## 9 Anabolic Steroids: Metabolism, Doping and Detection

<b>in Human and Equestrian Sports.....</b>	<b>743</b>
A.T. Kicman, E. Houghton and D.B. Gower	
9.1 General Introduction.....	743
9.1.1 Anabolic Activity.....	743
9.1.2 Control of Anabolic Steroids.....	745
9.1.3 Misuse of Anabolic Steroids in Sport and Society .....	748
9.1.4 Non-pharmaceutical Anabolic Steroids.....	749
9.1.5 Anabolic Steroids in Food .....	752
9.2 Adverse Effects on Health .....	752
9.3 Structural Modifications .....	753
9.4 Routes of Administration.....	755
9.5 Metabolism of Anabolic Steroids .....	757
9.5.1 General Aspects.....	757

9.5.2	Phase I Reactions.....	757
9.5.3	Phase II Catabolic Reactions.....	770
9.6	Collection, Handling and Storage of Biological Samples .....	775
9.6.1	Urine.....	775
9.6.2	Additional Biological Matrices for Analysis.....	778
9.7	Urinalysis – Screening by GC-MS .....	781
9.7.1	Sample Preparation (Clean Up and Hydrolysis) .....	781
9.7.2	Trimethylsilyl Derivatization .....	783
9.7.3	GC-MS .....	785
9.8	LC-MS Applications to Steroid Analysis in Sport .....	788
9.8.1	History .....	788
9.8.2	Applications of API-LC-MS in Sport in the Analysis of Androgenic/Anabolic Steroids and their Phase I Metabolites .....	790
9.8.3	LC-MS Analysis of Intact Steroid Conjugates .....	793
9.9	Confirmatory Analysis .....	795
9.9.1	Chromatographic Separation.....	796
9.9.2	Mass Spectrometric Detection.....	796
9.10	Detection of Doping with ‘Natural’ Steroids.....	802
9.10.1	General Aspects.....	802
9.10.2	Testosterone (T).....	802
9.10.3	Nandrolone .....	807
9.10.4	Detection of Administration of Other ‘Natural’ Androgens.....	813
9.10.5	Detection of ‘Natural’ Androgen Administration by Determination of Carbon Isotope Ratio .....	816
