Part I Introduction to the Field of Self-help in Mental Health

1 What Constitutes Self-Help in Mental Health and What Can Be Done to Improve It?	3
The Meaning of Self-Help	6
Mental Health as a Condition	8
Mental Health as a Discipline and How to Improve It	9
Health Promotion	10
Novel Delivery Systems	13
Working at a Distance from Participants	14
Homework Assignments	14
Promotion of Physical Health	16
Nutrition	16
Primary Non-verbal Approaches	16
Secondary Relational Approaches	18
Tertiary Multi-relational Approaches	21
Prevention of Mental Illness	23
Psychotherapy	23
Rehabilitation	25
How Is SH Different from Promotion, Prevention, Psychotherapy, and Rehabilitation?	25
Importance of Structure and Replicability in Self-Help	30
An Experimental Checklist to Evaluate MH	30
Concluding Remarks	32
2 The Self-Help Movement in Mental Health: From Passivity to Interactivity	35
Introduction	35
The Passive–Active–Interactive Dimension in Self-Help	36
From Passivity to Activity	38
From Activity to Interactivity	39
Growth in the Use of the Homework Assignments in MH	39
Low-Cost Approaches to Promote Physical and MH	40

Toward a Technology for MH Interventions	42
Implications of Recent Advances for MH Interventions	42
Conclusion	43

Part II Self-Support Approaches: Initiated, Guided, Maintained, and Monitored by Professionals (for Participants)

3 Distance Writing: Helping without Seeing Participants	47
A Classification of Distance Writing	48
Open-Ended Diaries, Journals, and Personal Information	48
Focused Autobiographies	49
Expressive Writing	49
Programmed Writing	50
Dictionary-Assisted Writing	54
The Importance and Dangers of Addressing Hurt Feelings in Writing	56
Rationale for the Usefulness of DW	56
Discussion	57
Conclusion	58
4 Bibliotherapy	59
Introduction	59
Integrating Bibliotherapy with Treatment	61
Bibliotherapy for Anxiety Disorders	63
Bibliotherapy for Depression	65
Bibliotherapy for Childhood Disorders	67
Bibliotherapy for Eating Disorders	67
Bibliotherapy for Sexual Dysfunctions	68
Bibliotherapy for Insomnia	69
Bibliotherapy for Problem Drinking	70
Bibliotherapy for Smoking Cessation	71
Bibliotherapy for Weight Loss	72
Bibliotherapy for Diabetes	73
Bibliotherapy in Primary Care	74
Discussion	75
Concluding Remarks	75
5 Online Support Groups and Therapy	79
Introduction	79
Telemedicine	80
Child and Adolescent Telepsychiatry Service (CATS)	81
Telemental Healthcare for Military Populations	82
Telemedicine for Depression and OCD	82
Online Support Groups	83
Internet Support for Eating Disorders	83
Internet Support for Anxiety Disorders	84

Internet Support for Depression	86
Internet Support for Depression, Anxiety, and Work-Related Stress	87
Internet Support for Problem Drinking	88
Internet Support for Miscellaneous Mental Health and Medical Issues	88
An Innovative Use of Online Technology in Mental Health	89
Quality Assurance	92
Conclusions	93
Various Web-Based Self-Help and Informational Resources	95
Resources for Alcoholism, Problem Drinking, and Substance Abuse and Dependence	95
Resources for Anxiety Disorders	95
Resources for Bipolar Disorders	96
Resources for Cognitive Disorders	97
Resources for Depression	97
Resources for Eating Disorders	98
Resources for Personality Disorders	98
Resources for Schizophrenia	98
Resources for Suicide	99
6 Manuals for Practitioners	101
Brief Description of Selected Empirically Supported Treatment Manuals	102
Additional Manuals for Empirically Supported Treatments	106
The Argument for and Against Treatment Manuals	107
Manuals are Useful Clinical Tools	107
Manuals are Problematic and Limiting	108
The Present Status of Manualized Treatments	110
A Uniquely Formulated Treatment Manual	111
Prescriptive Psychotherapy (PT)	112
Concluding Remarks	114
 Part III Self-Help and Self-Change Approaches for Specific Conditions: Initiated, Administered, Guided, Maintained, and Monitored by Professionals	
7 Anxiety Disorders	119
Self-Administered Treatments for Anxiety	119
Shyness	121
Workbooks	121
Treating Social Phobia at a Distance	124
Virtual Reality Therapy	124
Specific Phobias	125
Self-Administered Treatments	125
Predominantly SH	126

