

Contents

1	Introduction	1
1.1	Rock Terms	2
1.2	Sanidinite Facies	5
2	Thermal Regimes and Effects	11
2.1	Igneous Pyrometamorphism	11
2.1.1	Aureoles	11
2.1.2	Xenoliths	17
2.2	Combustion Pyrometamorphism	21
2.2.1	The Burning Process	21
2.3	Lightning Pyrometamorphism	30
2.4	Other Thermal Effects	34
2.4.1	Columnar Jointing	34
2.4.2	Microcracking	39
2.4.3	Dilation	41
2.4.4	Preservation of Glass and Glass Compositions	42
3	Quartzofeldspathic Rocks	45
3.1	Experimental Data and Petrogenetic Grid	49
3.2	Contact Aureoles and Xenoliths	55
3.2.1	Psammitic-Pelitic Rocks and Phyllite-Schist-Gneiss Equivalents	55
3.2.2	Sanidinite	89
3.2.3	Granitoids	94
3.2.4	Combustion Metamorphism	103
3.2.5	Lightning Strike Metamorphism	136
3.2.6	Vapour Phase Crystallisation	137
4	Calc-Silicates and Evaporates	141
4.1	Calc-Silicates	141
4.1.1	CO ₂ -H ₂ O in Fluid Phase	146
4.1.2	T-P-XCO ₂ Relations	149
4.1.3	Contact Aureoles and Xenoliths	157
4.1.4	Combustion Pyrometamorphism	185

4.2	Evaporites	196
4.2.1	Irkutsk	196
4.2.2	Martian Meteorite	197
5	Mafic Rocks	199
5.1	Basaltic Rocks	199
5.1.1	Contact Aureoles	199
5.1.2	Xenoliths	206
5.1.3	Amygdules and Mesostasis	207
5.1.4	Weathered Mafic Rocks	213
5.2	Aluminous Ultramafic Rocks	219
5.2.1	Tari-Misaka Complex	222
5.3	Hydrothermally-Altered Andesite	222
5.3.1	White Island	223
5.4	Vapour Phase Crystallisation	226
5.4.1	Ruapehu	226
5.4.2	Vesuvius	227
5.5	Lightning Strike Fusion	227
5.5.1	Adamello	227
5.5.2	Kronotskaya Sopka	228
5.5.3	Mt. Etna	231
5.5.4	Katzenbuckel	232
5.5.5	Frankenstein	233
6	Anthropogenic and Biomass Pyrometamorphism	235
6.1	Bricks/Ceramics	235
6.1.1	Non-carbonate Mixtures	236
6.1.2	Carbonate-Bearing (Marl) Compositions	239
6.2	Spoil Heaps	247
6.2.1	Chelyabinsk	247
6.2.2	Oslavany	252
6.3	In-Situ Gasification	253
6.3.1	Centralia	253
6.3.2	Thulin	255
6.4	Contact Metamorphism of Coal and Coal Ash Fusion	256
6.4.1	Contact Metamorphism	256
6.4.2	Coal Ash Fusion	259
6.5	Biomass Surface Burning and Vitrification	264
6.5.1	Wood Ash Stones	264
6.5.2	Botswana	265
6.5.3	Tel Yin'am	267
6.5.4	Southland	268
6.5.5	Otz Valley	268
6.5.6	Vitrified Forts	269
6.5.7	Charcoal Manufacture	271

6.6	Industrial Slag	274
6.6.1	Oil Shale	274
6.6.2	Blast Furnace Slag	274
6.6.3	Iron Slag	278
6.7	Inorganic Solid Waste	279
6.7.1	Wood-Fuel Ash Slag	280
6.8	Drilling	283
6.8.1	California	283
6.8.2	Denmark	283
6.9	Artificial Fulgurite	285
6.9.1	Otago	285
6.9.2	Torre de Moncorvo	288
7	Metastable Mineral Reactions	289
7.1	Quartz	293
7.2	Plagioclase	295
7.3	Muscovite	297
7.4	Chlorite	301
7.5	Biotite	304
7.6	Amphiboles	308
7.7	Clinopyroxene	309
7.8	Olivine	312
7.9	Al-Silicates	313
7.10	Garnet	316
7.11	Staurolite	318
7.12	Cordierite	321
7.13	Ankerite and Siderite	325
7.14	Pyrite and Pyrrhotite	328
