## Part I General

<b>I.1 History and Principles of Hybrid Imaging</b>	3
Introduction	3
Single Photon Emission Computed Tomography	3
Data Acquisition	4
SPECT Image Formation	6
Positron Emission Tomography	13
PET Detectors	14
2D Versus 3D Imaging	16
Data Acquisition and Image Reconstruction	16
Time-of-Flight PET	18
Quantitative Techniques	18
X-Ray Computed Tomography	21
SPECT/CT and PET/CT	24
Clinical SPECT/CT Systems	26
Clinical PET/CT Systems	27
Contrast Agents	27
Beam-Hardening Artifacts	28
Physiological Motion	28
Radiation Dosimetry Considerations	28
Quality Assurance	29
Conclusions	31
References	32
<b>I.2 Normal Distribution, Variants, Pitfalls, and Artifacts</b>	35
PET/CT Imaging with <sup>18</sup> F-Fluorodeoxyglucose	35
Normal <sup>18</sup> F-FDG Distribution and Physiologic Variants	35
Pitfalls and Artifacts on <sup>18</sup> F-FDG Imaging	37
Benign Processes Accumulating <sup>18</sup> F-FDG	38
Treatment-Related Processes Accumulating <sup>18</sup> F-FDG	38
Summary	39
Physiologic Distribution of Other PET Tracers	40
<sup>18</sup> F-Fluoride	40
<sup>18</sup> F-Fluorothymidine	40
<sup>11</sup> C-Choline	41
Fluorocholine <sup>11</sup> C-Acetate	41

<sup>11</sup> C-Methionine . . . . .	42
<sup>18</sup> F-Fluorodopamine . . . . .	42
<sup>18</sup> F-Fluoromisonidazole. . . . .	42
<sup>68</sup> Ga-Somatostatin Receptors . . . . .	43
Physiologic Distribution of SPECT/CT Imaging Tracers. . . . .	43
<sup>131</sup> I- and <sup>123</sup> I-Iodine ( <sup>131</sup> I and <sup>123</sup> I) . . . . .	43
<sup>131</sup> I- and <sup>123</sup> I-MIBG. . . . .	44
<sup>111</sup> In-DTPA-Octreotide . . . . .	44
<sup>99m</sup> Tc-Sestamibi . . . . .	45
<sup>111</sup> In- and <sup>99m</sup> Tc-HMPAO-Leucocytes (WBC) . . . . .	45
<sup>67</sup> Ga-Citrate . . . . .	46
<sup>111</sup> In-Prostascint® . . . . .	46
<b>Case Presentations</b> . . . . .	48
I.2.1 Normal <sup>18</sup> F-FDG Distribution (DICOM Images on DVD) . . . . .	48
I.2.2 Physiologic <sup>18</sup> F-FDG Uptake in aSymmetric Vocal Cord . . . . .	56
I.2.3 Rebound Thymic Hyperplasia . . . . .	58
I.2.4 Recurrent Hodgkin's Disease and Abdominal Wall Muscular Uptake in a Patient with Nausea and Vomiting . . . . .	61
I.2.5 Diffuse Muscular Uptake in a Non-fasting Patient . . . . .	63
I.2.6 Pericarditis and Crossed Ectopic Kidney . . . . .	66
I.2.7 <sup>18</sup> F-FDG Uptake in Menstruating Uterus and Right Ovary at Mid-Menstrual Cycle . . . . .	70
I.2.8 Hodgkin's Disease and Lactating Breast . . . . .	73
I.2.9 Brown Adipose Tissue Above and Below the Diaphragm . . . . .	75
I.2.10 Normal Distribution of <sup>18</sup> F-FLT in a Patient with Menetrier's Disease. . . . .	80
I.2.11 <sup>131</sup> I-iodine: Remnant Left Lobe Thyroid Tissue on Post-Ablation Study . . . . .	82
I.2.12 <sup>131</sup> I-iodine: Physiological Uterine Uptake During Menstruation on Post-Ablation Study . . . . .	84
I.2.13 <sup>123</sup> I MIBG: Right Adrenal Pheochromocytoma and Dilated Right Renal Pelvis. . . . .	87
I.2.14 <sup>99m</sup> Tc-sestamibi: Left Parathyroid Adenoma. Atrophy of Right Submandibular Gland and Slightly Enlarged Right Lobe of the Thyroid . . . . .	91
References . . . . .	94
 <b>Part II Clinical Applications in Oncology</b> . . . . .	97
 <b>II.1 Tumors of the Central Nervous System</b> . . . . .	99
Introduction . . . . .	99
Physiologic Distribution of <sup>18</sup> F-FDG in the CNS . . . . .	100
Initial Evaluation and Staging of Primary Cerebral Tumors . . . . .	101
Evaluation of Treated Primary Cerebral Tumors. . . . .	102
Evaluation of Cerebral Metastases . . . . .	102
Evaluation of Meningiomas . . . . .	103

