

# Contents

<b>Chiral Recognition Mechanisms in Enantiomers Separations: A General View . . . . .</b>	<b>1</b>
Alain Berthod	
<b>Preparation and Chiral Recognition of Polysaccharide-Based Selectors . . . . .</b>	<b>33</b>
Tomoyuki Ikai and Yoshio Okamoto	
<b>Description and Evaluation of Chiral Interactive Sites on Bonded Cyclodextrin Stationary Phases for Liquid Chromatography . . . . .</b>	<b>53</b>
Thomas E. Beesley	
<b>Cyclofructans, a New Class of Chiral Stationary Phases . . . . .</b>	<b>77</b>
Chunlei Wang, Ping Sun, and Daniel W. Armstrong	
<b>Chiral Recognition and Enantioseparation Mechanisms in Capillary Electrokinetic Chromatography . . . . .</b>	<b>97</b>
Bezhan Chankvetadze	
<b>Chiral Recognition Mechanism: Practical Considerations for Pharmaceutical Analysis of Chiral Compounds . . . . .</b>	<b>153</b>
Brian Lingfeng He	
<b>Chiral Recognition with Macrocyclic Glycopeptides: Mechanisms and Applications . . . . .</b>	<b>203</b>
Alain Berthod, Hai Xiao Qiu, Sergey M. Staroverov, Mikhail A. Kuznestov, and Daniel W. Armstrong	
<b>Vancomycin Molecular Interactions: Antibiotic and Enantioselective Mechanisms . . . . .</b>	<b>223</b>
Timothy J. Ward, Aprile Gilmore, Karen Ward, and Courtney Vowell	
<b>Enantioselective Recognition in Solution: The Case of Countercurrent Chromatography . . . . .</b>	<b>241</b>
Núria Rubio and Cristina Minguillón	

<b>Enantioselective Properties of Nucleic Acid Aptamer Molecular Recognition Elements . . . . .</b>	<b>275</b>
Eric Peyrin	
<b>Chiral Ionic Liquids in Chromatographic Separation and Spectroscopic Discrimination . . . . .</b>	<b>289</b>
Min Li, David K. Bwambok, Sayo O. Fakayode and Isiah M. Warner	
<b>Index . . . . .</b>	<b>331</b>

Chiral Recognition in Separation Methods  
Mechanisms and Applications

Berthod, A. (Ed.)

2010, XIV, 337 p., Hardcover

ISBN: 978-3-642-12444-0
