

Contents

1	Introduction	1
1.1	The Problem of Food Security and Environmental Change	1
1.1.1	Definitions and Global Dimensions	2
1.1.2	The Importance of China to Global Food Security	3
1.2	Plan of the Book	4
1.3	Food Security in Traditional China	6
1.3.1	Food Production Regions	6
1.3.2	Food Production in China's Pre-history	8
1.3.3	Primary Environmental Stressors in the Dynastic Era (211 BC–1912)	9
1.3.4	Imperial Responses	12
1.4	Food Security in the Republican Period: 1912–1949	16
1.4.1	Difference of Environmental Stressors	16
1.4.2	Changes from Imperial Policy	17
1.5	Conclusion	18
2	Communist Rule and the Food Security Situation	19
2.1	Establishment of the Command Economy, 1949–1978	19
2.1.1	Central Planning of Agricultural Production	20
2.1.2	Ideological Control of Plan Targets and Methods	20
2.2	Policy Choices and Impacts on Agricultural Production	21
2.2.1	Early Land Reform and Collectivization	21
2.2.2	The Great Leap Forward (1958–1960)	23
2.2.3	The Cultural Revolution (1966–1976)	23
2.3	Policy Reforms, 1978–2009	25
2.3.1	Introduction of Production Incentives	26
2.3.2	Grain Sales and Changing State Intervention	27
2.3.3	Improvements in Infrastructure	30
2.3.4	Opening to the World	32
2.4	China's Current Food System	33
2.4.1	The Food on China's Tables	33
2.4.2	Degree of Food Sufficiency	37

2.4.3	Regional and Income Variations	39
2.4.4	Changes in Food Preferences	41
2.5	Conclusions	42
3	Immediate Environmental Stressors on Food Security	45
3.1	How Much Arable Land Does China Have?	45
3.2	Causes of Arable Land Loss	47
3.2.1	Population Growth and Pressure	48
3.2.2	Urbanization	49
3.2.3	Economic Development	50
3.3	Effects of Socioeconomic Change	52
3.3.1	Land Degradation	52
3.3.2	Degradation of China's Waters	60
3.4	State Responses to Environmental Stressors	69
3.4.1	Restriction on Arable Land Conversion	69
3.4.2	China's One-Child Policy	73
3.4.3	State Investments in Irrigation Systems	74
3.4.4	Large-Scale Dam Construction	74
3.4.5	The South–North Water Diversion Project	76
3.4.6	Large-Scale Afforestation and Reforestation Projects	77
3.4.7	Restoration of Forests and Grasslands	78
3.5	Conclusions: Overall Impacts on Current Food Security	81
4	Near-Term Environmental Stressors: Climate Change	83
4.1	Introduction	83
4.2	China's Energy Policy	87
4.2.1	Reliance on Coal	88
4.2.2	Toxic Emissions	88
4.2.3	Energy Efficiency	89
4.2.4	Alternate Energy Strategies	90
4.3	China's Traditional Agriculture and Climate Change	92
4.3.1	Wet Rice Cultivation	92
4.3.2	Livestock Production	93
4.3.3	Other Agricultural Factors	93
4.4	Natural Climate Cycles	94
4.5	Observed Climate Change Effects	95
4.5.1	Temperature Changes	96
4.5.2	Precipitation Changes	98
4.5.3	Surface Evaporation Changes	98
4.5.4	Sunshine Duration	99
4.5.5	Wind Speed Changes	99
4.6	Correlation of Climate Change and Extreme Weather Events	100
4.6.1	Floods	100

4.6.2	Drought	102
4.6.3	Heat Waves.....	104
4.6.4	Rising Sea Level	105
4.6.5	Typhoons.....	106
4.6.6	Other Extreme Weather Events.....	106
4.7	Impacts of Climate Change on Agricultural Production.....	107
4.7.1	Impacts on Rice Production	110
4.7.2	Wheat Production.....	110
4.7.3	Maize Production	111
4.7.4	Cotton Production	112
4.7.5	Mitigation Difficulties.....	112
4.8	Conclusions.....	115
5	Plant Diseases, Pests and Food Security	117
5.1	Introduction.....	117
5.2	Definition of Primary Concepts	118
5.3	Economic Impact of Diseases and Insect Pests on Food Production.....	120
5.4	Diseases and Insect Pests of Historical and Contemporary Importance	122
5.4.1	Migratory Locusts (<i>Locusta migratoria</i>)	122
5.4.2	Rice Blast Disease.....	126
5.4.3	Wheat Rust Diseases.....	129
5.5	Emerging and Re-emerging Diseases and Insect Pests.....	130
5.5.1	Rice Diseases and Insect Pests.....	130
5.5.2	Wheat Diseases and Pests	135
5.5.3	Diseases and Insect Pests on Corn.....	138
5.5.4	Potato Diseases and Insect Pests.....	140
5.5.5	Important Soybean Diseases and Pests	142
5.6	Plant Pathogens Affecting Crop Yield and Human/Animal Health	145
5.6.1	Rice False Smut	145
5.6.2	Wheat Scab	145
5.6.3	Maize Ear, Kernel Rot and Post-harvest Diseases	146
5.7	Effects of Social and Environmental Changes on Diseases and Pests.....	147
5.7.1	Agricultural Cultural Practices	147
5.7.2	Government Policy.....	148
5.7.3	Improvement of Domestic Transportation	149
5.7.4	Climate Change.....	149
5.8	Control Measures.....	150
5.8.1	Regulatory Controls	151
5.8.2	Cultural Control Measures.....	151
5.8.3	Plant Breeding for Disease Resistance	152