Summary .....	104
Guidelines and Recommendations for the use of <sup>18</sup> F-FDG PET and PET/CT .....	104
<b>Case Presentations</b> .....	105
II.1.1 Low-grade Glioma (Oligodendroglioma, WHO Grade II) .....	105
II.1.2 Recurrent Glioma with Transformation from Low-Grade to High-Grade .....	108
II.1.3 Primary Lymphoma of CNS .....	110
II.1.4 Toxoplasmosis (DICOM Images on DVD) .....	113
II.1.5 Stage IV Non-small Cell Lung Cancer with Cerebral Metastases and Poor FDG Uptake within the Brain due to Hyperglycemia .....	117
II.1.6 Right Frontal Cerebral Arteriovenous Malformation .....	119
II.1.7 Recurrent Glioblastoma Multiforme with Diminished Uptake in the Right Temporal Region due to Post-therapy Changes and Crossed Cerebellar Diaschisis (DICOM Images on DVD) ....	122
II.1.8 Meningioma. ....	126
II.1.9 Recurrent Low-grade Glioma Evaluated with <sup>11</sup> C-methionine ....	131
References .....	134
<b>II.2 Hybrid Imaging of Head and Neck Malignancies</b> .....	137
Introduction .....	137
Staging of Head and Neck Carcinoma .....	138
Cervical Lymph Node Metastases of Unknown Tumors .....	140
Monitoring Response to Therapy .....	141
Diagnosis and Restaging of Recurrence .....	142
Planning of Radiotherapy .....	142
Summary .....	143
Guidelines and Recommendations for the Use of <sup>18</sup> F-FDG PET and PET/CT .....	143
<b>Case Presentations</b> .....	144
II.2.1 Neck Metastasis of Unknown Origin .....	144
II.2.2 Cancer of the Larynx with Suspected Lung Metastases .....	146
II.2.3 Recurrent Cancer of the Nasopharynx: PET/CT Guided Biopsy and Diagnosis (DICOM Images on DVD) .....	149
II.2.4 Second Primary Cancer of the Esophagus in Patient with Suspected Recurrence of Laryngeal Tumor .....	153
II.2.5 Recurrent Cancer of the Larynx: PET/CT Guided Biopsy and Diagnosis .....	156
II.2.6 Assessment of the Post-Irradiated Edematous Larynx with PET/CT .....	158
II.2.7 Cancer of the Base of the Tongue with Normal Size Cervical Metastasis .....	160
II.2.8 Multiple Regional and Distant Metastases in Patient with Advanced Laryngeal Cancer .....	162
II.2.9 Benign FDG-avid Lesion: Warthin's Tumor of Parotid Gland ....	166
References .....	168

