Basic Principles of Esophageal Surgery

1	Surgical Anatomy of the Esophagus	3
	D.C. BROERING, J. WALTER, Z. HALATA	
	■ Topography of the esophagus	3
	■ Development of the esophagus	4
	■ Structure of the esophagus	9
2	The Esophagus	
	Diagnostic Methods of Examination	11
	G. KRUPSKI, V. NICOLAS	
	■ Conventional methods of examination	11
	■ Diverticula	11
	■ Achalasia	12
	■ Gastroesophageal reflux and hernias	13
	■ Varices	13
	■ Foreign bodies	14
	■ Esophageal tumors	14
	■ CT and MRI	16
3	Endoscopic Examination of the Esophagus	19
	K.F. BINMOELLER, B. BRAND, N. SOEHENDRA	
	■ Introduction	19
	■ Equipment and normal anatomy	19
	■ Malignant tumors	19
	■ Benign tumors	20
	■ Esophagitis	21
	■ Complications of esophagitis	22
	■ Varices and other sources of upper gastrointestinal bleeding	22
	■ Diverticula	23
	■ Achalasia and other motor disorders	23
	■ References	24

4	Role of Endoscopic Ultrasound for Diagnosis and Staging of Esophageal Cancer	25
	A. FRITSCHER-RAVENS, M.X. PELLING	
■	Introduction	25
■	Principles of EUS tumor staging	25
■	Examination technique and instrumentation	27
■	EUS compared to other imaging techniques	29
■	EUS and tumor stenosis	30
■	EUS and re-staging of esophageal cancer	31
■	Endoscopic ultrasound in early tumor stages	31
■	Endoscopic ultrasound guided fine needle aspiration	32
■	Conclusion	34
■	References	34
5	Preoperative Evaluation of the Operative Risk Profile	39
	K.A. GAWAD, C. BUSCH, D.C. BROERING, E.F. YEKEBAS	
■	Introduction	39
■	Definition of “risk”	39
■	Methods of risk ascertainment	39
■	Measures for preoperative risk minimization	40
■	References	41
6	Perioperative and Postoperative Management	43
	J. SCHOLZ, P.H. TONNER, G. VON KNOBELSDORFF	
■	Preoperative evaluation	43
■	Postoperative phase	48
■	References	49
7	Pathophysiology of Gastroesophageal Reflux Disease and Indication for Surgical Therapy	51
	K.-H. FUCHS	
■	Introduction	51
■	Definition	51
■	The antireflux barrier	52
■	Esophageal peristalsis	53
■	Mucosal resistance	54
■	Duodeno-gastroesophageal reflux	54
■	Gastroduodenal disorders	54
■	Indication for surgery	54
■	Conclusions	55
■	References	55

8	Gastroesophageal Reflux and its Surgical Management	59
	G.G. JAMIESON, D.I. WATSON	
■	Introduction	59
■	Which patients should be considered for antireflux surgery?	59
■	What are the advantages and disadvantages of antireflux surgery?	60
■	Operations available	61
■	Traditional open fundoplication	61
■	Laparoscopic fundoplication	62
■	Laparoscopic versus open surgery	64
■	Randomized trials of laparoscopic antireflux surgery	65
■	Controversies and questions in regard to laparoscopic antireflux surgery	65
■	Why do antireflux operations sometimes fail	66
■	When do antireflux operations fail?	67
■	Re-operative surgery for failed antireflux procedures	67
■	References	68
9	Pathologic Classification of the Esophageal Carcinoma	71
	P. HERMANEK	
■	Tumor classification	71
■	Tumor site	71
■	Typing	72
■	Grading	72
■	TNM/pTNM classification	73
■	Requirement for pTNM classification of esophageal carcinoma (UICC 2002, 2003)	73
■	Additional descriptors and optional categories of the TNM system	76
■	Residual tumor (R) classification	77
■	Grading of histological regression after neoadjuvant treatment	78
■	Preconditions for adequate histopathological tumor classification	79
■	References	79
10	Lymphatic Dissemination and Principles of Lymph Node Dissection . . .	81
	J.R. IZBICKI, A. REHDE, A. KUTUP, C. BUSCH	
■	Anatomy of the lymphatic system	82
■	Operative procedure	85
■	References	86

