

Table of Content

1 The Importance of European Registers in Respect to Infections in Arthroplasty	1
<i>Ákos Zahár</i>	
2 Increasing Incidence of Infected THA in Norway Despite Improved Antibiotic Prophylaxis	3
<i>Lars B. Engesaeter</i>	
Introduction	3
Methods	3
Results	4
Discussion	5
Conclusions	5
References	6
3 Update from the Swedish Arthroplasty Registers with Special Reference to Infections	7
<i>Anna Stefánsdóttir, Johan Kärrholm, Otto Robertsson</i>	
Introduction	7
Material	7
Results	9
Discussion	11
Conclusion	11
References	11
4 Status and Prospect of an European Arthroplasty Register (EAR)	13
<i>S. Gaiser</i>	
Introduction	13
Possible Prospects for EAR and International Approaches to Arthroplasty Registers	13
Conclusion	15
References	15
5 The Infected Implant – Microbiology and Clinical Strategies	17
<i>Ian Stockley</i>	
Pathophysiology of Joint Infections	17
Management of Prosthetic Joint Infection	17
6 Infection of Joint Prosthesis and Local Drug Delivery	19
<i>A. Górecki, I. Babiak</i>	
Introduction	19
Prevalence, Nature and Consequences of Periprosthetic Infection	19
Diagnosis and Therapy of Periprosthetic Infection	20
Local Antibiotic Delivery Systems	21
Prophylactic Measures Against Colonization and Development of Biofilm	24
References	25
7 Clinical Strategy for the Treatment of Deep Infection of Hip Arthroplasty	27
<i>D. Jahoda</i>	
Single Antibiotic Therapy (Chronic Suppressive Therapy)	31
Debridement and Rinse Lavage	31
One-Stage Exchange	33
Two-Stage Exchange	34
Resection Arthroplasty	38
Conclusions	39
References	40
8 Infection after Total Knee Arthroplasty: Diagnosis, Management Strategies and Outcomes	43
<i>P.C.M. Verdonk, P. Vansintjan, R. Verdonk</i>	
Introduction	43
Materials and Methods	44
Results/Clinical Studies	44
Discussion	55
Conclusion	57
References	57
9 Spacer Management in Periprosthetic Infections	61
<i>C. Eberhardt</i>	
Introduction	61
Non-Articulating Spacers	62
Articulating Spacers	64
Concerns	66
Advantages of Mobile Spacers	68

Conclusion	69	Conclusion	102
References	70	References	103
10 Observational Study of Bone Cement with Two Antibiotics in Revision Arthroplasty of Knee and Hip	73	16 Pro Uncemented Revision	105
<i>J. Sauer</i>		<i>M. Krbec</i>	
Introduction	73	Introduction	105
Methods	74	Material and Methods	105
Results	75	Results	106
Discussion	78	Discussion	108
Literature	81	Conclusion	110
11 Treatment of an Infected Joint Prosthesis: Difficult Challenge for an Orthopedist Surgeon	83	References	111
<i>T. Bauer, A. Lortat-Jacob</i>		17 The Infected Implant: Revision One Stage Versus Two Stage – Introduction To Crossfire Session	113
12 Low-Grade Infection and Multiresistant Gram-Positive Cocci	85	<i>E. Meani, P. Trezza</i>	
<i>R. Schaumann, A.C. Rodloff</i>		Septic Hip Prosthesis – One-Stage Revision ..	114
Introduction	85	Septic Hip Prosthesis – Two-Stage Revision:	
Diagnosis of Low-Grade Infections	85	Reasons of a Choice	116
Isolated Microorganisms	86	Conclusions	116
Emergence of Resistance	86	References	117
Biofilm	87	18 One Stage Revision – Favourite Option? ..	119
Treatment of Low-Grade Infections	87	<i>G. von Foerster, L. Frommelt</i>	
References	88	Introduction	119
13 Antibiotic Strategies in Septic Arthroplasties	91	Method of One-Stage Revision	119
<i>J. Cordero-Ampuero</i>		Technique of One-Stage Revision	
Introduction	91	Including Pre-Operative Precautions and	
Biomaterials Reduce Immune System		Postoperative Nursery	121
Efficiency	91	Antimicrobial Agents in One-Stage	
Biofilm	92	Revision	124
Intracellular Bacteria	93	Advantages of One-Stage Revision	124
Future	95	Limits of One-Stage Revision	124
References	95	Discussion	125
14 Introduction: Revision Cemented Versus Uncemented	97	Conclusion	125
15 Cemented revision THA	99	References	126
<i>L. Luňáček</i>		19 Advantages of Two-Stage Revision Arthroplasty	127
Introduction	99	<i>F. Randelli, A. Aliprandi, L. Banci,</i>	
Material and Methods	99	<i>L. Sconfienza, F. Sardanelli</i>	
Discussion	100	Background	127
		Total Hip Replacement Deep Infection	
		Management	129
		Conclusion	132
		References	132
		Subject Index	135

The Infected Implant

Kienapfel, H.; Kühn, K.-D. (Eds.)

2009, X, 139 p., Softcover

ISBN: 978-3-540-92835-5