<b>II.3 Lung Cancer</b>	171
Introduction	171
Indeterminate Pulmonary Nodules	171
Non-surgical Evaluation of Pulmonary Nodules	172
<sup>18</sup> F-FDG PET/CT for Evaluation of Pulmonary Nodules	173
Guidelines for Evaluation of Indeterminate Nodules	174
Non-Small-Cell Lung Carcinoma (NSCLC)	175
TNM Staging of NSCLC	175
<sup>18</sup> F-FDG Imaging for Staging of NSCLC at Presentation:	
Comparison to CT	176
Detection of Extra-Thoracic Metastases	177
Impact of <sup>18</sup> F-FDG Imaging on Management of NSCLC at Presentation	178
<sup>18</sup> F-FDG Imaging for Monitoring Therapy of NSCLC	178
Detection of Recurrence and Restaging with <sup>18</sup> F-FDG PET or PET/CT	179
Summary	179
Small-Cell Lung Carcinoma (SCLC)	180
<sup>18</sup> F-FDG PET and PET/CT for Staging, Restaging, and Assessment of Treatment Response of SCLC	180
Summary	181
Malignant Pleural Mesothelioma	181
Introduction	181
<sup>18</sup> F-FDG Imaging of MPM	183
Assessment of Metabolic Response to Treatment of MPM	184
Summary	184
Guidelines and Recommendations for the Use of F-FDG PET and PET/CT	184
<b>Case Presentations</b>	186
II.3.1 Solitary Pulmonary Nodule with Moderate <sup>18</sup> F-FDG Uptake: Solitary Metastasis	186
II.3.2 Solitary Pulmonary Mass with Moderate <sup>18</sup> F-FDG Uptake: Granuloma	188
II.3.3 Solitary Pulmonary Nodule with Intense <sup>18</sup> F-FDG Uptake: Primary Lung Cancer	190
II.3.4 Multi-focal Primary Lung Cancer: Bronchoalveolar Cell Carcinoma	192
II.3.5 Restaging of Recurrent NSCLC: Recurrent TNM Stage IIA	194
II.3.6 Pre-operative Staging of NSCLC with <sup>18</sup> F-FDG PET/CT: Stage IIIA	197
II.3.7 Pre-operative Staging of NSCLC with <sup>18</sup> F-FDG PET/CT: Stage IIIB and Adenomatous Polyp of the Transverse Colon	199
II.3.8 Pre-operative Staging of NSCLC with <sup>18</sup> F-FDG PET/CT: Stage IV and Radiation Pneumonitis (DICOM Images on DVD)	201
II.3.9 Pre-operative Staging of SCLC with <sup>18</sup> F-FDG PET/CT: Limited-Stage Disease	205
II.3.10 Pre-treatment Staging of Malignant Pleural Mesothelioma with <sup>18</sup> F-FDG PET/CT (DICOM Images on DVD)	207
II.3.11 Use of <sup>18</sup> F-FDG PET/CT for Radiation Treatment Planning of NSCLC	211
References	213

<b>II.4 Breast Cancer</b>	217
Introduction	217
<sup>18</sup> F-FDG PET and PET/CT for the Detection and Staging of Breast Cancer	218
<sup>18</sup> F-FDG PET and PET/CT for the Detection of Metastatic Breast Cancer	219
<sup>18</sup> F-FDG PET and PET/CT for the Detection and Staging of Recurrent Breast Cancer	219
<sup>18</sup> F-FDG Imaging to Monitor Therapy of Breast Cancer	220
<sup>18</sup> F-FDG PET/CT for Radiation Therapy Planning in Breast Cancer	221
Summary	221
Guidelines and Recommendations for the Use of <sup>18</sup> F-FDG PET and PET/CT	222
<b>Case Presentations</b>	223
II.4.1 Unsuspected Breast Primary Cancer	223
II.4.2 Metastatic Breast Cancer to Omentum, Peritoneum, and Ovaries with Partial Response to Treatment	226
II.4.3 Metastatic Breast Cancer to Liver, T8 Vertebral Body, Right Femur, and Acetabulum	232
II.4.4 Recurrent Left Breast Cancer with Regional Metastases to Left Chest Wall and Synchronous Right Thyroid Papillary Cancer (DICOM Images on DVD)	236
II.4.5 Solitary Hepatic Metastasis, Right Chest Wall Breast Cancer Recurrence, and Right Apical Lung Metastasis Causing Brachial Plexopathy	242
II.4.6 Metastatic Breast Cancer to Bones, Left Lung, and Pleura: Good Response to Therapy in Left Lung and Pleura; Partial Response to Therapy in Bones (DICOM Images on DVD)	246
References	259
<b>II.5 Colorectal Cancer</b>	261
Introduction	261
<sup>18</sup> F-FDG PET and PET/CT for Screening and Diagnosis of Colorectal Carcinoma	261
<sup>18</sup> F-FDG PET and PET/CT in the Initial Staging of Colorectal Carcinoma	262
<sup>18</sup> F-FDG PET and PET/CT for Assessment of Recurrent Colorectal Carcinoma	262
Detection and Restaging of Recurrence	262
Impact on Management and Cost Analysis in Patients with Recurrent Disease	263
<sup>18</sup> F-FDG Imaging for Monitoring Therapy Response of Colorectal Carcinoma	265
Systemic Chemotherapy	265
Radiation Therapy	265
Regional Therapy to the Liver	266
Summary	266
Guidelines and Recommendations for the Use of <sup>18</sup> F-FDG PET and PET/CT	266