8	Gastroesophageal Reflux and its Surgical Management	59
	G.G. JAMIESON, D.I. WATSON	
■	Introduction	59
■	Which patients should be considered for antireflux surgery?	59
■	What are the advantages and disadvantages of antireflux surgery?	60
■	Operations available	61
■	Traditional open fundoplication	61
■	Laparoscopic fundoplication	62
■	Laparoscopic versus open surgery	64
■	Randomized trials of laparoscopic antireflux surgery	65
■	Controversies and questions in regard to laparoscopic antireflux surgery	65
■	Why do antireflux operations sometimes fail	66
■	When do antireflux operations fail?	67
■	Re-operative surgery for failed antireflux procedures	67
■	References	68
9	Pathologic Classification of the Esophageal Carcinoma	71
	P. HERMANEK	
■	Tumor classification	71
■	Tumor site	71
■	Typing	72
■	Grading	72
■	TNM/pTNM classification	73
■	Requirement for pTNM classification of esophageal carcinoma (UICC 2002, 2003)	73
■	Additional descriptors and optional categories of the TNM system	76
■	Residual tumor (R) classification	77
■	Grading of histological regression after neoadjuvant treatment	78
■	Preconditions for adequate histopathological tumor classification	79
■	References	79
10	Lymphatic Dissemination and Principles of Lymph Node Dissection . . .	81
	J.R. IZBICKI, A. REHDE, A. KUTUP, C. BUSCH	
■	Anatomy of the lymphatic system	82
■	Operative procedure	85
■	References	86

11	Rationale for Type of Resection in Cancer of the Esophagus and Gastroesophageal Junction	89
	W.T. KNOEFEL, I. ALLDINGER, J.R. IZBICKI	
■	Tumor typing	89
■	Anatomic location	90
■	Cervical esophagus	90
■	Upper thoracic esophagus	90
■	Lower thoracic esophagus	91
■	Tumors of the gastroesophageal junction	91
■	Limited resections	93
■	Palliative esophageal resection	93
■	Recurrences	93
■	Summary	93
■	References	93
12	Results of Extended en bloc Esophagectomy in Treatment of Patients with Esophageal Cancer	97
	D.I. WATSON, G.G. JAMIESON	
■	Rationale for extended en bloc esophagectomy	97
■	Proposed advantages and disadvantages for extended en bloc esophagectomy	98
■	Results of standard esophagectomy	98
■	Results of 2 field (en bloc) esophagectomy	99
■	Results of extended 3 field esophagectomy	100
■	Case selection and peri-operative outcomes for 3 field esophagectomy	100
■	Complications following 3 field esophagectomy	101
■	Lymph node metastases to the cervical nodes found by 3 field lymphadenectomy	101
■	Survival following esophagectomy	101
■	Randomized trials of extended 3 field esophagectomy versus 2 field en bloc esophagectomy	102
■	Use of 3 field en bloc esophagectomy for adenocarcinoma of the esophagus	104
■	Conclusions	104
■	References	104

Surgical Techniques

13	Blunt Transhiatal Subtotal Esophagectomy with Gastroplasty and Cervical Anastomosis	109
	E. F. YEKEBAS, A. F. CHERNOUSOV, D. C. BROERING, P. M. BOGOPOLSKI, C. F. EISENBERGER, A. KUTUP, J. R. IZBICKI	
■	Blunt transhiatal esophagectomy and substitution by gastric tube	109
■	Complications of transhiatal blunt esophageal dissection and gastric pull-up	155
14	Partial Abdominothoracic Resection of the Esophagus with Gastroplasty and Intrathoracic Anastomosis	157
	A. F. CHERNOUSOV, A. KUTUP, P. M. BOGOPOLSKI, D. C. BROERING	
■	Indications	157
15	Abdominothoracic Subtotal en bloc Esophagectomy and Reconstruction with Gastric Tube Transposition	171
	J. R. IZBICKI, D. C. BROERING, P. KAUDEL, A. KUTUP, E. F. YEKEBAS	
16	Fundus Rotation Gastroplasty	181
	M. K. SCHILLING, M. W. BUECHLER	
17	Proximal Gastrectomy with Distal Esophagectomy (Proximal Resection)	185
	A. F. CHERNOUSOV, O. ZEHLER, P. M. BOGOPOLSKI, D. C. BROERING, H. W. SCHREIBER†	
18	Transhiatal Esophagogastrectomy	199
	J. R. IZBICKI, D. C. BROERING, A. KUTUP, E. F. YEKEBAS	
19	Colon Interposition after Total and Subtotal Esophagectomy	205
	J. R. IZBICKI, K. STEFFANI, A. F. CHERNOUSOV, P. M. BOGOPOLSKI, D. C. BROERING, H. W. SCHREIBER †	
■	Complications after subtotal or total esophagectomy with colonic interposition	222
20	Intrathoracic Esophagoplasty by Colon Interposition	223
	A. F. CHERNOUSOV, P. M. BOGOPOLSKI, H. W. SCHREIBER†, D. C. BROERING	
21	Reconstruction of Gastrointestinal Continuity by Jejunal Interposition following Total and Subtotal Esophagectomy	233
	A. F. CHERNOUSOV, P. SCHURR, P. M. BOGOPOLSKI, D. C. BROERING, H. W. SCHREIBER†	

