

# Contents

<b>Free-Living Protozoa with Endosymbiotic Methanogens</b> .....	1
Tom Fenchel and Bland J. Finlay	
<b>Anaerobic Ciliates and Their Methanogenic Endosymbionts</b> .....	13
Johannes H.P. Hackstein	
<b>Symbiotic Methanogens and Rumen Ciliates</b> .....	25
Kazunari Ushida	
<b>The Methanogenic and Eubacterial Endosymbionts of <i>Trimyema</i></b> .....	35
Naoya Shinzato and Yoichi Kamagata	
<b>Termite Gut Flagellates and Their Methanogenic and Eubacterial Symbionts</b> .....	55
Yuichi Hongoh and Moriya Ohkuma	
<b>Methanogens in the Digestive Tract of Termites</b> .....	81
Andreas Brune	
<b>Methanogenic Archaea in Humans and Other Vertebrates</b> .....	101
Everly Conway de Macario and Alberto J.L. Macario	
<b>Methanogens in the Gastro-Intestinal Tract of Animals</b> .....	115
Johannes H.P. Hackstein and Theo A. van Alen	
<b>Syntrophy in Methanogenic Degradation</b> .....	143
Petra Worm, Nicolai Müller, Caroline M. Plugge, Alfons J.M. Stams, and Bernhard Schink	

<b>Hydrogenosomes</b> .....	175
Johannes H.P. Hackstein and Aloysius G.M. Tielens	
<b>Evolution of Prokaryote-Animal Symbiosis from a Genomics Perspective</b> .....	207
Rosario Gil, Amparo Latorre, and Andrés Moya	
<b>Index</b> .....	235

(Endo)symbiotic Methanogenic Archaea

Hackstein, J.H.P. (Ed.)

2010, XIV, 238 p. 57 illus., 9 illus. in color., Hardcover

ISBN: 978-3-642-13614-6