<b>Case Presentations</b> . . . . .	268
II.5.1 Incidental Primary Transverse Colon Carcinoma in a Patient with Lung Cancer and Malignant Fibrohistiocytoma (DICOM Images on DVD) . . . . .	268
II.5.2 Primary Metastatic Rectal Carcinoma . . . . .	274
II.5.3 Colon Cancer with Hepatic Metastases . . . . .	279
II.5.4 Local Recurrence and Metastatic Retroperitoneal Lymph Nodes (DICOM Images on DVD) . . . . .	281
II.5.5 Colon Cancer with Pulmonary Metastases . . . . .	286
II.5.6 Mucinous Adenocarcinoma of the Colon . . . . .	288

Summary . . . . .	482
<b>Case Presentations</b> . . . . .	483
II.11.1 Well-differentiated Small Intestine Neuroendocrine Tumor with Mesenteric Metastasis (DICOM Images on DVD) . . . . .	483
II.11.2 VIPoma in Body of the Pancreas . . . . .	488
II.11.3 Pancreatic Neuroendocrine Carcinoma with Disseminated Hepatic and Skeletal Metastases Expressing High Density of Somatostatin Receptors . . . . .	491
II.11.4 Suspected Recurrence of Pheochromocytoma in Left Adrenal Bed. . . . .	494
II.11.5 <sup>123</sup> I-MIBG Avid Pheochromocytoma Metastatic to Lungs and Liver . . . . .	498
II.11.6 Left Upper Parathyroid Adenoma in Posterior Location between the Trachea and Esophagus. . . . .	503
II.11.7 Ectopic Parathyroid Adenoma in Mid-anterior Lower Neck . . . .	506
II.11.8 <sup>68</sup> Ga-DOTATOC-avid Neuroendocrine Tumor in Tail of Pancreas. . . . .	508
References . . . . .	509
 <b>II.12 Lymphoma</b> . . . . .	513
Introduction . . . . .	513
Non-Hodgkin's Lymphoma . . . . .	513
Hodgkin's Disease . . . . .	515
<sup>18</sup> F-FDG Imaging for Diagnosis of NHL and HD. . . . .	516
<sup>18</sup> F-FDG Imaging at Initial Staging of Lymphoma . . . . .	516
<sup>18</sup> F-FDG Avidity of HD and NHL . . . . .	516
Comparative Performance of <sup>18</sup> F-FDG Imaging and CT . . . . .	516
Diagnosis of Bone Marrow Involvement. . . . .	517
<sup>18</sup> F-FDG Staging Criteria in HD and NHL . . . . .	517
<sup>18</sup> F-FDG Imaging for Monitoring Therapy Response in Lymphoma . . . .	517
Definition of Response . . . . .	517
Timing of <sup>18</sup> F-FDG Imaging in Assessing Response to Treatment in Lymphoma. . . . .	518
During and End-of-Treatment <sup>18</sup> F-FDG Imaging in Lymphoma . . . .	518
<sup>18</sup> F-FDG Imaging of a Residual Mass . . . . .	519
Pitfalls in Interpretation. . . . .	519
<sup>18</sup> F-FDG Imaging for Diagnosis and Restaging of Lymphoma Recurrence. .	520
Summary . . . . .	520
Guidelines and Recommendations for the Use of <sup>18</sup> F-FDG-PET and PET/CT . . . . .	521
<b>Case Presentations</b> . . . . .	523
II.12.1 NHL-DLCL of the Spleen (with local invasion to LN in splenic hilum and to tail of pancreas) (DICOM Images on DVD) . . . . .	523

