

# Contents

## Part I Classification, Opportunities and Challenges

- 1 Classification of Anticancer Drugs Based on Therapeutic Targets . . . . .** 3  
Enrique Espinosa and César Gómez Raposo
- 2 Signal Transduction Pathways as Therapeutic Targets in Cancer Therapy . . . . .** 37  
Michele Milella, Ludovica Ciuffreda, and Emilio Bria

## Part II Polymer-Based Anticancer Prodrugs

- 3 HPMA-Anticancer Drug Conjugates . . . . .** 87  
B. Rihova, O. Hovorka, L. Kovar, M. Kovar, T. Mrkvan, M. Sirova, V. Subr, and K. Ulbrich
- 4 Poly-L-Glutamic Acid Anti-cancer Drug Conjugates . . . . .** 133  
Jack W. Singer, Marc McKennon, Gabriella Pezzoni, Stefano di Giovine, Mara Cassin, Paola de Feudis, Cecilia Allievi, Patrizia Angiuli, Marco Natangelo, Enrico Vezzali, and Stefano Fazioni
- 5 Polysaccharide-Based Anticancer Prodrugs . . . . .** 163  
Paolo Caliceti, Stefano Salmaso, and Sara Bersani
- 6 PEG-Anticancer Drugs . . . . .** 221  
Francesca Cateni and Marina Zacchigna
- 7 Poly(ethylene glycol)-Protein, Peptide, and Enzyme Conjugates . . . . .** 265  
F.M. Veronese, G. Pasut, S. Drioli, and G.M. Bonora

## Part III Lipid-Based Anticancer Prodrugs

- 8 Lipid-Based Anticancer Prodrugs . . . . .** 291  
L. Harivardhan Reddy and Patrick Couvreur

**Part IV Antibody-Directed Cancer Therapy**

- 9 Antibody–Cytotoxic Compound Conjugates for Oncology** . . . . . 331  
Carol A. Vater and Victor S. Goldmacher
- 10 Immunoconjugate Anticancer Therapeutics** . . . . . 371  
Serengulam V. Govindan and David M. Goldenberg
- 11 Antibody-Directed Enzyme Prodrug Therapy (ADEPT) for Cancer** . . . . . 393  
Surinder K. Sharma and Kenneth D. Bagshawe
- 12 EGFR-Directed Monoclonal Antibodies** . . . . . 407  
Roberto Bianco, Teresa Gelardi, Sonia Garofalo, Roberta Rosa, and Giampaolo Tortora
- 13 The Biology of the HER Family and Her2/neu Directed-Antibody Therapy** . . . . . 437  
Jennifer K. Litton and Gabriel N. Hortobagyi
- 14 Anti-Vascular Endothelial Growth Factor Monoclonal Antibodies** . . . . . 465  
Ernest S. Han and Bradley J. Monk
- 15 Monoclonal Antibody Therapy for Hematologic Malignancies** . . . 493  
Kenneth A. Foon, Michael Boyiadzis, and Samuel A. Jacobs

**Part V Anticancer Oligonucleotide Therapeutics**

- 16 Anticancer Oligonucleotides** . . . . . 539  
Anne Laure Ramon and Claude Malvy

**Part VI Miscellaneous**

- 17 New Molecular Therapeutic Interventions: The Case of Breast Cancers** . . . . . 571  
Véronique Marsaud and Jack-Michel Renoir
- Author Index** . . . . . 613
- Subject Index** . . . . . 615