Minimal Contact Treatments	127
Panic Disorder	128
SA Treatment for Panic Disorder	129
PSH Treatments for Panic Disorder	129
MC Treatments for Panic Disorder	129
Obsessive-Compulsive Disorder	130
SA treatments for OCD	130
PSH Treatments for OCD	131
MC Treatments for OCD	131
PTA Treatments for OCD	131
Generalized Anxiety Disorder	132
Social Phobia	132
Post-Traumatic Stress Disorder	132
A Naturalistic Design Investigation	134
Conclusion	135
Available Resources	135
Associations and Agencies and Web Sites	135
Books	136
Support Groups and Hotlines	136
8 Mood Disorders	137
Introduction	137
Self-Help for Depression	139
Self-Administered Treatments for Depression	139
Bibliotherapy as Self-Help Treatment for Depression	141
Computer-Administered Treatments for Depression	144
Bipolar Disorder	145
Medical Co-morbidity	145
Discussion	146
Conclusion	147
Self-Help Resources for Mood Disorders	147
Associations and Agencies	147
Books	147
Support Groups and Hotlines	148
Video and Audio	148
Web Sites	148
9 Eating Disorders: Anorexia, Bulimia, and Obesity	149
The Importance of Diets in Eating Disorders	152
The Importance of Exercise in Eating Disorders	153
Anorexia Nervosa	154
Binge Eating Behavior	157
Body-Image Disturbances	159
Bulimia Nervosa	160

Obesity	163
Prevention and Treatment of Overweight Children and Their Families	166
Night-Eating Syndrome	167
Concluding Remarks	168
10 Addictive Behaviors	173
Destructive Addictive Behaviors	175
Alcohol Abuse	175
Spontaneous Recovery from Problem Drinking	176
Mutual SH Groups for Problem Drinking	177
General Substance Abuse	181
Methamphetamine/Amphetamine Abuse	182
Cocaine	182
Spontaneous Recovery from General Substance Abuse	183
Self-Help Groups for Substance Abuse	183
Tobacco Abuse	185
Spontaneous Recovery from Tobacco Abuse	187
Domestic Violence and Crime	187
Spontaneous Recovery	189
Sexual Abuses and Offenses	190
Sex Addiction	191
Socially Based Addictive Behaviors	191
Codependency	192
Excessive Spending	193
Gambling	193
Spontaneous Recovery	194
Interpersonal and Love Relationships	195
Spontaneous Recovery	196
Religious Fanaticism	196
Spontaneous Remission	197
Workaholism	197
Spontaneous Remission	198
Concluding Remarks	198
Additional Self-Help Resources for Addictions	199
Alcohol and Substance Abuse Resources	199
Smoking Cessation	199
Excessive Exercise	200
Excessive Spending	200
Compulsive Gambling	200
Interpersonal and Love Relationships	200
Workaholics	200
Sex Addiction	201
Domestic Violence	201

11	Personality Disorders	203
	Introduction	203
	Self-Help Treatment for Personality Disorders	204
	Treatment Utilization and Response	204
	Borderline Inpatients	206
	Manualized Supportive-Expressive Psychotherapy	207
	Dialectical Behavior Therapy	207
	Modified Forms of DBT	208
	DBT for PPD and OCPD	208
	DBT for Adolescents	209
	DBT for Opioid Dependency Among Women Diagnosed with BPD	210
	Guided Self-Help for Binge Eating Disorder and Co-morbid Personality Disorder	211
	Social Problem-Solving Plus Psychoeducation	212