II.12.2	NHL-DLCL Stage IV: Good Response to Treatment. . . . .	529
II.12.3	HD, Nodular Sclerosis Type Stage III: Good Early Response at Mid-treatment (DICOM Images on DVD). . . . .	532
II.12.4	Recurrent Small Lymphocytic NHL and Infection in Right Groin . . . . .	536
II.12.5	HD, Refractory to First Line Chemotherapy: CR after Salvage Therapy and AHCT . . . . .	540
II.12.6	Recurrent Follicular Grade II NHL and Gastritis . . . . .	542
II.12.7	Early Relapse of HD . . . . .	544
II.12.8	Recurrent Follicular Grade II NHL . . . . .	547
II.12.9	HD in Complete Remission: Transient Foci of Increased <sup>18</sup> F-FDG Activity due to Inflammation . . . . .	550
	References . . . . .	552
<b>II.13</b>	<b>Melanoma</b> . . . . .	555
	Introduction . . . . .	555
	Cutaneous Melanoma . . . . .	555
	Diagnosis . . . . .	555
	Staging . . . . .	556
	Detection of Recurrence and Restaging with <sup>18</sup> F-FDG PET and PET/CT. . . . .	559
	Choroidal Melanoma . . . . .	561
	Summary . . . . .	562
	Guidelines and Recommendations for the Use of <sup>18</sup> F-FDG PET and PET/CT . . . . .	562
	<b>Case Presentations</b> . . . . .	563
II.13.1	Metastatic Melanoma with Cerebral Metastases Seen on CT Only . . . . .	563
II.13.2	Metastatic Melanoma s/p Regional Lymph Node Dissection . . . . .	565
II.13.3	Metastatic Melanoma to the Right Ventricle and Pulmonary Emboli (DICOM Images on DVD). . . . .	567
II.13.4	Choroidal Melanoma . . . . .	570
II.13.5	No Evidence of Recurrence in a Patient Treated with Vaccine. . . . .	573
II.13.6	Widely Metastatic Melanoma including the Mesentery (DICOM Images on DVD) . . . . .	575
II.13.7	SPECT/CT of a Cervical Sentinel Lymph Node. . . . .	579
	References . . . . .	581
<b>II.14</b>	<b>Malignancy of the Bone: Primary Tumors, Lymphoma, and Skeletal Metastases</b> . . . . .	583
	Skeletal Metastases, Bone Lymphoma, and Multiple Myeloma. . . . .	583
	<sup>18</sup> F-FDG PET/CT for Diagnosis of Malignant Skeletal Lesions . . . . .	583
	<sup>18</sup> F-FDG PET/CT for Monitoring Response to Therapy. . . . .	584
	Advantages of <sup>18</sup> F-FDG PET/CT in Malignant Skeletal Involvement . . . . .	584
	Summary . . . . .	584

Primary Skeletal Malignancies .....	585
<sup>18</sup> F-FDG PET/CT for Diagnosis of Primary Skeletal Tumors .....	585
<sup>18</sup> F-FDG PET/CT for Staging Primary Skeletal Tumors .....	585
<sup>18</sup> F-FDG PET/CT for Monitoring Response to Therapy .....	586
Summary .....	586
<b>Case Presentations</b> .....	587
II.14.1 Lung Cancer with Direct Extension to Bone and Distant Skeletal Metastases (DICOM Images on DVD) .....	587
II.14.2 Marrow-based and Cortical Skeletal Metastases before and with Partial Response after Treatment, and Hepatic Metastases ..	592
II.14.3 Lung Cancer with Extensive Skeletal Metastatic Spread and Invasion of the Epidural Space at T11 .....	598
II.14.4 Lymphoma with Skeletal Involvement and Suspected Involvement of the Left S1 Neural Foramen, in addition to Nodal Pleural and Muscular Disease .....	600
II.14.5 Primary Lymphoma of the Bone .....	604
II.14.6 Multiple Myeloma with Active Disease in Rib and Post-radiotherapy Inactive Disease in Vertebra .....	610
II.14.7 Ewing Sarcoma of the Proximal Femur with Muscular Involvement, Pulmonary Metastases, and Suspected Additional Distant Sites of Disease in Bone and Lymph Nodes (DICOM Images on DVD) .....	612
References .....	618
 <b>II.15 Pediatric Applications for PET/CT and SPECT/CT</b> .....	621
Introduction .....	621
Neuroblastoma .....	621
Sarcoma .....	622
Lymphoma .....	623
Considerations on Radiation Exposure from PET/CT .....	624
PET/CT Procedure and Preparation of the Pediatric Patient .....	625
SPECT/CT Procedure and Preparation of the Pediatric Patient .....	625
<b>Case Presentations</b> .....	627
II.15.1 B-Cell Lymphoblastic Lymphoma, Stage IV Disease with Left and Right Face/Neck Disease and Bilateral Skeletal Involvement of the Lower Extremities (DICOM Images on DVD) .....	627
II.15.2 Multiple GIST Tumors Metastatic to the Liver and Unconfirmed Pulmonary Chondromas .....	633
II.15.3 Ewing Sarcoma with Solitary Skeletal Metastasis .....	637
II.15.4 ALL with Diffuse Skeletal Involvement, Renal and GIT Involvement; Post-surgical Changes Related to Previous Rotationplasty for Osteogenic Sarcoma .....	640
II.15.5 Stage IV Neuroblastoma with Residual Retrocrural Soft Tissue Disease and Skeletal Metastasis in the Sacrum after Treatment and Post-surgical Changes Left Upper Quadrant (DICOM Images on DVD) .....	645
II.15.6 Occult Calcaneal Stress Fracture .....	651
References .....	655

