

Table of Contents

1	Introduction	1
1.1	Motivation.....	1
1.2	Research Agenda	4
1.2.1	Research Objectives.....	4
1.2.2	Research Approach.....	7
1.3	Conceptual Foundations.....	9
1.3.1	Definition: Collaboration and Alliances	10
1.3.2	Setting: Biotechnology Industry	12
1.3.2.1	Biotechnology Firms and the (Bio)Pharmaceutical Industry	12
1.3.2.2	The European Biotechnology Industry	18
1.3.2.3	Characteristics of Biotechnology Alliances.....	22
1.3.3	Measure: Collaborative Value	24
2	Foundations of Collaborative Value Creation	27
2.1	Introduction.....	27
2.2	Strategic Mechanisms of Collaborative Value Creation	29
2.2.1	Market-Based View of Strategic Alliances	29
2.2.1.1	Industrial Economics and the Strategy Logic of Collaboration	29
2.2.1.2	Industrial Economics: Market Power Versus R&D Efficiency	31
2.2.1.3	Corporate Strategy: Industry Attractiveness and Competitive Advantage.....	35
2.2.2	Resource-Based and Learning Theories of Collaboration	41
2.2.2.1	The Resource-Based View of Corporate Cooperation.....	41
2.2.2.2	Technological and Commercial Resources.....	43
2.2.2.3	Social Capital and Alliance Networks	48
2.2.2.4	Organizational Learning in Cooperative Settings	51
2.3	Organizational Economics of Collaboration.....	58
2.3.1	Transaction Cost Economics and Alliance Structure	58

2.3.1.1	Transaction Costs and Hybrid Organizations	58
2.3.1.2	Asset Specificity, (Environmental) Uncertainty, and Transaction Frequency	61
2.3.1.3	Other Determinants of Transaction Structure	68
2.3.2	Agency and Game Theories of Cooperation.....	71
2.3.2.1	Fundamentals of Agency Relations in Corporate Collaboration	71
2.3.2.2	Alliance-Related Information Asymmetries	73
2.3.2.3	Contractual Safeguards and Trust in Strategic Alliances	76
2.4	A Dynamic Theory of Cooperative Value Creation	83
2.4.1	Background and Value-Creating Mechanism.....	83
2.4.2	Dynamic Collaborative Benefits.....	86
2.4.2.1	Implications of Environmental Dynamics	86
2.4.2.2	Effects of Firm Development on Alliance Activity	91
2.4.2.3	Individual Alliance Evolution.....	95
2.5	Summary and Discussion of Propositions	99
3	The Value Impact of Corporate Collaboration.....	105
3.1	Aggregate Effects on Firm Value	106
3.1.1	Strategic Alliances	106
3.1.2	Joint Ventures	109
3.1.3	Alliance/Joint Venture Termination	111
3.2	Drivers of Variation in Collaborative Value Creation	113
3.2.1	Environmental Factors.....	114
3.2.1.1	Industry Affiliation	114
3.2.1.2	Business Relatedness	117
3.2.1.3	International and Intercultural Aspects.....	119
3.2.1.4	General Economic Conditions	121
3.2.2	Firm-Level Factors	122
3.2.2.1	Focal Firm Size.....	122
3.2.2.2	Firm Resources	124
3.2.2.3	Alliance Experience	126
3.2.2.4	Firm Performance and Governance	128
3.2.3	Transaction-Specific Factors	130
3.2.3.1	Strategic Transaction Characteristics.....	130
3.2.3.2	Structural Transaction Characteristics	133
3.2.3.3	Financial Transaction Characteristics.....	135
3.3	Summary and Discussion.....	136
3.3.1	Achievements and Limitations of Alliance Event-Study Research.....	136

3.3.2	Hypotheses for Original Empirical Research	140
3.3.2.1	Hypotheses Concerning Aggregate Value Impact	140
3.3.2.2	Hypotheses on Biotechnology-Specific Alliance Characteristics	142
3.3.2.3	Hypotheses Regarding Compensation Structure and Contractual Provisions.....	144
3.3.2.4	Hypotheses Regarding Environmental Dynamics and Firm Development	147
4	Data and Empirical Methodology	151
4.1	Sample Selection.....	152
4.1.1	Identification of Focal Firms	152
4.1.1.1	Available Classifications and Prior Research	152
4.1.1.2	Consensus Analysis of Industry Definitions.....	153
4.1.1.3	Consensus-Based Sample-Selection Procedure	157
4.1.2	Event Announcements	159
4.1.2.1	Selection of Announcement Source.....	160
4.1.2.2	Sample Selection.....	161
4.1.2.3	Controls for Consistency	163
4.2	Data Coding	168
4.2.1	Information Contained in Event Announcements	168
4.2.1.1	Classification of Alliance-Related Events	169
4.2.1.2	Coding of Collaborative Context Variables.....	170
4.2.1.3	Coding of Structural Alliance Characteristics	176
4.2.2	Secondary Data.....	180
4.2.2.1	Environmental Data	181
4.2.2.2	Company-Level Data.....	185
4.3	Event Study Procedure.....	191
4.3.1	Econometric Event Study Methodology.....	192
4.3.1.1	Alternative Return-Generating Processes	192
4.3.1.2	Specification of Abnormal Returns	196
4.3.1.3	Testing for the Significance of Abnormal Returns.....	197
4.3.2	Benchmarks, Estimation and Event Periods	201
4.3.2.1	Choice of Market Indices.....	202
4.3.2.2	Choice of Event and Estimation Periods	203
4.3.3	Assumptions Underlying the Event Study Methodology.....	204
4.3.3.1	General Event-Study Assumptions.....	204
4.3.3.2	Distributional/Statistical Assumptions.....	206

