1 The Role of Profit in Advanced Market Economies	1
2 Profit System Models of the Firm, Industry, and Business Sector	5
2.1 Theoretical Foundation of Profit System Models of the Firm	5
2.1.1 Mathematical Economic Approach to Obtaining a Profit System Model of Production	6
2.1.2 Accounting Approach to Obtaining a Profit System Model of Production	7
2.1.3 Profit System Model of Capital Stock	8
2.1.4 Profit System Model of Profit Margins	8
2.1.5 Profit System Model of Employment	9
2.1.6 Other Key Business Variables: Sales Tax, Depreciation, Total Employment Compensation, and Wage Rate	10
2.1.7 Profit System Channel of Inflation Transmission	10
2.1.8 Profit System Models of Deflated Output, Deflated Capital Stock, and Deflated Labor Productivity	11
2.1.9 Total Profit Equations	12
2.1.10 Profit System Economic Equilibrium	12
2.1.11 Profit System Theory of Economic Growth	13
2.1.12 Profit System Theory of Business Cycles	14
2.1.13 Financial Sector Variables: Interest Rate and Credit	15
2.2 Empirical Profit System Models in the Form of Dynamic Equations	15
2.2.1 General Approach	15
2.3 Summary	25
Appendix: General Form of the Extended Profit System Model with Goods and Services Plus Labor Markets	26
3 A Macroeconomic Profit System Model of Advanced Market Economies	29
3.1 Macroeconomic Profit System Model	29
3.1.1 Business Sector Profit System Model	33

3.1.2	Nonprofit Sector Model	34
3.1.3	Combined Business Sector Profit System Model and Nonprofit Sector Model	35
3.1.4	The Monetary Policy Model	35
3.1.5	Debt Model	36
3.1.6	Macroeconomic Equilibrium	36
3.1.7	Channels of Inflation and Monetary Policy Transmission	37
3.1.8	Wicksell's Cumulative Process in the Macroeconomic Profit System Model	38
3.1.9	The Government Sector and Profitability	39
3.2	Application of the Macroeconomic Profit System Model to the US Economy	39
3.2.1	Data	40
3.2.2	Estimation of the Macroeconomic Model	44
3.2.3	Testing Model Reliability	51
3.3	Monetary Policy Analysis and the Impacts of Economic Stimulus Plans	61
3.3.1	Monetary Policy Analysis	61
3.3.2	Fiscal Policy Analysis	62
3.3.3	Macroeconomic Policy Analyses: A Scenario Approach	63
3.4	Business Cycle Analysis	69
3.5	Conclusion	77
4	Profit System Models of the Corporate Sector	81
4.1	Corporate Models	82
4.1.1	The Corporate Model	82
4.1.2	The Nonfinancial Corporate Model	84
4.2	Data for Estimating Corporate and Nonfinancial Corporate Sector Models	84
4.3	The Estimated Corporate Profit System Model	84
4.4	The Estimated Nonfinancial Corporate Sector Profit System Model	86
4.5	Stochastic Simulations of the Estimated Corporate Models	86
4.6	Out-of-Sample Forecasts of Corporate Profit System Models	89
4.7	A Quarterly Profit System Model of the Nonfinancial Corporate Sector	91
4.8	Conclusion	92
	Appendix: Estimated Nonfinancial Corporate Profit System Model Using Quarterly Data Series: 1958Q1–2008Q4	93
5	Profit System Models for Industries	95
5.1	The Empirical Representation of the Model for Industries	95
5.2	Industry Data	97

5.3	Empirical Results	98
5.3.1	Mining, Quarrying, and Oil and Gas Extraction (NAICS 21)	99
5.3.2	Utilities Industry (NAICS 22)	100
5.3.3	Construction Industry (NAICS 23)	101
5.3.4	Manufacturing Industry (NAICS 31–33)	103
5.3.5	Wholesale Trade Industry (NAICS 42)	104
5.3.6	Retail Trade Industry (NAICS 44–45)	106
5.3.7	Transportation and Warehousing Industry (NAICS 48–49)	107
5.3.8	Information Industry (NAICS 51)	109
5.3.9	Finance and Insurance Industry (NAICS 52)	110
5.3.10	Professional and Business Services Industry (NAICS 54–56)	112
5.3.11	Education and Health Services Industry (NAICS 61–62)	113
5.3.12	Leisure and Hospitality Services Industry (NAICS 71–72)	115
5.4	Conclusion	116
6	A Profit System Model of Stock Market Valuation	119
6.1	A Profit System Model of the Standard and Poor's Industrial Index	120
6.1.1	Stock Market Price Indexes	120
6.1.2	Data for Standard and Poor Industrial Index Firms	122
6.1.3	A Profit System Model for Stock Market Index Valuation	122
6.1.4	Estimated Profit System Model for the S&P Industrial Index Firms	124
6.1.5	Estimating S&P's Industrial Index of the Stock Market	125
6.2	Stock Market Capitalization	130
6.3	Conclusion	134
7	A Profit System Model of the Firm for Business Analysis and Stock Valuation	137
7.1	Application of the Profit System Model to Firms	137
7.1.1	Empirical Model	137
7.1.2	Data Issues	139
7.2	Empirical Results for Two US Corporations	140
7.2.1	Data for Firms	141
7.2.2	Empirical Results for International Business Machines Corporation	141
7.2.3	Empirical Results for Johnson & Johnson	147
7.3	Further Discussion	151
7.3.1	Strategic Business Planning	152
7.3.2	Budgetary Control	152

7.3.3 Capital Budgeting Decisions 153

7.4 Conclusion 153

8 Concluding Remarks 155
