

Contents

The Mastigont System in Trichomonads	1
Marlene Benchimol	
Subpellicular Microtubules in Apicomplexa and Trypanosomatids	27
Wanderley de Souza and Marcia Attias	
Flagellum Structure and Function in Trypanosomes	63
Johanna Buisson and Philippe Bastin	
The Flagellar Pocket of Trypanosomatids: A Critical Feature for Cell Morphogenesis and Pathogenicity	87
Paul G. McKean and Keith Gull	
Reservosomes of <i>Trypanosoma cruzi</i>	115
Narcisa Leal Cunha-e-Silva, Celso Sant’Anna, Miria G. Pereira, and Wanderley de Souza	
Megasomes in <i>Leishmania</i>	131
Diane McMahon-Pratt, Tania Ueda-Nakamura, and Yara M. Traub-Csekö	
Organelles and Trafficking in <i>Entamoeba histolytica</i>	149
Sherri S. Smith and Nancy Guillen	
Secretory Organelles in Apicomplexa	175
Jean François Dubremetz	
Secretory Events During <i>Giardia</i> Encystation	195
Fernando D. Rivero, Dana Müller, and Hugo D. Lujan	

The Remarkable Mitochondrion of Trypanosomes and Related Flagellates	227
Julius Lukeš, Hassan Hashimi, Zdeněk Verner, and Zdenka Čičová	
The Apicoplast: An Ancient Algal Endosymbiont of Apicomplexa	253
Swati Agrawal, Sethu Nair, Lilach Sheiner, and Boris Striepen	
The Glycosome of Trypanosomatids	285
Fred R. Opperdoes	
Calcium Homeostasis and Acidocalcisomes in <i>Trypanosoma cruzi</i>	299
Paul Ulrich, Roxana Cintrón-Moret, and Roberto Docampo	
Index	319

Structures and Organelles in Pathogenic Protists

de Souza, W. (Ed.)

2010, XII, 324 p. 78 illus., 19 illus. in color., Hardcover

ISBN: 978-3-642-12862-2