5.8.4	Biological Controls	153
5.8.5	Physical Control Means	154
5.8.6	Chemical Control Measures.....	154
5.9	Conclusions.....	156
6	Invasive Species and Food Security	157
6.1	Introduction.....	157
6.2	Nature of Invasive Species	158
6.2.1	Definitions.....	158
6.2.2	Transmission of Invasive Species	159
6.2.3	Valorization of Invasive Species	160
6.3	Invasive Species with Impacts on Food Production.....	160
6.3.1	Plant Species	161
6.3.2	Insect Species.....	162
6.3.3	Fish Species	162
6.3.4	Other Species	163
6.4	Immediate Environmental Stressors as Causes of the Unintentional Transmission of Invasive Species	165
6.4.1	Socio-Economic Change.....	165
6.4.2	Improved Domestic Transportation Systems	166
6.4.3	Increased International Trade and Tourism.....	166
6.5	Climate Change and Invasive Species.....	168
6.6	Responses to Spread of Invasive Species in China	169
6.6.1	Global Recommendations	170
6.6.2	Law and Regulations on Invasive Species	170
6.6.3	Mitigation Measures	172
6.6.4	Future Directions	174
6.7	Conclusions.....	175
7	Biotechnological Responses to Food Security Needs	177
7.1	Introduction.....	177
7.2	The Development of Biotechnology in China	178
7.2.1	Motivations	178
7.2.2	Organization and Funding of Agricultural Biotechnology Research	180
7.2.3	Role of the Private Sector in Agricultural Biotechnology	181
7.2.4	China's Importation of GMOs: The Case of Soybeans.....	182
7.3	The "Success Story" of Bt Cotton	183
7.3.1	Development of Bt Cotton	184
7.3.2	Initial Impacts of Bt Cotton	185
7.3.3	Potential Problems in Bt Cotton Production.....	186
7.4	Approval of Other Crop and Plant Species	187

7.5	The Special Case of Genetically-Modified Rice.....	188
7.5.1	Development and Testing of Bt Rice	188
7.5.2	The Promise of Bt Rice.....	189
7.5.3	Resistance to Commercialization of Bt Rice	191
7.6	Biosafety Concerns About GMOs	193
7.6.1	Global Resistance to GMOs and the Cartagena Protocol	193
7.6.2	Lack of Elite Consensus.....	195
7.6.3	Limited Public Information on GMOs.....	196
7.7	China's Biosafety Regime.....	197
7.7.1	Origin of the Biosafety Regime	197
7.7.2	Structure of the Regime	199
7.7.3	Biosafety Implementation	200
7.8	Conclusions.....	201
8	The Legal and Institutional Framework to Address Food Security Needs.....	205
8.1	Introduction.....	205
8.2	Constitutional and Legal Provisions	206
8.2.1	The 1982 Constitution.....	206
8.2.2	Framework of Laws	207
8.2.3	Regulations and Policies	208
8.3	Central Ministries.....	210
8.3.1	Agencies Emphasizing Food Production	210
8.3.2	Agencies Emphasizing Food Consumption	212
8.3.3	Agencies Emphasizing System-Wide Control Functions.....	213
8.3.4	Related Agencies	215
8.4	Devolution of Functions to Sub-national Governments.....	216
8.4.1	Grants of Authority	216
8.4.2	Coordination Methods	218
8.5	Non-governmental Organizations (NGOs) and Food Security	221
8.5.1	The NGO Environment in China	222
8.5.2	Greenpeace's Food Security Campaigns in China.....	224
8.5.3	Activities of Other NGOs	225
8.6	China's New Food Safety Regime	228
8.6.1	Tainted Products.....	228
8.6.2	Revisions to the Structure of the Food Safety Regime.....	231
8.6.3	Revision to Laws and Regulations on Food Safety.....	232
8.6.4	Corrective Measures.....	234
8.6.5	More Tainted Products	237
8.7	Conclusions.....	241

9	Issues in Implementing Food Security in China	243
9.1	Introduction.....	243
9.2	The Knowledge Base	244
9.2.1	The Structure of Knowledge Concerning the Food System.....	244
9.2.2	Budget Allocations for Research and Development	246
9.2.3	Knowledge of China's Farming Population.....	247
9.3	Challenges To Administrative Coordination.....	248
9.3.1	Horizontal Coordination	249
9.3.2	Vertical Coordination	250
9.4	Modernization of China's Agricultural Infrastructure	251
9.5	Poverty Alleviation and Food Security	253
9.5.1	Poverty Reduction from the Late 1970s to the Present.....	253
9.5.2	Government Poverty Alleviation Programs	255
9.5.3	Challenges for Future Poverty Alleviation Policies.....	257
9.6	Limited Opportunities for Public Participation.....	259
9.6.1	Media Reportage of Environmental and Food Security Issues.....	260
9.6.2	Impediments to the Development of Civil Society	261
9.6.3	Citizen Protests	262
9.7	International Challenges	263
9.7.1	China's Trade in Agricultural Products	263
9.7.2	Issues Related to China's Entrance to the WTO.....	265
9.7.3	Compliance with Other International Conventions.....	268
9.8	Conclusions.....	269
10	Summary and Conclusions.....	271
	Summary	271
10.1	Observations.....	275
10.1.1	Priority of Food Security.....	275
10.1.2	Changing Definition of Food	276
10.1.3	Comparative Advantage and Food Security.....	277
10.1.4	Contradictions of Policy.....	278
10.1.5	The Role of Science	280
10.1.6	The Role of Crises	281
10.1.7	Domestic Economic Challenges: The Nungmingong (Farmer-workers)	282
10.1.8	Domestic Political Challenges to Food Security.....	283
10.1.9	International Challenges to Food Security.....	284
10.1.10	Environmental Challenges to Food Security.....	285
	Selected Bibliography	287
	Index.....	301