<b>Part II Other Clinical Applications</b>	657
<b>III.1 Cardiac Hybrid Imaging (PET/CT and SPECT/CT): Assessment of CAD</b>	659
Introduction	659
Imaging Protocols for Hybrid Cardiac Imaging	659
CT Imaging for Hybrid Cardiac SPECT/CT and PET/CT	659
Cardiac SPECT/CT	661
Cardiac PET/CT	661
Quality Control of Cardiac Hybrid Imaging	662
Clinical Applications of Cardiac Hybrid Imaging	662
Diagnosis of CAD Using Cardiac Hybrid Imaging	662
Risk Assessment Using Cardiac Hybrid Imaging	663
Guiding Management of CAD Using Cardiac Hybrid Imaging	664
Conclusions	665
<b>Case Presentations</b>	666
III.1.1 Cardiac SPECT/Low Dose CT for Attenuation Correction: Normal Patient with Misregistration	666
III.1.2 Cardiac PET/Low Dose CT for Attenuation Correction: Normal Patient with Misregistration	668
III.1.3 Cardiac SPECT/CCTA: Hemodynamically Significant Lesion in the Territory of the RCA Related to Stenosis in SVG to RCA	670
III.1.4 Cardiac SPECT/CCTA: Ischemia in the Inferior Wall Indicating the Hemodynamically Significant Lesion in the RCA	673
III.1.5 Normal PET MPS with High Calcium Score (> 1,000)	676
III.1.6 Moderate Stenosis in the RCA with Normal PET MPS Protocol	679
References	681
<b>III.2 Hybrid Imaging of Benign Skeletal Diseases</b>	683
<sup>99m</sup> Tc-MDP SPECT/CT	683
<sup>18</sup> F-Fluoride PET/CT	685
<sup>18</sup> FDG PET/CT	686
Summary	687
<b>Case Presentations</b>	688
III.2.1 Incidentally Found Fibrous Dysplasia in the Left Tibia	688
III.2.2 Parosteal Ossifying Lipoma in the Left Fibula	691
III.2.3 Giant Cell Tumor of the Sacral Bone and Presacral Region (DICOM Images on DVD)	694
III.2.4 Chronic Recurrent Multifocal Osteomyelitis in the Thoracic Spine, Knees, Right Humerus, and Scapula (DICOM Images on DVD)	699
III.2.5 Osteonecrosis in Both Knees	705
References	708
<b>III.3 Infectious and Inflammatory Diseases</b>	711
Introduction	711
Radionuclide Procedures	711

Skeletal Scintigraphy .....	711
<sup>67</sup> Gallium Scintigraphy .....	712
Labeled Leukocyte Scintigraphy .....	712
<sup>18</sup> F-FDG Imaging .....	713
<b>Case Presentations</b> .....	714
III.3.1 Right Quadriceps Abscess: <sup>67</sup> Ga SPECT/CT .....	714
III.3.2 Soft Tissue Abscess and Osteomyelitis of the Mandibular Bone Graft: <sup>67</sup> Ga SPECT/CT .....	717
III.3.3 Soft Tissue Infection of the Left Lateral Ankle: <sup>99m</sup> Tc-MDP and <sup>111</sup> In-WBC SPECT/CT .....	720
III.3.4 Hepatic Abscess: <sup>67</sup> Ga SPECT/CT .....	724
III.3.5 Osteomyelitis of the Medial Cuneiform and Right First Metatarsal: <sup>18</sup> F-FDG PET/CT .....	726
III.3.6 Infected Right Femoropopliteal Graft: <sup>18</sup> F-FDG PET/CT .....	728
III.3.7A Fever of Unknown Origin: <sup>18</sup> F-FDG PET/CT (DICOM Images on DVD) .....	731
III.3.7B Dental Abscess <sup>18</sup> F-FDG PET/CT .....	734
III.3.7C Infected Rental Cyst: <sup>18</sup> F-FDG PET/CT .....	736
III.3.8 Healing Traumatic L3 Vertebral Fracture: <sup>99m</sup> Tc-MDP SPECT/CT and <sup>18</sup> F-FDG PET/CT (DICOM Images on DVD) .....	739
References .....	744
<b>Subject Index</b> .....	747
