

Contents

An Overview of the Molecular Mechanism of Autophagy	1
Zhifen Yang and Daniel J. Klionsky	
Macroautophagy Signaling and Regulation	33
Audrey Esclatine, Magali Chaumorcet, and Patrice Codogno	
Physiological Functions of Autophagy	71
Noboru Mizushima	
Autophagy and Lymphocyte Homeostasis	85
Heather H. Pua and You-Wen He	
Autophagy and Innate Recognition Systems	107
Michal Caspi Tal and Akiko Iwasaki	
Autophagy in MHC Class II Presentation of Endogenous Antigens.....	123
Monique Gannagé and Christian Münz	
Role of Autophagy and Autophagy Genes in Inflammatory Bowel Disease.....	141
Ken Cadwell, Thaddeus S. Stappenbeck, and Herbert W. Virgin	
Autophagy in Immunity Against <i>Mycobacterium tuberculosis</i>: a Model System to Dissect Immunological Roles of Autophagy	169
Vojo Deretic, Monica Delgado, Isabelle Vergne, Sharon Master, Sergio De Haro, Marisa Ponpuak, and Sudha Singh	
Autophagy in Immunity Against Intracellular Bacteria	189
Ju Huang and John H. Brumell	
Group A <i>Streptococcus</i>: A Loser in the Battle with Autophagy	217
Tamotsu Yoshimori and Atsuo Amano	

Autophagy Subversion by Bacteria	227
Emanuel Campoy and María I. Colombo	
Autophagy in Immunity Against <i>Toxoplasma gondii</i>	251
Carlos S. Subauste	
Autophagy in Mammalian Antiviral Immunity	267
Anthony Orvedahl and Beth Levine	
Something Old, Something New: Plant Innate Immunity and Autophagy	287
Montrell Seay, Andrew P. Hayward, Jeffrey Tsao, and S.P. Dinesh-Kumar	
Autophagy in HIV-Induced T Cell Death	307
Lucile Espert and Martine Biard-Piechaczyk	
Subversion of the Cellular Autophagy Pathway by Viruses	323
Karla Kirkegaard	
Index.....	335

Autophagy in Infection and Immunity

Levine, B.; Yoshimori, T.; Deretic, V. (Eds.)

2009, XIV, 339 p. 50 illus., 35 illus. in color., Hardcover

ISBN: 978-3-642-00301-1
