

Contents

Myelination and Regional Domain Differentiation of the Axon	1
Courtney Thaxton and Manzoor A. Bhat	
Organizational Dynamics, Functions, and Pathobiological Dysfunctions of Neurofilaments	29
Thomas B. Shea, Walter K.-H. Chan, Jacob Kushkuley, and Sangmook Lee	
Critical Roles for Microtubules in Axonal Development and Disease	47
Aditi Falnikar and Peter W. Baas	
Actin in Axons: Stable Scaffolds and Dynamic Filaments	65
Paul C. Letourneau	
Myosin Motor Proteins in the Cell Biology of Axons and Other Neuronal Compartments	91
Paul C. Bridgman	
Mitochondrial Transport Dynamics in Axons and Dendrites	107
Konrad E. Zinsmaier, Milos Babic, and Gary J. Russo	
NGF Uptake and Retrograde Signaling Mechanisms in Sympathetic Neurons in Compartmented Cultures	141
Robert B. Campenot	
The Paradoxical Cell Biology of α-Synuclein	159
Subhojit Roy	
Organized Ribosome-Containing Structural Domains in Axons	173
Edward Koenig	

Regulation of mRNA Transport and Translation in Axons.....	193
Deepika Vuppalanchi, Dianna E. Willis, and Jeffery L. Twiss	
Axonal Protein Synthesis and the Regulation of Local Mitochondrial Function	225
Barry B. Kaplan, Anthony E. Gioio, Mi Hillefors, and Armaz Aschrafi	
Protein Synthesis in Nerve Terminals and the Glia-Neuron Unit.....	243
Marianna Crispino, Carolina Cefaliello, Barry Kaplan, and Antonio Giuditta	
Local Translation and mRNA Trafficking in Axon Pathfinding.....	269
Byung C. Yoon, Krishna H. Zivraj, and Christine E. Holt	
Spinal Muscular Atrophy and a Model for Survival of Motor Neuron Protein Function in Axonal Ribonucleoprotein Complexes	289
Wilfried Rossoll and Gary J. Bassell	
Retrograde Injury Signaling in Lesioned Axons	327
Keren Ben-Yaakov and Mike Fainzilber	
Axon Regeneration in the Peripheral and Central Nervous Systems.....	339
Eric A. Huebner and Stephen M. Strittmatter	
Index.....	353

Cell Biology of the Axon

Koenig, E. (Ed.)

2009, XVI, 360 p. 50 illus., 22 illus. in color., Hardcover

ISBN: 978-3-642-03018-5
