<b>Foreword: So Why Do We Need Supported Catalysts?</b> .....	v
<b>Preface</b> .....	xi
<b>1 Fine Chemicals Synthesis Through Heterogenized Catalysts: Scopes, Challenges and Needs</b> .....	1
Duncan Macquarrie	
<b>2 Biomimetic Single-Site Heterogeneous Catalysts: Design Strategies and Catalytic Potential</b> .....	37
David Xuereb, Joanna Dzierzak, and Robert Raja	
<b>3 Heterogenization on Inorganic Supports: Methods and Applications</b> .....	65
José M. Fraile, José I. García, José A. Mayoral, and Elisabet Pires	
<b>4 Covalent Heterogenization of Asymmetric Catalysts on Polymers and Nanoparticles</b> .....	123
Ciril Jimeno, Sonia Sayalero, and Miquel A. Pericàs	
<b>5 Heterogenization of Homogeneous Catalysts on Dendrimers</b> .....	171
Vital A. Yazerski and Robertus J.M. Klein Gebbink	
<b>6 Catalytic Membranes Embedding Selective Catalysts: Preparation and Applications</b> .....	203
Enrico Drioli and Enrica Fontananova	
<b>7 Immobilized Complexes for Enantioselective Catalysis: the Industrial Perspective</b> .....	231
Benoît Pugin and Hans-Ulrich Blaser	

<b>8 Chemical Reaction Engineering Aspects for Heterogenized Molecular Catalysts</b> .....	247
Albert Renken	
<b>9 Chemoselective and Enantioselective Hydrogenations on Immobilized Complexes</b> .....	283
Agnes Zsigmond, Ferenc Notheisz, Petr Kluson, and Tomas Floris	
<b>10 Oxidations Mediated by Heterogenized Catalysts</b> .....	361
Paulo Forte and Dirk De Vos	
<b>11 Heterogeneous Initiators for Sustainable Polymerization Processes</b> .....	385
Matthew D. Jones	
<b>12 Reactivity and Selectivity of Heterogenized Homogeneous Catalysts: Insights from Molecular Simulations</b> .....	413
Kouros Malek and Rutger A. Van Santen	
<b>13 Instrumental Techniques for the Investigation of Heterogenised Catalysts: Characterisation and In situ Studies</b> .....	433
John Evans and Moniek Tromp	
<b>Index</b> .....	449
