....	19
Case Studies on Schist Belts (Derived Mainly from Turner, 1983) ....	20
Comments on the Kibaran and Pan African Orogenies .....	26
The Older Granites (Pan African Granitoids) .....	27
Charnockites .....	28
Undeformed Acid and Basic Dykes .....	29
<b>2 The Younger Granites</b> .....	31
General Description .....	31
Hydrothermal Alteration .....	37
Sodic Metasomatism .....	38
Potassic Metasomatism .....	39
Acid (Hydrogen Ion) Metasomatism and Hydration .....	40
Chloritic (Propylitic) Alteration and Fluorization .....	40
Silica Metasomatism .....	41
Argillic Alteration .....	41
Geochemistry of the Alteration Processes .....	41
Structural Setting and Styles of Mineralization .....	42
Environmental Zones of Deposition .....	42
Styles of Mineralization .....	43
<b>3 Cretaceous – Cenozoic Magmatism and Volcanism</b> .....	49
The Cameroon Line .....	51
Controls of Cenozoic Magmatism .....	52
Economic Potential of Cenozoic Volcanics .....	52

## Part II Geology – Sedimentary Basins

<b>4 The Benue Trough</b> .....	57
The Lower Benue Trough and the Anambra Basin .....	60
The Middle Benue Trough .....	62
The Upper Benue Trough .....	65
<b>5 The Bornu Basin (Nigerian Sector of the Chad Basin)</b> .....	69
Geological and Hydrogeological Setting .....	69
Tectonic Setting .....	71
Pan African Crustal Consolidation Stage (750–550 Ma).....	71
Early Rift Stage (130–98 Ma) .....	71
Late Rift Stage (98–75 Ma) .....	71
Post Rift Stage (66–0 Ma) .....	72
Lithostratigraphy .....	72
The Bima Sandstone .....	73
The Gongila Formation .....	73
The Fika Shale .....	74
The Gombe Sandstone .....	75
The Kerri–Kerri Formation .....	75
The Chad Formation .....	75
<b>6 The Sokoto Basin (Nigerian Sector of the Iullemmeden Basin)</b> .....	77
Pre-Maastrichtian Deposits (The Continental Intercalaire) .....	77
Maastrichtian Deposits (The Rima Group) .....	80
The Taloka Formation .....	80
The Dukamaje Formation .....	81
The Wurno Formation .....	81
Paleocene Deposits (The Sokoto Group) .....	82
The Dange Formation .....	82
The Kalambaina Formation .....	83
The Gamba Formation .....	84
Palaeobiogeographical Deductions and the Transaharan Seaway .....	85
Post-Paleocene Deposits (The Continental Terminal) .....	86
The Gwandu Formation .....	87
Lateritic and Ferruginous Cappings .....	88
<b>7 The Mid-Niger (Bida) Basin</b> .....	91
Stratigraphic Setting and Paleogeography .....	92
Lithostratigraphy and Depositional Environments .....	93
Central/Northern Bida Basin .....	95
The Bida Sandstone .....	95
The Sakpe Ironstone .....	95
The Enagi Siltstone .....	95

The Batati Formation .....	95
Southern Bida Basin .....	96
The Lokoja Formation .....	96
The Patti Formation .....	96
The Agbaja Formation .....	98
A Case Study on the Doko and Jima Members of the Bida Sandstone .....	98
The Doko Member .....	98
The Jima Member .....	99
Depositional Environments .....	100
The Doko Member .....	100
The Jima Member .....	100
<b>8 The Dahomey Basin .....</b>	<b>103</b>
Stratigraphic Nomenclature .....	105
Litho-Biostratigraphy .....	106
The Abeokuta Formation .....	106
The Araromi Formation .....	107
<b>9 The Niger Delta Basin .....</b>	<b>109</b>
Stratigraphic Framework .....	109
Structural Geology .....	111
Sand Fairways and Sequence Stratigraphy .....	112
 <b>Part III Mineral Resources</b>	
<b>10 Solid Mineral Resources .....</b>	<b>117</b>
Introduction .....	117
Solid Minerals in the Basement Complex Including the Younger Granites .....	117
Iron Deposits .....	117
Gold and the Other Precious Metals .....	122
Tin-Tantalum-Niobium Pegmatites .....	124
Chromite, Nickel, Talc and Asbestos .....	127
Ni-Sulphide and Base-Metal Deposits .....	128
Manganese .....	128
Uranium .....	129
Uranium Mineralization in Migmatite-Gneiss Complex .....	129
Uranium Mineralization in the Older Granites .....	130
Uranium Mineralization in the Younger Granites .....	130
Industrial Mineral Deposits .....	131
Gemstones .....	135
Solid Minerals in the Sedimentary Basins .....	135
Barytes .....	135
Lead-Zinc .....	138

Coal . . . . .	140
The Coniacian Coals . . . . .	140
The Campano-Maastrichtian Coals . . . . .	143
Clays . . . . .	144
Limestone, Phosphates and Gypsum . . . . .	145
Brine-Fields / Salt Deposits . . . . .	148
Uranium in the Sedimentary Basins . . . . .	152
Tar Sands / Bitumen . . . . .	154
<b>11 Petroleum Resources . . . . .</b>	<b>155</b>
Introduction . . . . .	155
Hydrocarbon Habitat of the Niger Delta . . . . .	156
Potentials in the Inland Basins . . . . .	158
Lower Benue Trough / Anambra Basin . . . . .	159
Middle Benue Trough . . . . .	162
Upper Benue Trough . . . . .	164
Chad Basin . . . . .	171
Mid-Niger / Bida Basin . . . . .	174
Coal Deposits in the Benue Trough as Potential Hydrocarbon Source	
Rocks . . . . .	177
Some Remarks on Potential Petroleum Systems in the Inland Basins . . . . .	178
<b>12 Policy Issues and Development Options . . . . .</b>	<b>183</b>
Solid Minerals . . . . .	183
Policy Evolution and Governance of the Sector . . . . .	183
Current / Ongoing Reforms in the Solid Minerals Sector	
(As at 2008) . . . . .	185
Suggested Policy Modifications . . . . .	187
Specific Development Options Based on the Occurrence of Some	
Mineral Deposits in Nigeria . . . . .	189
Petroleum . . . . .	190
Natural Gas . . . . .	193
Petroleum Legislation and Policy Evolution . . . . .	194
Current Policy Thrusts and Reforms in the Oil and Gas Sector . . . . .	195
<b>About the Author . . . . .</b>	<b>203</b>
<b>Bibliography . . . . .</b>	<b>205</b>
<b>Index . . . . .</b>	<b>217</b>
