

Contents

Part I Opening Remarks

- 1 Hardwiring Tumor Progression 3**
Andrei Thomas-Tikhonenko

Part II Breaking Away: Epithelial-Mesenchymal Transition

- 2 PI3K/AKT Pathway and the Epithelial–Mesenchymal Transition 11**
A. Bellacosa and L. Larue
- 3 Loss of Cadherin–Catenin Adhesion System in Invasive Cancer Cells 33**
Wen-Hui Lien and Valeri Vasioukhin
- 4 Rho GTPases in Regulation of Cancer Cell Motility, Invasion, and Microenvironment 67**
Donita C. Brady, Jamie K. Alan, and Adrienne D. Cox
- 5 Merlin/NF2 Tumor Suppressor and Ezrin–Radixin–Moesin (ERM) Proteins in Cancer Development and Progression 93**
L. Ren and C. Khanna

Part III Coming Up for Air: Hypoxia and Angiogenesis

- 6 von Hippel–Lindau Tumor Suppressor, Hypoxia-Inducible Factor-1, and Tumor Vascularization 119**
Huafeng Zhang and Gregg L. Semenza
- 7 RAS Oncogenes and Tumor–Vascular Interface 133**
Janusz Rak
- 8 Myc and Control of Tumor Neovascularization 167**
Prema Sundaram, Chi V. Dang, and Andrei Thomas-Tikhonenko

9	p53 and Angiogenesis	189
	Jose G. Teodoro, Sara K. Evans, and Michael R. Green	
10	Ink4a Locus: Beyond Cell Cycle	217
	Greg H. Enders	
Part IV Gaining New Ground: Metastasis and Stromal Cell Interactions		
11	Nm23 as a Metastasis Inhibitor	233
	Rajeev Kaul, Masanao Murakami, Pankaj Kumar, and Erle S. Robertson	
12	HGF/c-MET Signaling in Advanced Cancers	273
	Mandira Ray, JG Garcia, and Ravi Salgia	
13	Contribution of ADAMs and ADAMTSs to Tumor Expansion and Metastasis	293
	Antoni Xavier Torres-Collado and M. Luisa Iruela-Arispe	
14	Stromal Cells and Tumor Milieu: PDGF et al.	315
	Michele Jacob and Ellen Puré	
15	TGF-β Signaling Alterations in Neoplastic and Stromal Cells . . .	335
	Qinghua Zeng and Boris Pasche	
Part V Getting Attention: Immune Recognition and Inflammation		
16	Genetic Instability and Chronic Inflammation in Gastrointestinal Cancers	351
	Antonia R. Sepulveda and John P. Lynch	
17	Immunoglobulin Gene Rearrangements, Oncogenic Translocations, B-Cell Receptor Signaling, and B Lymphomagenesis	399
	Murali Gururajan and Subbarao Bondada	
18	Modulation of Philadelphia Chromosome-Positive Hematological Malignancies by Bone Marrow Microenvironment	427
	Lin Wang, Heather O'Leary, and Laura F. Gibson	
Part VI Putting It All Together		
19	Melanoma: Mutations in Multiple Pathways at the Tumor-Stroma Interface	455
	Himabindu Gaddipati and Meenhard Herlyn	
20	Cooperation and Cancer	471
	Kathleen Sprouffske and Carlo C. Maley	
Index		487

Cancer Genome and Tumor Microenvironment

Thomas-Tikhonenko, A. (Ed.)

2010, IX, 480 p. 45 illus., 16 illus. in color., Hardcover

ISBN: 978-1-4419-0710-3
