

# Contents

|          |  |            |
|----------|--|------------|
| <b>1</b> | <b>RNAi: A New Paradigm in Cancer Gene Therapy .....</b>   | <b>1</b>   |
|          | Edna M. Mora, Selanere L. Mangala,<br>Gabriel Lopez-Berestein, and Anil K. Sood  |            |
| <b>2</b> | <b>Gene-Based Therapy for Cancer: Brain Tumors.....</b>  | <b>17</b>  |
|          | Hong Jiang and Juan Fueyo  |            |
| <b>3</b> | <b>Gene Therapy of Prostate Cancer .....</b>   | <b>33</b>  |
|          | Svend O. Freytag, Hans Stricker, Benjamin Movsas,<br>Mohamed Elshaikh, Ibrahim Aref, Kenneth Barton,<br>Stephen Brown, Farzan Siddiqui, Mei Lu, and Jae Ho Kim                             |            |
| <b>4</b> | <b>siRNA Versus shRNA for Personalized Cancer<br/>Therapy: Mechanisms and Applications .....</b>   | <b>51</b>  |
|          | John S. Vorhies, Donald D. Rao, Neil Senzer, and John Nemunaitis   |            |
| <b>5</b> | <b>Tumor Suppressor Gene Therapy .....</b>   | <b>63</b>  |
|          | Jack A. Roth, John Nemunaitis, Lin Ji, and Rajagopal Ramesh  |            |
| <b>6</b> | <b>Targeted Oncolytic Adenovirus for Human Cancer Therapy:<br/>Gene-Based Therapies for Cancer.....</b>  | <b>79</b>  |
|          | Toshiyoshi Fujiwara  |            |
| <b>7</b> | <b>Gene Therapy for Malignant Pleural Mesothelioma.....</b>  | <b>95</b>  |
|          | Edmund K. Moon, Sunil Singhal, Andrew R. Haas,<br>Daniel H. Serman, and Steven M. Albelda  |            |
| <b>8</b> | <b>Mesenchymal Stem/Stromal Cells as Cellular Vehicles<br/>for Tumor Targeting .....</b>   | <b>113</b> |
|          | Frank Marini, Matus Studeny, Jennifer Dembinski, Keri L. Watson,<br>Shannon Kidd, Erika Spaeth, Zhizong Zeng, Xiaoyang Ling,<br>Ann Klopp, Fredrick Lang, Brett Hall, and Michael Andreeff |            |

|           |  |     |
|-----------|--|-----|
| <b>9</b>  | <b>Retargeting Adenovirus for Cancer Gene Therapy</b> .....  | 141 |
|           | Erin E. Thacker and David T. Curiel  |     |
| <b>10</b> | <b>Lentiviruses: Vectors for Cancer Gene Therapy</b> .....   | 155 |
|           | Yuan Lin, Amar Desai, and Stanton L. Gerson  |     |
| <b>11</b> | <b>Interleukin-24 Gene Therapy for Melanoma</b> .....  | 181 |
|           | Nancy Poindexter, Rajagopal Ramesh, Suhendan Ekmekcioglu,<br>Julie Ellerhorst, Kevin Kim, and Elizabeth A. Grimm |     |
| <b>12</b> | <b>Herpes Simplex Virus 1 for Cancer Therapy</b> .....   | 203 |
|           | Richard L. Price, Balveen Kaur, and E. Antonio Chiocca   |     |
| <b>13</b> | <b>Telomerase as a Target for Cancer Therapeutics</b> .....  | 231 |
|           | Jerry W. Shay  |     |
| <b>14</b> | <b>Gene Therapy for Sarcoma</b> .....  | 251 |
|           | Keila E. Torres and Raphael E. Pollock   |     |
|           | <b>Index</b> .....   | 269 |

Gene-Based Therapies for Cancer

Roth, J.A. (Ed.)

2010, XIV, 278 p., Hardcover

ISBN: 978-1-4419-6101-3
