

Contents

1	Introduction	1
	References	3
2	The Main Types of Groundwater Base-Level	5
3	Factors Controlling Base-Level Elevation Changes	7
	3.1 General	7
	3.2 Global, Regional and Local Climate Changes	7
	3.3 Tectonic Movements	10
	3.4 Isostatic and Glacio-Isostatic Movements	10
	3.5 Land Subsidence Through Compaction and Dewatering	12
	3.6 Groundwater Cones of Depression Caused by Natural Processes of Evapotranspiration	13
	3.7 Groundwater Cones of Depression Caused by Groundwater Exploitation	15
	References	16
4	Methods and Techniques to Define Base-Level Elevation and to Measure and Assess the Effect of Their Variation on Adjoining Groundwater Systems	21
	4.1 Base-Level Elevation	21
	4.1.1 Current Ground Level Measurements	21
	4.1.2 Current Sea and Lake Level Measurements	22
	4.1.3 Paleo- and Historic Shorelines	23
	4.2 Methods to Determine Groundwater Systems' Response to Base-Level Changes	29
	4.2.1 Current Field Measurement	29
	4.2.2 Indirect Estimation	30
	4.2.3 Hydrological Simulations	31
	References	32

5	Capturing of Groundwater Basins and Shifts of Divides	37
5.1	General	37
5.2	Climate Changes	37
5.3	Tectonically Induced Elevation Changes of Base-Levels	38
5.4	Karst Systems	39
5.5	Stream Piracy by Groundwater Sapping	40
5.6	Groundwater Exploitation	40
	References	41
6	Salinity, Salination and Freshening of the Different Base-Levels and Their Adjoining Groundwater Systems	43
6.1	General	43
6.2	The Global Marine Base-Level	43
6.2.1	Base-Level Salinity	43
6.2.2	Adjoining Groundwater Systems Salinity	43
6.3	Continental Endorheic Base-Levels Distant from the Sea	46
6.3.1	Base-Level Salinity	46
6.3.2	Adjoining Groundwater Systems Salinity	47
6.4	Flow-Through, Intermediate, Base-Levels	49
6.4.1	Base-Level Salinity	49
6.4.2	Adjoining Groundwater Systems Salinity	49
6.5	Salinity of Endorheic Base-Levels Below Sea Level, Close to the Sea	50
6.6	Freshening of Coastal Aquifers	50
	References	53
7	Paleo, Current and Future Marine Base-Levels	55
7.1	General	55
7.2	The Neogene Marine Mediterranean Base-Level	55
7.3	The Black Sea Neogene to Holocene Base-Levels	58
7.4	Quaternary and Holocene Marine Base-Levels	61
7.5	Current and Future Marine Base-Levels	63
	References	65
8	Characteristics of Current Continental Endorheic Base-Levels	69
	References	72
9	Current Continental Base-Levels Above Sea Level	73
9.1	General	73
9.2	Lake Chad Basin	73
9.3	The Great Salt Lake Basin	77
9.4	The Andean Altiplano Basin	80
9.5	The Aral Sea Basin	83

9.6 The Mono Lake Basin, California	85
9.7 The Main Ethiopian Rift Basin	90
References	95
10 Current Continental Base-Levels Below Sea Level and Distant from the Sea	101
10.1 General	101
10.2 The Great Artesian Basin and Lake Eyre Basin, Australia	101
10.3 The Death Valley Basin	106
10.4 Central Asia Closed Endorheic Basins	109
10.5 The Caspian Sea-Kara Bogaz Gol Basin	113
References	116
11 Current Continental Base-Levels Below Sea Level, Located Close to the Sea	119
11.1 General	119
11.2 The Dead Sea Rift Endorheic Base-Level	120
11.2.1 General	120
11.2.2 Structure and Tectonics	122
11.2.3 The Hydrological History of the DSR Base-Level	122
11.2.4 Current Groundwater Flow Regime	125
11.2.5 Water Salinities of the DSR Base-Levels and Their Adjoining Groundwater Systems	126
11.2.6 The Response of the Groundwater System to the DSR Base-Level Changes	131
11.3 The Afar Depression-Lake Asal	140
11.4 The Qattara Depression	144
11.5 The Salton Trough Base-Level	147
11.6 The Chotts of Tunisia and Algeria	149
11.7 Sabkhat Ghuzayyil, Sirte Basin, Libya	152
11.8 Lago Enriquillo, Dominican Republic	155
11.9 The Argentine Salinas Close to the Atlantic Coast	156
11.10 Sebkha Paki Tah, Morocco	157
11.11 Salination Mechanism	157
References	158
Index	167

Groundwater Base Level Changes and Adjoining
Hydrological Systems

Kafri, U.; Yechieli, Y.

2010, IX, 171 p., Hardcover

ISBN: 978-3-642-13943-7