22	Limited en bloc Resection of the Gastroesophageal Junction with Isoperistaltic Jejunal Interposition	247
	J.R. IZBICKI, W.T. KNOEFEL, D.C. BROERING	
23	Conventional Cardiomyotomy in Achalasia	253
	K.A. GAWAD, D.C. BROERING, C. BUSCH	
24	Surgical Technique in Gastroesophageal Reflux Disease – Conventional Approach	259
■	Introduction and Techniques in gastroesophageal reflux	259
	K.A. GAWAD, D.C. BROERING, C. BLOECHLE, C. BUSCH	
■	Techniques in peptic stricture and hiatal hernia	264
	A.F. CHERNOUSOV, P.M. BOGOPOLSKI, K.A. GAWAD	
25	Conventional Resection of Esophageal Diverticula	275
	A.F. CHERNOUSOV, C.F. EISENBERGER, P.M. BOGOPOLSKI, J.R. IZBICKI, H.W. SCHREIBER †	
■	Epiphrenic diverticulum	278
■	Preparation of a diaphragmatic flap for enforcement of the esophageal wall after resection of an epiphrenic diverticulum . . .	280
26	Local Excision of Benign Esophageal Tumors	281
	A.F. CHERNOUSOV, A. KUTUP, P.M. BOGOPOLSKI, H.W. SCHREIBER †	
27	Surgical Treatment of Esophageal Fistula and Perforation	283
	A.F. CHERNOUSOV, N. ROCH, P.M. BOGOPOLSKI, D.C. BROERING, H.W. SCHREIBER †	
■	Fistulas of the esophagus	284
■	Cervical fistulas of the esophagus	284
■	Intrathoracic esophago-tracheal fistula	286
■	Intrathoracic fistulas	287
■	Intraabdominal fistulas of the esophagus	288
■	Esophagopleural fistulas	289
28	Techniques of Local Esophagoplasty	293
	A.F. CHERNOUSOV, A. KUTUP, P.M. BOGOPOLSKI, H.W. SCHREIBER †	

29	Minimal Invasive Surgery of the Esophagus	297
	H. FEUSSNER, R. BUMM, T. OLAH	
■	Introduction	297
■	Diverticula of the esophagus	297
■	Minimal invasive treatment of esophageal motility disorders	301
■	Antireflux surgery	303
■	Excision of benign tumors	307
■	Minimally invasive procedures in esophageal carcinoma	308
30	Endoscopic Technique in the Treatment of Esophageal Diseases	315
	Y.I. GALLINGER, M. REHNER, F.M. STEICHEN, N. SOEHENDRA	
■	Hemorrhage and esophageal varices	315
■	Foreign bodies and bolus obstruction	324
■	Resection of tumors	327
■	Photodynamic therapy of tumors (PDT)	333
■	Obstructions by malignant tumors	335
■	Esophageal fistula	341
■	Dilatation of benign stenoses	345
■	Stenotic esophageal anastomoses and membranes (webs)	348
■	Achalasia	351
■	Diverticula	355
■	References	357
31	Post-operative Complications of the Esophagus and Esophagus Bridge Graft	361
	D.C. BROERING, J.R. IZBICKI, Y. VASHIST, A.F. CHERNOUSOV, P.M. BOGOPOLSKI, E.F. YEKEBAS	
■	Early post-operative complications	361
■	Late post-operative complications	367
	Subject Index	373

Surgery of the Esophagus

Textbook and Atlas of Surgical Practice

Izbicki, J.R.; Chernousov, A.F.; Broering, D.; Gallinger,

Y.I.; Yekebas, E.F.; Bogopolski, P.M.; Kutup, A.;

Söhendra, N. (Eds.)

2009, XIX, 386 p., Hardcover

ISBN: 978-3-7985-1309-9