4.3.4	Summary and Discussion	208
4.4	Time-Series Analysis	208
4.4.1	Time-Series Data and Tests	209
4.4.1.1	Retrieval of Stock and Index Return Data	209
4.4.1.2	Normality Tests	210
4.4.1.3	Serial Correlation Tests	211
4.4.1.4	Stationarity Tests	213
4.4.1.5	Test for ARCH Properties.....	215
4.4.2	Comparison of Alternative Return Generating Processes.....	216
4.4.2.1	Available Data and Prior Research.....	216
4.4.2.2	Time-Series Regression Models	217
4.5	Cross-Sectional and Panel-Data Approaches.....	221
4.5.1	Regression Analysis	222
4.5.1.1	Standard OLS Regression Analysis	222
4.5.1.2	Regression Diagnostics.....	223
4.5.2	Firm-Specific Effects and Panel-Data Methods	225
4.5.2.1	Alternative Panel-Data Models.....	226
4.5.2.2	Testing Procedures for Panel Effects.....	228
4.5.3	(Self-)Selection Effects in the Formation of Strategic Alliances	229
4.6	Summary	233
5	Results of Empirical Investigation	235
5.1	Announcement Effects of Alliance-Related Announcements.....	235
5.1.1	Daily and Cumulative Abnormal Returns on Entire Sample	235
5.1.2	Abnormal Returns by Event Category.....	243
5.1.3	Summary of Event-Study Findings	249
5.2	Univariate Analysis of Value Impact.....	251
5.2.1	Correlations of Focal Firm Variables	254
5.2.2	Correlations of Partner-Firm Variables	254
5.2.3	Correlations of Environmental Variables	255
5.2.4	Summary of Univariate Analyses.....	256
5.3	Multivariate Analysis of Collaborative Value Creation.....	256
5.3.1	Models Testing for Control Effects	257
5.3.1.1	Environmental and Firm-Level Base Models	257
5.3.1.2	Transaction-Level Base Models	261
5.3.2	Models Testing for Hypothesized Effects	265
5.3.2.1	Biotechnology-Specific Transaction Characteristics.....	265

5.3.2.2 Compensation Structure and Contractual Provisions	270
5.3.2.3 Environmental and Firm-Level Dynamics.....	275
5.3.2.4 Discussion of Cross-Sectional Findings	285
5.3.3 Assumption Testing and Model Robustness.....	287
5.3.3.1 Results of Regression Diagnostics.....	288
5.3.3.2 Estimation with Heteroskedasticity-Consistent Standard Errors	293
5.3.3.3 Estimation after Omitting Outliers.....	296
5.4 Firm-Specific Effects and Self-Selection.....	298
5.4.1 Panel Model Estimation Results.....	299
5.4.1.1 Biotechnology-Specific Alliance Characteristics.....	299
5.4.1.2 Compensation Structure and Contractual Provisions	301
5.4.1.3 Environmental Dynamics and Firm Development.....	302
5.4.2 Impact of Sample (Self-)Selection.....	307
5.4.2.1 Estimation of Sample Selection Function.....	307
5.4.2.2 Estimation Results Accounting for Sample Selection	310
6 Discussion of Results and Conclusion	315
6.1 Summary and Retrospective	315
6.2 Limitations and Directions for Future Research	322
6.3 Real-World Implications.....	326
Appendices.....	329
Appendix to Chapter 1: Introduction and Background.....	330
Appendix to Chapter 2: Foundations of Collaborative Value	337
Appendix to Chapter 3: Value Impact of Collaboration.....	360
Appendix to Chapter 4: Data and Empirical Methodology	397
Appendix to Chapter 5: Results of Empirical Investigation	454
Appendix to Chapter 6: Discussion of Results and Conclusion	507
References.....	509

Collaborative Value Creation

An Empirical Analysis of the European Biotechnology
Industry

Farag, H.

2009, XXV, 541 p., Hardcover

ISBN: 978-3-7908-2144-4
