

Contents

1 Preliminaries	1
1.1 Notation	1
1.2 Superficial Elements	3
1.3 The Hilbert Function and Hilbert Coefficients	8
1.4 Maximal Hilbert Functions	12
2 Bounds for $e_0(\mathbb{M})$ and $e_1(\mathbb{M})$	15
2.1 The Multiplicity and the First Hilbert Coefficient: Basic Facts	16
2.2 The One-Dimensional Case	20
2.3 The Higher Dimensional Case	31
2.4 The Border Cases	37
3 Bounds for $e_2(\mathbb{M})$	49
3.1 The Ratliff–Rush filtration	49
3.2 Bounds for $e_2(\mathbb{M})$	51
4 Sally’s Conjecture and Applications	63
4.1 A Bound on the Reduction Number	65
4.2 A Generalization of Sally’s Conjecture	69
4.3 The Case $e_1(\mathbb{M}) = e_0(\mathbb{M}) - h_0(\mathbb{M}) + 1$	73
4.4 The Case $e_1(\mathbb{M}) = e_0(\mathbb{M}) - h_0(\mathbb{M}) + 2$	75
5 Applications to the Fiber Cone	79
5.1 Depth of the Fiber Cone	80
5.2 The Hilbert Function of the Fiber Cone	81
5.3 A Version of Sally’s Conjecture for the Fiber Cone	82
5.4 The Hilbert Coefficients of the Fiber Cone	85
5.5 Further Numerical Invariants: The g_i	86
6 Applications to the Sally Module	89
6.1 Depth of the Sally Module	90
6.2 The Hilbert Function of the Sally Module	90
